

## CONTENTS

---

<b>I. CHEMISTRY OF CARBOHYDRATES</b> .....	<b>1</b>
<b>INTRODUCTION</b> .....	<b>1</b>
Definition and Biological Significance .....	1
Types Found in Nature .....	1
<b>CLASSIFICATION AND CONFIGURATION</b> .....	<b>2</b>
Classification and Nomenclature .....	2
Asymmetric Carbon Atoms and Optical Isomerism .....	3
Cyclic Structures of the Sugars .....	6
<b>SIMPLE MONOSACCHARIDES OF BIOLOGICAL IMPORTANCE</b> .....	<b>8</b>
Diose .....	8
Trioses .....	8
Pentoses .....	8
Hexoses .....	10
<b>ACETAL DERIVATIVES OF THE SIMPLE MONOSACCHARIDES</b> .....	<b>10</b>
Acetals .....	10
Glycosides .....	10
Disaccharides .....	11
Polymers of the Simple Monosaccharides .....	13
<b>SUGAR ACIDS, AMINO SUGARS, AND THEIR POLYMERS</b> .....	<b>16</b>
Aldonic Acids .....	16
Uronic Acids .....	16
Saccharic Acids .....	17
Amino Sugars .....	17
Polymers of the Sugar Acids and the Amino Sugars .....	18
<b>SUGAR ALCOHOLS AND CYCLITOLS</b> .....	<b>20</b>
Sugar Alcohols .....	20
Cyclitols .....	21
<b>PHOSPHORIC ESTERS OF THE SUGARS</b> .....	<b>21</b>
Hexose Phosphates .....	21
Triose Phosphates .....	21
Pentose Phosphates .....	22
<b>QUALITATIVE AND QUANTITATIVE TESTS FOR CARBOHYDRATES</b> .....	<b>23</b>
Copper Reduction Tests .....	23
Furfural-Forming Tests .....	23
Nitric Acid Oxidation .....	24
Phenylhydrazine .....	24
Alkali .....	25
Iodine .....	25
Fermentation .....	26
<b>BIBLIOGRAPHY</b> .....	<b>26</b>

<b>2. CHEMISTRY OF THE LIPIDS</b> .....	<b>27</b>
<b>INTRODUCTION</b> .....	27
Definition and Biological Significance .....	27
Forms Occurring in Nature .....	27
<b>CLASSIFICATION</b> .....	28
<b>FATS, WAXES, AND THEIR COMPONENTS</b> .....	28
Glycerides .....	28
Waxes .....	31
<b>PHOSPHOLIPIDS (PHOSPHATIDES)</b> .....	31
Lecithins .....	31
Cephalins .....	32
Lipositols .....	33
Plasmalogens .....	33
Phosphatidic Acids and Related Compounds .....	33
Sphingomyelins .....	33
<b>GLYCOLIPIDS</b> .....	34
Cerebrosides .....	34
Gangliosides .....	35
Glycolipids of High Molecular Weight .....	35
<b>STERIODS, STEROLS, AND BILE ACIDS</b> .....	35
Steroids As a Group .....	35
Sterols .....	35
Bile Acids .....	36
<b>OTHER SUBSTANCES ASSOCIATED WITH LIPIDS IN NATURE</b> .....	37
Carotenoids and Vitamins A .....	37
Vitamins K and E .....	37
<b>LIPOPROTEINS</b> .....	38
State of Lipids in Nature .....	38
Examples of Lipoproteins .....	38
<b>QUALITATIVE AND QUANTITATIVE TESTS FOR LIPIDS</b> .....	39
Saponification Number .....	39
Iodine Number .....	39
Other "Numbers" .....	40
Acrolein Test .....	40
Choline Tests .....	40
Liebermann-Burchard Test .....	40
Fractionation of Lipids .....	40
<b>BIBLIOGRAPHY</b> .....	41
<b>3. CHEMISTRY OF PROTEINS</b> .....	<b>42</b>
<b>INTRODUCTION</b> .....	42
Definition and General Properties .....	42
Biological Importance .....	43
<b>CLASSIFICATION OF PROTEINS</b> .....	44
Bases for Classification .....	44
Simple Proteins .....	45
Conjugated Proteins .....	46
Derived Proteins .....	47
<b>THE AMINO ACIDS</b> .....	48
Common Structural Features .....	48
Structure of the Amino Acids .....	50
Importance of Amino Acids .....	50
<b>THE PEPTIDE BOND</b> .....	50
Amides and Peptides .....	50
Naturally Occurring Peptides and Pseudopeptides .....	51
Evidence for Peptide Linkage in Proteins .....	52
Hydrolysis of the Peptide Linkage .....	53

