Acknowledgements	5
Preface	9

PART ONE.

THE IMMUNE SYSTEM WITH SPECIAL REFERENCE TO THE THYMUS

1. The immune system	13
2. The lymphocyte, — the cell of the immune system	20
3. The thymus, — development and function	25
4. Experimental thymectomy	42

PART TWO.

THE MOUSE MUTANT *NUDE*

5. The history and early description of the <i>nude</i> mouse	47
6. Breeding and husbandry of the <i>nude</i> mouse	50
7. Anatomy of the <i>nude</i> mouse	60
8. Pathology of the <i>nude</i> mouse	77
9. The developmental defect in the <i>nude</i> mouse	84
10. Cell populations in the <i>nude</i> mouse	90
11. Humoral immune responses in the <i>nude</i> mouse	98
12. Cell-mediated immune responses in the <i>nude</i> mouse	108
13. Allografting in the <i>nude</i> mouse	111

14. Heterografting in the <i>nude</i> mouse	124
a. Rat skin grafts	
15. Heterografting in the <i>nude</i> mouse	137
b. Human, avian and reptilian skin grafts	
16. The germfree <i>nude</i> mouse	147
17. Reconstitution of immune responses in the <i>nude</i> mouse	153
18. Cancer research and the <i>nude</i> mouse	159
19. Immunological Surveillance and the <i>nude</i> mouse	163
20. The Thymus and the Self, — conclusions and comments	169
