

# CONTENTS

1

<b>THE ELEMENTARY UNIT OF LIFE: THE CELL.....</b>	<b>1</b>
Biological Properties of Life .....	2
Cellular Organization of Protoplasm .....	4
Methods of Cell Study .....	6
Similarities and Differences Between "Typical" Plant and Animal Cells .....	10
Structure of the Cell.....	11
Interdependence of the Nucleus and Cytoplasm.....	20

2

<b>MULTIPLICATION BY DIVISION .....</b>	<b>22</b>
Factors Influencing Cell Division.....	23
Description of Mitosis.....	25
Timing of the Stages of Mitosis.....	29
Discussion of Some Significant Events of Mitosis.....	30
Significance of Mitosis .....	32

3

<b>BASIC CHEMISTRY OF THE CELL.....</b>	<b>35</b>
Some Chemical Concepts .....	36
Inorganic Compounds.....	44
Organic Compounds .....	46
Physical Properties of Cells.....	54
Special Compounds Participating in Biological Processes.....	55

## CONTENTS

### 4

<b>THE PLASMA MEMBRANE .....</b>	<b>65</b>
The Concentration Gradient.....	66
Osmosis.....	67
Influence of the Chemical Nature of the Membrane on the Permeability of Solutes.....	70
Pore Size .....	72
Active Transport and Pinocytosis.....	73
Some Water and Salt Problems in Aquatic Animals.....	75

### 5

<b>CLASSIFICATION .....</b>	<b>80</b>
Beginnings.....	83
The Basis of the Linnaean Classification.....	88
Present System of Classification.....	92
Numbers of Species.....	95
Brief Classification of Plants .....	95
Brief Classification of Animals .....	96

### 6

<b>BACTERIA AND VIRUSES .....</b>	<b>98</b>
Historical Background .....	99
Bacteria.....	101
Viruses .....	108

### 7

<b>THE STEM, THE ROOT, AND THE LEAF.....</b>	<b>118</b>
Cell Types of the Vascular Plant .....	119
The Stem and Its Tissues.....	121
The Root and Its Tissues .....	126
The Leaf and Its Tissues.....	129
Continuity of the Vascular System.....	134

### 8

<b>PHOTOSYNTHESIS .....</b>	<b>137</b>
Types of Nutrition .....	139
Efficiency and Magnitude of Photosynthesis .....	139
Historical Development.....	141
Photosynthesis in the Leaf.....	142
Chlorophyll and the Chloroplast .....	143
Biochemistry of Photosynthesis .....	144
Factors Limiting Photosynthesis.....	149

**9**

<b>LIFE FROM THE SOIL .....</b>	154
Mineral Absorption .....	155
Nitrogen Cycle .....	160
Translocation in the Phloem .....	166

**10**

<b>LIFE FROM WATER .....</b>	170
Water Loss.....	171
Water Gain .....	174
Water Transport in the Stem and Leaves.....	177
Water Conservation.....	179

**11**

<b>THE HEART AND THE BLOOD .....</b>	182
Plan of the Closed Circulatory System.....	183
Structure of the Heart.....	183
The Fetal Heart.....	186
Initiation of the Heart Beat.....	188
Factors Influencing Heart Rate .....	191
Electrical Activity in the Heart .....	192
Disorders of the Heart.....	194
Composition of the Blood .....	195

**12**

<b>THE FATE OF FOOD MATERIALS .....</b>	202
Basic Design of the Digestive System.....	203
Human Alimentary Canal .....	205
Enzymatic Digestion of Food .....	208
Control of Digestive Enzyme Secretion.....	209
Assimilation .....	213
Role of the Liver.....	215

**13**

<b>EXCHANGE OF OXYGEN AND CARBON DIOXIDE .....</b>	218
Mechanisms of Gaseous Exchange .....	219
Human Respiratory System .....	223
Transport of O <sub>2</sub> and CO <sub>2</sub> by the Blood .....	226
Energy Expenditure .....	228

## CONTENTS

14

### **CELLULAR BIOENERGETICS .....** 232

Oxidation and Reduction .....	233
Bond Energy .....	234
Releasing Chemical Free Energy .....	235
Trapping Free Energy by ATP .....	237
Role of Mitochondria .....	239
Aerobic Metabolism .....	239
Anaerobic Metabolism .....	243
Muscular Contraction .....	245

4 15  
16

### **WASTE DISPOSAL .....** 249

Nitrogenous Wastes .....	250
Two Invertebrate Excretory Organs .....	251
Anatomy of the Human Kidney .....	253
The Function of the Nephron .....	255
Threshold .....	258
Antidiuretic Hormone (Vasopressin) .....	259
Conserving Water .....	259

4 16  
17

### **NERVOUS COORDINATION .....** 262

The Neuron .....	263
Evolution of the Nervous System .....	265
Human Nervous System .....	268
Transmission of the Nerve Impulse .....	272
Chemical Mediation .....	274
Nerve Degeneration and Regeneration .....	277
The Brain .....	278

17

### **CHEMICAL COORDINATION .....** 284

Plant Hormones .....	285
Animal Hormones .....	293

18

### **ANIMAL REPRODUCTION AND DEVELOPMENT .....** 308

Distribution of Asexual and Sexual Reproduction .....	309
Meiosis .....	312
Spermatogenesis .....	315
Oogenesis .....	317

## CONTENTS

Some Aspects of the Fertilization Process.....	319
Internal Organization of the Egg as It Affects Cleavage.....	321
Early Development.....	322
Differentiation of Nucleus and Cytoplasm.....	324
Human Reproduction.....	326
19	
<b>PLANT REPRODUCTION AND DEVELOPMENT .....</b>	332
Asexual Reproduction .....	333
Sexual Reproduction .....	339
20	
<b>INHERITANCE .....</b>	359
Mendel's Methods .....	360
Results of the Monohybrid Cross.....	361
Concepts and Terminology.....	362
Explanation of a Monohybrid Cross.....	362
Dihybrid Cross .....	363
Test Cross.....	365
Incomplete Dominance .....	366
Interactions Between Genes.....	367
Multiple Alleles.....	370
Recombination.....	372
Sex Determination and Sex Linkage .....	375
Chromosome Rearrangement .....	380
Point Mutations .....	382
21	
<b>MOLECULAR GENETICS .....</b>	385
The Genetic Code.....	386
Reproducing the Message.....	387
Confirmation of the Code .....	389
Chemical Basis of Mutation .....	390
Applications to Human Disease .....	396
22	
<b>ECOLOGY .....</b>	400
Scope of Ecology.....	401
Populations .....	402
The Community .....	412
Ecosystem .....	417

## CONTENTS

23

<b>SPECIES EMERGING .....</b>	<b>423</b>
A Few Ideas Contributing to Evolutionary Thought.....	424
Darwin's Contribution.....	425
Darwin's Theory.....	426
Selection.....	428
Genetic Changes in Populations .....	430
Mutation and Speciation .....	431
Isolating Mechanisms.....	432
Evolution of Man.....	434
<b>A PRONOUNCING GLOSSARY .....</b>	<b>441</b>
<b>INDEX .....</b>	<b>459</b>