<b>ARCHITECTURE OF PROTEINS</b> .....	55
Electrolytes, pH, and Buffers .....	55
Amino Acids and Proteins As Charged Particles .....	59
Proteins As Giant Molecules: Colloidal Properties .....	67
The Shape of Protein Molecules .....	72
Internal Structure of Proteins .....	77
Disruption of the Architecture: Denaturation .....	81
<b>QUALITATIVE AND QUANTITATIVE TESTS FOR AMINO ACIDS AND PROTEINS</b> ..	84
Reactions to Constituent Groups .....	84
Separation and Determination of Amino Acids .....	88
Detection and Determination of Protein .....	92
<b>BIBLIOGRAPHY</b> .....	93
<b>4. CHEMISTRY OF NUCLEOPROTEINS, NUCLEIC ACIDS, AND NUCLEOTIDES</b> .....	94
<b>INTRODUCTION</b> .....	94
Terminology .....	94
Biological Importance .....	95
<b>NUCLEOPROTEINS</b> .....	95
Nucleoprotamines .....	95
Nucleohistones .....	96
Higher Nucleoproteins .....	96
<b>NUCLEIC ACIDS</b> .....	97
Composition .....	97
Structure .....	100
<b>FREE NUCLEOTIDES OF BIOLOGICAL IMPORTANCE</b> .....	103
Adenylic System .....	103
Coenzymes .....	104
Miscellaneous Nucleosides and Nucleotides .....	104
<b>CHEMICAL TESTS ON NUCLEIC ACIDS AND THEIR COMPONENTS</b> .....	105
Purines and Pyrimidines .....	105
Sugars .....	105
Analytical Separation of RNA and DNA .....	105
<b>BIBLIOGRAPHY</b> .....	105
<b>5. CHEMISTRY OF HEMOGLOBIN, PORPHYRINS, AND RELATED COMPOUNDS</b> .....	107
<b>INTRODUCTION</b> .....	107
<b>CHEMISTRY OF PORPHYRINS</b> .....	108
Structures and Nomenclature .....	108
Physical Properties .....	110
Chemical Properties .....	110
<b>CHEMISTRY OF HEMES</b> .....	110
Coordination of Iron .....	110
Pseudoperoxidase Reaction .....	111
<b>CHEMISTRY OF BILE PIGMENTS</b> .....	112
Structure and Nomenclature .....	112
Physical Properties .....	113
Chemical Properties .....	113
<b>CHEMISTRY OF HEMOGLOBIN</b> .....	115
General Physical Properties .....	115
Acid-Base Properties .....	115
Transport of Gases by Heme Groups of Hemoglobin .....	115
Carbamino Compound Formation .....	118

## CONTENTS

Redox Properties of Hemoglobin .....	118
Sulfhemoglobin .....	120
Interconversions of the Major Hemoglobin Derivatives .....	120
Determination of Hemoglobin .....	122
<b>OTHER HEMOPROTEINS</b> .....	123
Myoglobin .....	123
Cytochromes .....	123
Catalases and Peroxidases .....	124
<b>BIBLIOGRAPHY</b> .....	125
<b>6. VITAMINS</b> .....	126
<b>VITAMINS A</b> .....	126
Chemistry .....	128
Occurrence and Food Sources .....	131
Assay .....	131
Absorption .....	132
Storage and Intermediary Metabolism .....	132
Mobilization and Circulation .....	133
Excretion .....	134
Functions .....	134
Deficiency in Man .....	138
Vitamin Interrelationships .....	138
Detection of Deficiency in Man .....	138
Effects of Excess of Vitamin A .....	139
Vitamin A Requirement .....	140
<b>VITAMIN C (ASCORBIC ACID)</b> .....	141
Chemistry .....	141
Occurrence and Food Sources .....	142
Assay .....	143
Absorption; Distribution; Circulation .....	144
Metabolism; Excretion .....	144
Functions .....	145
Deficiency Manifestations—Scurvy .....	145
Detection of Deficiency in Man .....	146
Vitamin and Hormone Interrelationships .....	147
Effects of Excess Ascorbic Acid .....	148
Ascorbic Acid Requirement .....	148
<b>VITAMINS D</b> .....	148
Chemistry .....	149
Occurrence and Food Sources .....	151
Assay .....	152
Absorption; Storage; Excretion .....	152
Functions .....	153
Deficiency Manifestation .....	153
Demonstration of Vitamin D Deficiency .....	156
Effects of Excess Vitamin D .....	156
Requirement .....	156
<b>VITAMINS E (TOCOPHEROLS)</b> .....	157
Chemistry .....	157
Occurrence and Food Sources .....	158
Assay .....	159
Absorption; Distribution; Excretion .....	159
Functions; Deficiency Manifestations .....	159
Requirement .....	161
<b>VITAMINS K</b> .....	161
Chemistry .....	162
Occurrence and Food Sources .....	164
Assay .....	164

