Chapter

I.	PSYCHOLOGICAL NEEDS OF THE CRITICALLY ILL PATIENT	3
	By Beverley H. Durrett, R.N., M.N.	
	Assessment of Psychological Needs	3
	Affective Responses of Patients to Serious Illness	5
	Body Image	7
	Depersonalization	9
	Families	9
	Summary	11
	Bibliography	12
II.	ASSESSMENT AND MANAGEMENT OF PATIENTS WITH RESPIRATORY CRISIS SITUATION	13
	By James Rhudine, R.N., M.S.N.	
	Taylor, E. Laurette, M.S., R.R.T.	
	Walker, Yuba, R.N., M.Ed.	
	Anatomy and Physiology of the Respiratory System	14
	Mechanical Ventilation	19
	Oxygen Therapy	34
	Interpretation of Arterial Blood Gas Values	36
	Assessing Respiratory Function	44
	Tracheostomy	51
	Pneumothorax	56

<i>Chapter</i>	<i>page</i>
Pneumonia	62
Chronic Obstructive Pulmonary Disease	65
Respiratory Pharmacologic Agents	69
III. ASSESSMENT AND MANAGEMENT OF PATIENTS WITH ACUTE CARDIAC PROBLEMS . . .	76
By Joan M. Joyce, Ed.D., R.N.	
The Heart and Coronary Arteries	76
Myocardial Infarction	86
Recognition and Management of Pump Failure in MI Patients	106
Recognizing Common Cardiac Arrhythmias . . .	118
Electrical Axis: How to Recognize Deviations on the ECG and Interpret Them	128
IV. ASSESSMENT AND MANAGEMENT OF PATIENTS WITH RENAL FAILURE.	153
By Golden Kroemeke, M.A., R.N.	
Renal System	153
Renal Disease	160
Acute Renal Failure	163
Chronic Renal Failure	169
References.	178
V. ASSESSMENT AND MANAGEMENT OF THE BURN PATIENT	180
By Jeanne Lesser, M.S.N., R.N., Doctoral Candidate (USF)	
Assessment of the Burn Patient.	180
Anatomy and Physiology	180
Assessment of Damage to the Skin	181
Assessment of Fluid and Electrolyte Balance . .	186
Priorities During Emergency Care	188
Management of the Acute Burn Patient.	191
References.	201
VI. ASSESSMENT AND MANAGEMENT OF THE PATIENT WITH NEUROLOGICAL PROBLEMS . .	202
By Frances W. "Billie" Sills, R.N., M.S.N.	
Neuroanatomy and Physiology	203

Chapter

page

Organization of Central Nervous System	203
The Neuron	204
Supportive Structures of the Nervous System	205
Meninges	205
Vascular System	206
Cerebrospinal Fluid System	207
The Blood-brain Barrier	208
The Brain	208
Cranial Nerves	211
The Spinal Cord	213
Altered States of Consciousness	217
Consciousness	217
Delirium	218
Stupor	219
Coma	219
Early Third Nerve Stage	228
Late Third Nerve Stage	228
Subtentorial Lesions Causing Coma	229
Metabolic Brain Disorders Causing Coma	232
Summary	235
Nursing Care	236
Bibliography	239

VII.	ASSESSMENT AND MANAGEMENT OF PATIENTS WITH GASTROINTESTINAL PROBLEMS	241
	By Karlene Carolides, M.A., R.N. Carol Stastny, B.S.N., C.C.R.N.	
	Review of the Gastrointestinal System	241
	Acute Pancreatitis	243
	Treatment and Nursing Intervention	246
	References	247
	Management of Patients with Gastrointestinal Bleeding	248
	Clinical Findings	248
	Causes of Gastrointestinal Bleeding	250
	Treatment of Gastrointestinal Bleeding	251

<i>Chapter</i>	<i>page</i>
Esophageal Varices	255
Hepatic Failure/Encephalopathy	260
Hepatic Encephalopathy	263
Bibliography	264
<i>Index</i>	265
