 PART 1 MONOGRAPHS ON DRUGS AND ANCILLARY SUBSTANCES		
Adrenaline and some other Sympathomimetics		
Introduction and Classification	1	
Monographs	1	
Alcohols		
Introduction	35	
Monographs	35	
Alkalis and Organic Bases		
Introduction	42	
Monographs	42	
Amino Acids and Nutritional Agents		
Energy Requirements	47	
Trace Elements	47	
Modified Diets	47	
Parenteral Nutrition	48	
Monographs	48	
Preparations for Intravenous Administration	62	
Dietary and Nutritive Preparations	63	
Anorectics		
Introduction	65	
Monographs	65	
Antacids and some other Gastro-intestinal Agents		
Introduction	71	
Monographs	71	
Anthelmintics and Schistosomicides		
Classification of Helminths	86	
Preferred Treatment of Helminth Infections	86	
Monographs	86	
Antidepressants		
Introduction and Classification	110	
Monographs	110	
Antihypertensive Agents		
Introduction and Classification	135	
Choice of Antihypertensive Agent	135	
Antihypertensive Therapy during Anaesthesia	136	
Monographs	136	
Antineoplastic Agents and Immunosuppressants		
Introduction and Classification		171
Choice of Antineoplastic Agent		175
Use of Immunosuppressants		186
Monographs		187
Aspirin and similar Analgesic and Anti-inflammatory Agents		
Introduction and Classification		234
Analgesic Abuse		234
Monographs		235
Astringents		
Introduction		283
Monographs		283
Atropine and other Anticholinergic Agents		
Introduction and Classification		289
Monographs		289
Balsams and Resins		
Introduction		314
Monographs		314
Bitters		
Introduction		317
Monographs		317
Blood Preparations		
Introduction and Physiological Values		321
Blood Groups		321
Viral Hepatitis		321
Blood-clotting Factors		321
Monographs		322
Boric Acid and Borax		337
Bromides		
Introduction		338
Monographs		338
Caffeine and other Xanthines		
Introduction		340
Monographs		340

Camphor and Menthol		Diagnostic Agents	
Introduction	351	Introduction	515
Monographs	351	Monographs	515
Cannabis	353	Test Substances, Proprietary	527
Carbimazole and other Antithyroid Agents		Digoxin and other Cardiac Glycosides	
Introduction	356	Introduction	531
Monographs	356	Monographs	531
Central and Respiratory Stimulants		Disinfectants and Antiseptics	
Introduction	360	Introduction and Classification	547
Monographs	360	Monographs	548
Cetomacrogol and Nonionic Surfactants		Disulfiram and Citrated Calcium Carbimide	579
Introduction	370	Diuretics	
Emulsifiers and Stabilisers in Food	370	Introduction and Classification	581
Monographs	370	Monographs	581
Chelating Agents and some Drug Antagonists		Electrolytes	
Introduction	380	Homoeostasis and Physiological Factors	618
Monographs	380	Maintenance of Blood Volume and Osmolality	618
Chloroquine and other Antimalarials		Classification of Electrolyte Disorders	618
Introduction and Classification	394	Acid-base Balance	618
Resistance to Antimalarials	395	Role of Specific Ions	619
Monographs	395	Calcium Salts	619
Clofibrate and other Lipid Regulating Agents		Monographs	621
Lipids in Blood	408	Magnesium Salts	625
Classification of Lipoprotein Disorders	408	Monographs	625
Lipid Concentrations and Atherosclerosis	408	Potassium Salts	628
Choice of Hypolipidaemic Agent	408	Monographs	629
Monographs	408	Sodium Salts	633
Colchicine Allopurinol and Uricosuric Agents		Monographs	633
Introduction	416	Enzymes Choleretics and other Digestive Agents	
Monographs	416	Introduction	644
Colouring Flavouring and Sweetening Agents		Monographs	644
Classification of Colouring Agents	423	Ergot and Ergot Derivatives	
