

TABLE OF CONTENTS

	<u>Page</u>
1. Introduction	1
1.1 Team's Mission	1
2. The Survey	3
2.1 General	3
2.1.1 Extent and nature of survey	3
2.1.2 Physical characteristics	3
2.1.3 Population	4
2.1.4 Land utilization	5
2.1.5 Water conservation	5
2.2 Organization of National Health Services	6
2.2.1 Ministry of Public Health	7
2.2.2 Medical Education	21
3. The North-Eastern Region	24
3.1 Health Services	24
3.1.1 Organization and structure	24
3.1.2 Provision of health services	26
3.1.3 Provincial public health laboratory services	27
3.2 Medical Services	28
3.2.1 Hospitals	28
3.2.2 Personnel	30
3.2.3 Financial aspects of a hospital expansion programme for the North-East Region	31
3.2.4 Hospitals in the North-East Region of special significance	31
3.2.5 Disease pattern seen in the hospitals	34
3.3 Diseases of Public Health Importance	35
3.3.1 Water-borne Diseases	35
3.3.2 Diseases due to poor sanitation	38
3.3.3 Insect-borne diseases	39
3.3.4 Other infectious diseases	41
3.3.5 Nutritional diseases	45
3.4 Environmental Sanitation	49
3.4.1 Population Distribution	49
3.4.2 Rural communities and housing	50
3.4.3 Urban communities	51
3.4.4 Public water supplies	52
3.4.5 Waste disposal facilities	56
3.4.6 Food preparation and handling	57
3.4.7 Stream and air pollution	58
3.4.8 Miscellaneous	58
3.5 Inter-ministerial and Inter-departmental co-operation in the field of rural health development	60

	<u>Page</u>
3.5.1 The Thai-SEARO Regional Community Development Technical Assistance Centre in Ubol	60 62
3.5.2 Mobile Medical Teams	62
3.6 Inter-ministerial Agencies Collaborating in Environmental Sanitation	63 64
3.7 The School for Health Workers in Khonkaen	64
4. Chiengrai Province	65
4.1 Health Services	65
4.2 Diseases of Public Health Importance	66
4.2.1 Tuberculosis	66
4.2.2 Endemic goitre	67
4.2.3 Parasitism	67
4.2.4 Malaria	67
4.3 Environmental Conditions	67
5. Public Health Implications of Mekong Projects	69
6. Recommendations	71
6.1 Health Services	71
6.1.1 Existing health needs	71
6.1.2 Expansion and provision of services for future needs	72
6.1.3 Education and training	73
6.2 Environmental Sanitation	73
6.2.1 Overall regional planning	73
6.2.2 Community planning and housing	73
6.2.3 Public water supplies	74
6.2.4 Sewage and waste disposal	75
6.2.5 Refuse disposal	76
6.2.6 Food preparation and handling	77
6.2.7 Provision of sanitation facilities in institutions	77
6.2.8 Stream and air pollution	78
6.3 Measures for Disease Control	79
6.3.1 Water control in general	79
6.3.2 Water control in irrigation schemes	79
6.3.3 Drainage and filling of marshes	79
6.3.4 Chemical treatment of water bodies	80
6.3.5 Planning and siting of communities	80
6.3.6 Chemoprophylaxy in the control of parasitic diseases	80
6.3.7 Health education	81

ANNEXES

1. Provinces in Thailand in the Mekong River Basin
2. Projects by Irrigation Department

3. Organizational Chart of the Ministry of Public Health in Thailand
4. Health and Midwifery Centres in the North-East Region and Chiangrai
5. Health Laboratory Services in the North-East Region and Chiangrai
6. Effective Use of Hospital Beds in North-East Region in 1964
7. Effective Use of Hospital Beds in North-East Region in 1966
8. Actual Hospital Personnel by Category in North-East Region and Chiangrai
