| PREFACE | vi |
|---------|----|

| | | |
|-------------|--------------|---|
| CHAPTER ONE | INTRODUCTION | 2 |
|-------------|--------------|---|

Psychology: the study of behavior *The role of research in psychology*
Methods in behavioral research *Normal and abnormal behavior*

| | | |
|-------------|-------------|----|
| CHAPTER TWO | DEVELOPMENT | 18 |
|-------------|-------------|----|

Basic concepts of development *Physical development*
Motor development *Perceptual development* *Intellectual development*

| | | |
|---------------|------|----|
| CHAPTER THREE | LOVE | 42 |
|---------------|------|----|

The affectional systems *Maternal love* *Infant love*

| | | |
|--------------|------|----|
| CHAPTER FOUR | LOVE | 72 |
|--------------|------|----|

Age-mate or peer love *The functions of peer play*
Heterosexual love *Abnormal sexual patterns* *Paternal love*

CHAPTER FIVE FEAR AND ANGER 106

Avoidance and aggression *Fear and anxiety* *Anger and aggression*

CHAPTER SIX HEREDITY 122

Nature and nurture *Early family studies* *Twin studies*
The genetic bases of heredity *Chromosome anomalies*

CHAPTER SEVEN NEUROBIOLOGY 146

The neurological basis of behavior *The brain and nervous system*
The biology of the neuron *The axon and the nerve action potential*
Synaptic transmission *The effect of drugs on behavior*

CHAPTER EIGHT
SENSORY-MOTOR INTEGRATION 182

Sensation and perception *The biological basis of vision*
The biological basis of hearing *The somatic sensory system*
Common features of sensory systems *Motor response*
Sensory-motor integration

CHAPTER NINE SLEEP,
DREAMING, AND ATTENTION 216

Sleep and wakefulness *Biological rhythms* *Arousal level*
Dreaming *Attention* *Attention and arousal*

CHAPTER TEN MOTIVATION 250

The motivational processes *Aggression and agonistic behaviors*
Hunger and feeding behavior *Thirst and drinking behavior*
Motivation: theory and biology *Complex motives*

CHAPTER ELEVEN LEARNING 278

Learning and behavioral adaptation *Habituation* *Classical and*
instrumental conditioning *Imprinting* *Complex learning*
Variations in learning capacity

CHAPTER TWELVE MEMORY 310

The memory processes *Memory and images* *Short-term and*
long-term memory *Recognition, recall, and relearning*
Neurobiological correlates of memory

CHAPTER THIRTEEN INTELLIGENCE 344

Intelligence and intelligent behavior *Measures of intelligence*
Biological influences *Environmental influences* *Intelligence*
and achievement

CHAPTER FOURTEEN THOUGHT
AND LANGUAGE 366

Thinking and the mind *Directed thinking* *The neural basis of*
thought *Language and communication* *Psycholinguistics*
The neural basis of language

CHAPTER FIFTEEN SOCIAL BEHAVIOR 402

Man: a social animal *Socialization* *Social attraction*
Conformity *Group processes and leadership* *Changing social*
behavior

CHAPTER SIXTEEN PERSONALITY
AND ABNORMAL BEHAVIOR 430

The disturbed personality *Biological background* *The person*
or the circumstances *Dissociation or mastery*

BIBLIOGRAPHY 450