Colour Index Numbers	423	Introduction	662
Permitted Food, Drug, and Cosmetic Dyes	423	Monographs	662
Classification of Dyes According to Toxicity	423	Essential Oils and Aromatic Carminatives	
Classification of Flavouring Agents	424	Introduction	670
Choice of Flavour	424	Monographs	670
Flavouring Agents in Foods	424	Expectorants	
Monographs	424	Introduction	686
Contrast Media		Monographs	686
Introduction and Classification	434	Fixed Oils	
Monographs	434	Introduction	694
Corticosteroids		Unsaturated Fatty Acids	694
Introduction	446	Monographs	694
Corticosteroid Therapy	451	Fluorides and some Fluorine Compounds	
Monographs	459	Introduction	700
Corticotrophin	486	Monographs	700
Dermatological Agents		Glucagon	704
Introduction	490	Glycerol Glycols and Macrogols	
Monographs	490	Monographs	706
Dextrans		Glycerophosphates and Hypophosphites	
Introduction	511	Introduction	712
Monographs	511	Monographs	712

Griseofulvin and other Antifungal Agents		Iodine and Iodides	
Introduction and Classification	714	Introduction	862
Monographs	714	Monographs	862
Haemostatics		Ion-exchange Resins	
Introduction	733	Introduction	869
Monographs	733	Monographs	869
Halothane and other General Anaesthetics		Iron and Iron Salts	
Introduction	740	Introduction	872
Monographs	741	Human Requirements	872
Heparin and other Anticoagulants		Iron Therapy	872
Introduction and Classification	762	Monographs	874
Coagulation Tests	762	Levodopa and some other Dopaminergic Agents	
Use of Coagulants	762	Introduction	883
Monographs	763	Monographs	883
Hydrochloric Acid and some other Acids		Lignocaine and other Local Anaesthetics	
Introduction	783	Introduction	899
Monographs	783	Routes of Administration	901
Hydrocyanic Acid and Cyanides		Monographs	902
Introduction	790	Lysergide and other Hallucinogenic Agents	
Monographs	790	Introduction	924
Hypnotics and Sedatives		Monographs	924
Introduction	792	Metals and some Metallic Salts	
Barbiturates	792	Introduction	926
Benzodiazepines	792	Monographs	926
Other Non-barbiturate Hypnotics	792	Methylcellulose and Stabilising and Suspending Agents	
Dependence	792	Introduction	947
Monographs	792	Monographs	947
Idoxuridine and some other Antiviral Agents		Metoclopramide and some other Anti-emetics	
Introduction	820	Introduction	964
Monographs	820	Monographs	964
Insect-Repellents		Metronidazole and some other Antiprotozoal Agents	
Introduction	828	Introduction	968
Monographs	828	Amoebicides	968
Insecticides and some other Pesticides		Trichomonocides	968
Introduction	830	Trypanocides	968
Nomenclature	830	Monographs	968
Resistance to Insecticides	830	Muscle Relaxants	
Insecticides in the Body and Diet	830	Introduction and Classification	986
Carbamate Insecticides	830	Monographs	986
Chlorinated Insecticides	831	Narcotic Analgesics	
Dinitrophenol and Related Insecticides	831	Introduction	1001
Organophosphorus Insecticides	832	Enkephalins and Endorphins	1001
Larvicides	833	Monographs	1001
Molluscicides	833	Narcotic Antagonists	
Rodenticides	833	Introduction	1031
Monographs	833	Monographs	1031
Insulin and other Antidiabetic Agents		Neostigmine and other Parasympathomimetics	
Introduction	843	Introduction and Classification	1035
Blood-glucose Concentrations	843	Monographs	1035
Treatment of Diabetes	843		
Insulin Preparations	843		
Highly Purified and Human Insulins	843		
Units	843		
Oral Hypoglycaemic Drugs	843		
Monographs	844		

Nitrofurantoin and some other Urinary Anti-microbial Agents		Propranolol and other Beta-adrenoceptor Blocking Agents	
