

Table of contents

Part I. HISTORICAL MICROBIOLOGY

1. The Origin and Development of Microbiology 1

Part II. MICROBIAL TECHNIQUES

2. The Isolation and Systematic Examination of Microorganisms in Culture 11
3. Taxonomy 26

Part III. CELLULAR AND MOLECULAR MICROBIOLOGY

4. Cytology 41
5. Genetics 57
6. Metabolism 65
7. Physiology 75

Part IV. CONTROL OF MICROORGANISMS

8. Sterilization 89
9. Chemotherapy 118

Part V. INFECTION AND RESISTANCE

10. Parasitism and Infectious Disease 143
11. Virulence and Pathogenesis 153
12. Innate or Nonacquired Body Defenses 165
13. Acquired Body Defenses—Components of the Immune System 179
14. Antigen-Antibody Interactions and Serology 187
15. The Immune Response 197
16. Allergy and Hypersensitivity 203

Part VI. ORAL MICROBIOTA AND ITS DISEASES

17. Microbial Flora of the Oral Cavity 219
18. Dental Caries 259
19. Periodontal Disease 332
20. Infections of the Tooth Pulp and Periapical Tissues 383

Part VII. BACTERIAL INFECTIONS

21. Staphylococci and Staphylococcal Infections 405
22. Streptococci and Streptococcal Infections 417
23. Pneumococci and Pneumococcal Infections 432
24. Neisseria and Gonorrhoea 439
25. Neisseria and Meningitis 444
26. Corynebacteria and Diphtheria 449
27. Mycobacteria and Tuberculosis 459
28. Mycobacteria and Leprosy 478
29. Yersinia and Pasteurella: Plague and Other Diseases 485
30. Francisella and Tularemia 492
31. Brucella and Brucellosis 496
32. Haemophilus and Bordetella 503

33. Enterobacteriaceae and the Enteric Gram Negative Microbial Flora	509
34. Clostridium	530
35. Spirochetes and Spirochetal Diseases	544
36. The Aerobic Spore-Forming Bacilli	569
37. Transitional Groups of Bacteria	573
38. Actinomycetes and Actinomycosis	584
39. Rickettsial and Chlamydial Infections	590
Part VIII. MYCOTIC INFECTIONS	
40. Mycotic Infections	601
Part IX. VIRAL INFECTIONS	
41. The General Principles of Virology	649
42. Herpesviruses and Herpesvirus Infections: Herpes Simplex, Varicella-Zoster, Cytomegalovirus, and Infectious Mononucleosis	663
43. Poxviruses: Smallpox, Alastrim, Molluscum Contagiosum	674
44. Adenoviruses and Parvoviruses: Acute Respiratory Disease and Conjunctivitis	680
45. Human Papilloma Virus: Warts	684
46. Picornaviruses and Picornavirus Infections: Coxsackievirus Infections, Poliomyelitis, Foot and Mouth Disease, Echovirus Infections, and the Common Cold	686
47. Viral Hepatitis	695
48. Orthomyxoviruses: Influenza	699
49. Paramyxoviruses and Rubella Virus: Mumps, Parainfluenza and Respiratory Syncytial Virus Infections, Measles, Rubella	704
50. Rabies and Slow Virus Infections: Rabies, Kuru, Creutzfeld-Jakob Disease, and Visna	713
51. Arthropod-Borne Viruses (Arboviruses): Yellow Fever, Dengue, Sandfly Fever, Arbovirus-Induced Encephalitides, Hemorrhagic Fever	718
52. Reoviruses: Gastroenteritis, Colorado Tick Fever	726
Part X. PROTOZOAN INFECTIONS	
53. Protozoa and Protozoan Infections	729
INDEX	749
