| PREFACE TO FOURTH EDITION | i |
| LABORATORY PROCEDURE | vii |
| | |
| PART I: ZOOLOGY AS A SCIENCE | |
| <hr/> | |
| THE SCIENTIFIC METHOD | 1 |
| A. Abiogenesis | 1 |
| Spallanzani's Classic Experiment | 2 |
| Redi's Experiment | 4 |
| A Recent Experiment | 6 |
| | |
| PART II: LIFE - ITS NATURE | |
| <hr/> | |
| CHARACTERISTICS OF LIVING THINGS | 9 |
| A. Movement | 9 |
| B. Irritability | 10 |
| C. Nutrition | 10 |
| D. Metabolism | 14 |
| E. Growth | 18 |
| F. Reproduction | 20 |
| UNITS OF LIFE - CELLS | 21 |
| A. Morphology of a Typical Cell | 21 |
| B. From Single Cells to Many Cells | 23 |
| C. Organization of Cells into Tissues | 25 |
| D. The Organized Animal | 39 |
| | |
| PART III: THE RISE OF ANIMAL LIFE | |
| <hr/> | |
| PROTOZOA | 41 |
| Amoeba - a simple form | 41 |
| Paramecium - a complex form | 44 |
| The Flagellates | 48 |
| Parasitic Protozoa | 50 |
| PORIFERA | 57 |
| COELENTERATA | 58 |
| Hydra | 58 |
| Obelia | 60 |
| Gonionemus | 64 |
| PLATYHELMINTHES | 66 |
| Planaria | 66 |
| Opisthorchis | 70 |
| Schistosoma | 73 |
| Dipylidium | 75 |

| | Page |
|--|------------|
| ASCHELMINTHES | 80 |
| Ascaris | 80 |
| Trichinella | 82 |
| Hookworm | 82 |
| MOLLUSCA | 85 |
| The Clam or Fresh Water Mussel | 85 |
| The Squid | 93 |
| ANNELIDA | 99 |
| The Sandworm | 99 |
| The Earthworm | 101 |
| The Leeches | 106 |
| ARTHROPODA | 111 |
| Lobster or Crayfish | 111 |
| Grasshopper | 124 |
| Honey Bee | 131 |
| Worker Bee | 131 |
| Insect Metamorphosis | 133 |
| ECHINODERMATA | 136 |
| Starfish | 136 |
| HEMICORDATA | 140 |
| Saccoglossus | 140 |
| CHORDATA | 141 |
| Urochordata - Molgula | 141 |
| Cephalochordata - Amphioxus | 142 |
| Vertebrata - Cyclostomata - Lamprey | 144 |
| Chondrichthyes - Dogfish Shark | 145 |
| Osteichthyes - Perch | 145 |
| Amphibia - Frog, Salamander | 148 |
| Reptilia - Turtle, Snake | 149 |
| Aves - Various Types | 149 |
| Mammalia - Marsupial, Placental Mammal | 149 |

PART IV: THE ORGAN SYSTEMS OF A VERTEBRATE - FROG

| | |
|---|------------|
| EXTERNAL | 151 |
| Skeleton | 152 |
| Muscles | 156 |
| INTERNAL | 160 |
| Digestive System | 160 |
| Circulatory System | 161 |
| Breathing System | 165 |
| Urogenital System | 167 |
| Nervous System | 170 |
| Sense Organs | 170 |
| PHYSIOLOGY - FROG | 174 |
| PHYSIOLOGY - MAMMALIAN | 177 |

| PART V: CONTINUITY OF LIFE | Page |
|--|------|
| CONTINUITY OF CELLS - MITOSIS AND MEIOSIS | 181 |
| Gametogenesis | 184 |
| Oögenesis | 184 |
| Spermatogenesis | 186 |
| DEVELOPMENT OF THE INDIVIDUAL - EMBRYOLOGY | 189 |
| Early Embryology | 189 |
| Starfish | 189 |
| Frog | 189 |
| Late Embryology | 191 |
| Chick | 191 |
| Late Mammalian Embryology | 196 |
| Fetal Pig | 196 |
| External Anatomy | 196 |
| Internal Anatomy | 199 |
| Digestive Tract | 199 |
| Urogenital System | 201 |
| Circulatory System | 206 |
| Breathing System | 211 |
| Nervous System | 211 |
| Sense Organs | 215 |
| CONTINUITY OF THE RACE - GENETICS | 219 |
| Problems | 219 |
| Monohybrid Inheritance | 219 |
| Dihybrid Inheritance | 220 |
| Sex-Linked Inheritance | 222 |
| CLASSIFICATION OF THE ANIMAL KINGDOM | 225 |
| APPENDIX | |
| THE MICROSCOPE | 233 |
| LABORATORY PREPARATIONS | 236 |
| Reagents | 236 |
| Diffusion Experiment | 236 |
| Source of Materials | 237 |
| Turtle Heart Preparation | 237 |
| Cross Sections | 237 |
| Frozen Squid | 237 |
