

CONTENTS

VOLUME I

PART I

GENERAL BACTERIOLOGY

CHAPTER	PAGE
1. EARLY HISTORY	1
2. THE BIOLOGICAL CHARACTERS OF BACTERIA: MORPHOLOGY	16
3. THE BIOLOGICAL CHARACTERS OF BACTERIA: METABOLISM	50
4. THE GROWTH OF BACTERIA	100
5. THE RESISTANCE OF BACTERIA TO PHYSICAL AND CHEMICAL AGENTS: DIS- INFECTION AND STERILIZATION	127
6. ANTIBACTERIAL SUBSTANCES USED IN THE TREATMENT OF INFECTIONS: CHEMO- THERAPY	173
7. THE ANTIGEN-ANTIBODY REACTIONS	227
8. THE ANTIGENIC STRUCTURE OF BACTERIA	330
9. BACTERIAL VARIATION	350
10. CLASSIFICATION AND NOMENCLATURE OF BACTERIA	402
11. BACTERIOPHAGE AND COLICINES	417

PART II

SYSTEMATIC BACTERIOLOGY

12. THE METHODS OF OBTAINING PURE CULTURES, AND THE IDENTIFICATION OF BACTERIA	473
13. DESCRIPTION OF THE METHODS USED IN THE SYSTEMATIC EXAMINATION OF BACTERIA, AND A GLOSSARY OF THE TERMS EMPLOYED.	486
14. ACTINOMYCES, NOCARDIA AND ACTINOBACILLUS	499
15. ERYSIPELOTHRIX AND LISTERIA	523
16. MYCOBACTERIUM	536
17. CORYNEBACTERIUM	583
18. FUSIFORMIS	614
19. LOEFFLERELLA	626
20. PSEUDOMONAS AND AEROMONAS.	636
21. VIBRIO AND SPIRILLUM	648
22. NEISSERIA	665
23. STREPTOCOCCUS AND LEUCONOSTOC	693
24. STAPHYLOCOCCUS AND MICROCOCCUS	746

CHAPTER	PAGE
25. CHROMOBACTERIUM, FLAVOBACTERIUM AND ACHROMOBACTER	780
26. PROTEUS AND PROVIDENCE	791
27. COLIFORM BACTERIA	806
28. SHIGELLA	849
29. SALMONELLA	866
30. LACTOBACILLUS	912
31. PASTEURELLA	932
32. HÆMOPHILUS AND BORDETELLA	957
33. BRUCELLA	992
34. BACILLUS	1019
35. CLOSTRIDIUM	1046
36. MISCELLANEOUS BACTERIA	1093
37. THE SPIROCHÆTES	1104
38. RICKETTSIA	1134
39. THE PLEUROPNEUMONIA GROUP OF ORGANISMS	1148
40. THE ANIMAL VIRUSES: GENERAL CONSIDERATIONS	1161
INDEX TO VOLUMES I AND II	i-lviii

VOLUME II

PART III

INFECTION AND RESISTANCE

41. TYPES OF IMMUNITY	1193
42. THE MEASUREMENT OF IMMUNITY IN THE LIVING ANIMAL	1205
43. THE MECHANISMS OF BACTERIAL INFECTION	1228
44. THE MECHANISMS THAT HINDER OR PREVENT THE ACCESS OF BACTERIA TO THE TISSUES	1251
45. THE MECHANISMS OF ANTITOXIC IMMUNITY	1261
46. THE MECHANISMS CONCERNED IN SPECIFIC ANTIBACTERIAL IMMUNITY	1267
47. THE AGGRESSIVE ACTION OF BACTERIA	1307
48. THE NATURAL ANTIBODIES: THEIR NATURE, ORIGIN AND BEHAVIOUR	1315
49. THE ANTIBODY-FORMING APPARATUS AND ITS REACTIONS	1345
50. ANAPHYLAXIS, HYPERSENSITIVENESS AND ALLERGY	1394
51. SOME NON-SPECIFIC MECHANISMS IN GENERAL IMMUNITY	1448
52. LOCAL IMMUNITY	1466
53. THE INFLUENCE OF DIET, ENVIRONMENT, HORMONES, CHEMICAL AND CHEMOTHERAPEUTIC AGENTS AND OTHER FACTORS ON IMMUNITY	1476
54. IMMUNITY IN VIRUS DISEASES	1518
55. HERD INFECTION AND HERD IMMUNITY	1540

