Preface	vii
Acknowledgments	ix
Part I: Elicitation of Information	1
1. THE CLINICAL INFORMATION BASE	3
Introduction	
The Clinical Interview	
The Neuropsychiatric Mental Status Examination	
The Selective Physical and Neurological Examination in Specialty Practice	
2. THE IMPORTANCE OF SIGNS AND SYMPTOMS	24
Relative Weighting of Signs and Symptoms	
Dimensions of Diagnosis	
The Integration of Information	
Differential Diagnosis Based on "Clinical Alerts"	
The Issue of Secondary Diagnoses	
Part II: The Interpretation of Symptoms and Signs for Differential Diagnosis	37
3. THE COGNITIVE SPHERE	40
Deviations in Consciousness	
Disorders of Thought	
Memory-Learning	
Language and Knowing	
Insight into Illness	
Abstraction	
4. THE AFFECTIVE SPHERE	67
Disorders of Emotion	
Disorders of Mood	
Disorders of Affect	

iv Contents

5. THE PERCEPTUAL SPHERE	74
Independent False Perceptions	
Dependent False Perceptions	
False Perceptions Related to Deficits of Sensory Input	
Clinical Distribution of Perceptual Distortions	
6. THE PHYSIOLOGICAL SPHERE	85
Disturbances in Sleep	
Biological Rhythm Disturbances	
Disturbances in Appetite	
Sexual Drive and Expression	
Autonomic Nervous System Dysfunctions	
Pain Dysfunctions	
7. THE PSYCHOMOTOR SPHERE	101
Basic Muscle, Movement, Reflex, and Gait Disturbances	
Contractile Disorders	
Muscle Weakness, Fatigue, and Lack of Energy	
Spontaneous and Induced Movement Abnormalities	
Part III: Specific Diagnosis	109
A. <i>Functional Psychiatric Disorders</i>	110
8. THE PSYCHOSES	117
Schizophrenia	
Affective Illnesses	
Primary Depressive Illness	
Primary Manic-Depressive Illness	
Postpartum Affective Illnesses	
9. ANXIETY, PHOBIAS, OBSESSIONS, AND DEPRESSIONS (THE A.P.O.D. COMPLEX)	167
Anxiety Neurosis	
Phobic Neurosis	
Obsessive-Compulsive Neurosis	
Depressive Neurosis	
General Comments	
10. ILLNESS BEHAVIOR DISORDERS	185
Conversion Hysteria	
Compensation Neurosis	
Factitious Illness	
Primary Hypochondriasis	
Psychogenic Pain	
Briquet's Syndrome	
Overview	
11. PERSONALITY OR INTERPERSONAL DISORDERS	207
Typology for Personality Disorders	
Antisocial Personality Disorder (ASPD)	

<i>B. Neuropsychiatric Disorders</i>	219
12. OBS SECONDARY TO CIRCUMSCRIBED BRAIN PATHOLOGY	221
Cortical Lobe Syndromes	
13. OBS SECONDARY TO DIFFUSE BRAIN PATHOLOGY	230
Clouding, Delirium, and Coma	
Dementia	
14. OBS SECONDARY TO EPISODIC BRAIN PATHOLOGY	254
Classification of Seizures	
Interictal Complications	
Special Variants	
<i>C. Medicopsychiatric Disorders</i>	266
15. DRUG HABIT DISORDERS	267
Principles of Classification	
Drug Effects, Behavioral Consequences, and Complications	
Depressant Drugs	
Stimulant Drugs	
Psychotomimetic Drugs	
Polydrug Use	
16. DISTURBANCES OF APPETITE AND THIRST	317
Obesity	
Anorexia Nervosa	
Compulsive Water Drinking (Psychogenic Polydipsia)	
17. PSYCHOENDOCRINOPATHIES	330
18. SEXUAL DYSFUNCTIONS AND SEXUAL ROLE DISTURBANCES	341
Sexual Dysfunctions	
Sexual Role Disturbances	
19. MEDICAL INTERFACE DISORDERS	349
Types of Somatic-Psychological Interface	
Part IV: Therapeutic Management	357
20. PRINCIPLES OF RATIONAL PSYCHOPHARMACOLOGY	360
General Principles	
21. ANTIPSYCHOTICS AND MOOD MODIFIERS	367
Neuroleptics	
Mood Elevators	
Lithium Salts	
Drug Interaction Effects	

vi Contents

22. SEDATIVES AND ANTIANXIETY AGENTS	395
Hyposedative Agents—Barbituates	
Antianxiety Agents—Benzodiazepines	
23. ANTICONVULSANT DRUGS	405
24. THE PSYCHOTHERAPIES	414
Features of Psychotherapy	
Major Forms of Psychotherapy	
Index	425