Introduction	1047	Introduction	1324
Monographs	1047	Choice and Classification of a Beta-adrenoceptor Blocking Agent	1324
Oxygen and some other Gases		Beta-adrenoceptor Blocking Therapy during Anaesthesia	1324
Introduction	1054	Monographs	1325
Monographs	1054	Prostaglandins	
Refrigerants and Aerosol Propellents	1057	Introduction and Classification	1353
Monographs	1057	Monographs	1353
Papaverine and some other Smooth Muscle Relaxants		Purgatives	
Introduction	1059	Introduction	1362
Monographs	1059	Monographs	1362
Paraffins and similar Bases		Quinidine and some other Anti-arrhythmic Agents	
Introduction	1063	Introduction and Classification	1370
Monographs	1063	Monographs	1370
Parathyroid and Calcitonin		Radiopharmaceuticals	
Introduction	1073	Radioactivity	1386
Monographs	1073	Authority to Obtain and Use Radioactive Materials	1386
Penicillins and other Antibiotics		General Uses of Radioactive Materials	1387
Introduction	1076	Storage and Disposal	1387
Antimicrobial Action	1076	Radiological Terms	1387
Testing Bacteria for Sensitivity to Antibiotic Action	1076	Radiation Data on Radionuclides	1387
Resistance	1076	Monographs	1387
Choice of Antibiotic	1078	Sex Hormones	
Combined Antibiotic Action	1080	Introduction	1401
Prophylactic Use of Antibiotics	1080	Classification	1401
Antibiotic Policies	1081	Sex Hormones in Neoplastic Disorders	1401
Hazards of Antibiotic Therapy	1081	Oral Contraceptives	1402
Antibiotics in Food	1082	Monographs on Sex Hormones	1406
Antibiotic Groups	1083		
Monographs on Antibiotics	1086	Soaps and other Anionic Surfactants	
Peroxides	1232	Introduction and Classification	1439
Phenytoin and some other Anticonvulsants		Monographs	1439
Introduction and Classification	1235	Sodium Cromoglycate and related Anti-allergic Agents	
Monographs	1235	Introduction	1445
Pholcodine and some other Cough Suppressants		Monographs	1445
Introduction and Nomenclature	1260	Solvents	
Monographs	1260	Introduction	1450
Pituitary and Hypothalamic Hormones		Abuse of Solvents	1450
Introduction	1265	Monographs	1450
Monographs	1265	Sulphonamides and Trimethoprim	
Preservatives and Antioxidants		Introduction	1457
Introduction	1281	Sulphonamide Therapy	1457
Antimicrobial Preservatives	1281	Monographs	1459
Antioxidants	1281	Sulphones and other Antileprotic Agents	
Preservatives in Food	1282	Introduction	1487
Alkyl Gallates	1282	Monographs	1487
Hydroxybenzoates	1282	Sunscreen Agents	
Monographs	1283	Introduction	1495
Promethazine and other Antihistamines		Monographs	1495
Introduction and Classification	1294		
Monographs	1295		
Allergens and Specific Desensitisation	1321		

Thyroid and other Thyroid Agents		Vaccines and other Immunological Products	
Introduction	1499	Introduction	1586
Monographs	1499	Immunisation Schedules	1586
Tranquillisers		Antisera	1587
Introduction and Classification	1504	Monographs	1587
Monographs	1504	Vasodilators	
Tuberculostatics and Tuberculocides		Introduction	1614
Introduction	1564	Monographs	1614
Prophylaxis of Tuberculosis	1564	Vitamins	
Treatment of Tuberculosis	1565	Introduction and Classification	1635
Intermittent Therapy	1566	Monographs	1635
Short-term Therapy	1566	Water	1669
Monographs	1567		
PART 2 SUPPLEMENTARY DRUGS AND OTHER SUBSTANCES.			1673
PART 3 FORMULAS OF BRITISH PROPRIETARY MEDICINES			1773
DIRECTORY OF MANUFACTURERS			1791
INDEX TO CLINICAL USES			1817
INDEX TO MARTINDALE IDENTITY NUMBERS.			1837
GENERAL INDEX			1859