PART IV

THE APPLICATION OF BACTERIOLOGY TO MEDICINE AND HYGIENE

56. ACTINOMYCOSIS, ACTINOBACILLOSIS AND RELATED DISEASES	1563
57. SWINE ERYSIPELAS, ERYSIPELOID AND MOUSE SEPTICÆMIA, INFECTIVE MONO- NUCLEOSIS OF RABBITS AND OTHER LISTERIA INFECTIONS	1579

CHAPTER	PAGE
58. TUBERCULOSIS	1588
59. LEPROSY, RAT LEPROSY, SARCOIDOSIS AND JOHNE'S DISEASE	1654
60. DIPHTHERIA AND OTHER DISEASES DUE TO CORYNEBACTERIA	1668
61. GLANDERS AND MELLIOIDOSIS	1711
62. CHOLERA	1721
63. MENINGITIS	1736
64. GONORRHEA	1755
65. SCARLET FEVER AND OTHER DISEASES DUE TO HÆMOLYTIC STREPTOCOCCI	1763
66. PYOGENIC INFECTIONS	1788
67. THE BACTERIOLOGY OF RHEUMATIC INFECTIONS AND OF ENDOCARDITIS	1818
68. ENTERIC INFECTIONS	1833
69. BACILLARY DYSENTERY	1876
70. INFECTIVE ENTERITIS OF INFANCY	1894
71. BACTERIAL FOOD POISONING AND BOTULISM	1912
72. PLAGUE, PASTEURILLOSIS AND PSEUDOTUBERCULOSIS	1957
73. ACUTE RESPIRATORY INFECTIONS	1985
74. UNDULANT FEVER, CONTAGIOUS ABORTION OF CATTLE AND ALLIED INFECTIONS. TULARÆMIA	2039
75. ANTHRAX	2079
76. TETANUS	2095
77. GAS GANGRENE: CLOSTRIDIAL INFECTIONS OF MAN AND ANIMALS	2124
78. MISCELLANEOUS DISEASES: NECROBACILLOSIS, OZÆNA, RHINOSCLEROMA. GRANULOMA VENEREUM, SOFT CHANCER, CAT-SCRATCH FEVER, GLANDULAR FEVER, BARTONELLA INFECTIONS AND WINTER VOMITING DISEASE	2143
79. RELAPSING FEVER, AVIAN SPIROCHÆTOSIS AND VINCENT'S ANGINA	2160
80. SYPHILIS, RABBIT SYPHILIS, YAWS AND PINTA	2170
81. WEIL'S DISEASE AND OTHER LEPTOSPIRAL DISEASES: RAT-BITE FEVER	2190
82. TYPHUS FEVER AND OTHER RICKETTSIAL DISEASES	2207
83. PLEUROPNEUMONIA, CONTAGIOUS AGALACTIA AND ALLIED DISEASES	2240
84. VIRUS DISEASES. A. PSITTACOSIS-LYMPHOGRANULOMA GROUP	2246
85. VIRUS DISEASES—continued. B. GROUP CHARACTERIZED BY LESIONS OF THE SKIN	2268
86. VIRUS DISEASES—continued. C. GROUP CHARACTERIZED BY LESIONS OF THE NERVOUS SYSTEM	2322
87. VIRUS DISEASES—continued. D. GROUP CHARACTERIZED BY CATARRHAL OR GENERAL INFECTION	2391
88. VIRUS DISEASES—continued. E. GROUP CHARACTERIZED BY TUMOUR FORMA- TION	2448
89. THE NORMAL BACTERIAL FLORA OF THE HUMAN BODY	2461
90. THE BACTERIOLOGY OF AIR	2483
91. THE BACTERIOLOGY OF WATER, SHELL-FISH AND SEWAGE	2500
92. THE BACTERIOLOGY OF MILK	2529
93. BACTERIAL ECOLOGY	2552
INDEX TO VOLUMES I AND II	i-iiii
