About the Editors and Authors.....	xi
Preface.....	xv
Introduction: The Future of Academic Research-- <i>Don I. Phillips</i> .....	1
Research and Higher Education	4
Changes in the Infrastructure	
of Academic Research	7
<i>Support for R&amp;D in Universities,</i>	
<i>7; Enrollment, 8; Faculty Hiring,</i>	
<i>9; Graduate Fellowships, 9;</i>	
<i>Capital Expenditures and</i>	
<i>Scientific Equipment, 10;</i>	
<i>College and University</i>	
<i>Resources, 10</i>	
Future Capacity for Research	
in Universities	11
Recent Developments	15
References and Notes	17
1 Research Universities and the Future: Challenges and Opportunities-- <i>Gilbert S.</i> <i>Omenn, Denis J. Prager</i> .....	21
A Retrospective View	22
A Bright Future for Basic	
Research	25
On the Educational Functions and	
Institutional Viability	25
University-Industry Research	
Relationships	27
University-Government Relations	28
References and Notes	29

2	University Research: Congressional Perspective-- <i>George E. Brown, Jr.</i> .....	31
	Reference	36
3	Government Accountability Requirements for Research Funds-- <i>John J. Lordan</i> .....	37
	Cost Principles	38
	Audit Followup	39
	Single Audit Guide	40
	Inspectors General	41
	Conclusion	41
	References and Notes	42
4	The View from the Research Laboratory-- <i>Raymond Orbach</i> .....	43
	Cause for Concern	43
	A Short History	44
	Decreasing Support for Research	45
	Accountability	47
	Recommendations	48
	References and Notes	50
5	A Survey of Undergraduate Chemical Research-- <i>J.N. Spencer, Claude H. Yoder</i> .....	51
	Measures of Research and Institutional Characteristics	52
	Regression Analyses	63
	References and Notes	65
6	New Academic Positions: The Outlook in Europe, Canada, and the United States-- <i>Charles V. Kidd</i> .....	67
	Rise and Fall of Research and Enrollment Growth Rates	67
	Few Academic Jobs	69
	Low Future Growth Rates	71
	Germany	72
	The United Kingdom	74
	France	76
	Canada	80
	United States	81
	Conclusion	84
	References and Notes	86

7	Research Centers and Non-Faculty Researchers: A New Academic Role-- <i>Albert H. Teich</i> .....	91
	Nature and Origins of ORU's	92
	<i>External Pressures, 92; Faculty Needs, 94; Institutional Development, 94; Processes for the Establishment of ORU's, 95</i>	
	ORU's and University Governance	96
	<i>Departmental and Multidisciplinary ORU's, 96; Staffing and Reward Struc- tures, 97; Programmatic Control and Evaluation, 98</i>	
	The "Unfaculty"	100
	Conclusions and Implications	103
	References and Notes	106
8	An Interdisciplinary Look at Science Policy in an Age of Decreased Funding-- <i>C. West Churchman</i> .....	109
	Some "Axioms" of Science Policy	109
	Critique of the Axioms	109
	Peer Review	110
	What Shall We Do?	111
	Aesthetics	113
	Reference	113