Absorption; Metabolism; Excretion .....	164
Function .....	165
Deficiency .....	165
Requirement .....	166
"VITAMIN P" .....	166
Chemistry .....	167
Occurrence .....	167
Assay .....	167
Metabolism, Actions, Requirements .....	167
GUINEA PIG ANTISTIFFNESS FACTOR .....	169
VITAMINS B (VITAMIN B COMPLEX) .....	169
<i>Thiamine</i> .....	170
Chemistry .....	171
Biosynthesis .....	171
Metabolism of Thiamine .....	173
Occurrence and Food Sources .....	174
Assay .....	174
Functions .....	175
Deficiency Manifestations .....	175
Requirement .....	177
<i>Riboflavin</i> .....	177
Chemistry .....	177
Biosynthesis .....	179
Metabolism .....	179
Occurrence and Food Sources .....	180
Assay .....	180
Functions .....	181
Deficiency Manifestations .....	181
Requirement .....	182
<i>Niacin (Nicotinic Acid)</i> .....	182
Chemistry .....	183
Occurrence and Food Sources .....	184
Biosynthesis .....	185
Metabolism .....	185
Assay .....	186
Functions .....	186
Pharmacological Action .....	187
Deficiency Manifestations .....	187
Requirement .....	188
<i>Pyridoxine (Vitamin B<sub>6</sub>)</i> .....	189
Chemistry .....	189
Occurrence and Food Sources .....	189
Assay .....	190
Biosynthesis and Metabolism .....	191
Functions .....	191
Deficiency Manifestations .....	192
Requirement .....	192
<i>Pantothenic Acid</i> .....	193
Chemistry .....	193
Occurrence and Food Sources .....	193
Assay .....	193
Biosynthesis and Metabolism .....	195
Functions .....	195
Deficiency Manifestations .....	196
Requirement .....	196
<i>Biotin</i> .....	197
Chemistry .....	197
Occurrence and Food Sources .....	197
Assay .....	198
Biosynthesis and Metabolism .....	198

Functions .....	199
Deficiency Manifestations .....	199
Requirement .....	200
<i>The Folic and Folinic Acid Groups and Vitamins B<sub>12</sub></i> .....	200
FOLIC ACID AND FOLINIC ACID GROUP .....	200
Chemistry .....	201
Biosynthesis and Metabolism .....	203
Occurrence .....	204
Assay .....	204
Requirement .....	205
VITAMINS B <sub>12</sub> (COBALAMINS) (ANTI-PERNICIOUS ANEMIA FACTOR) .....	205
Chemistry .....	205
Biosynthesis and Metabolism .....	205
Occurrence .....	206
Assay .....	207
Requirement .....	207
FUNCTIONS OF FOLIC ACID, FOLINIC ACID, VITAMIN B <sub>12</sub> .....	207
Reactions Involving Folic Acid, Folinic Acid, Vitamin B <sub>12</sub> .....	207
Role in Hemopoiesis .....	209
MANIFESTATIONS OF DEFICIENCY OF FOLIC ACID, FOLINIC ACID, VITAMIN B <sub>12</sub> .....	210
Inositol .....	211
Chemistry .....	212
Occurrence and Food Sources .....	213
Biosynthesis and Metabolism .....	213
Assay .....	213
Requirement .....	213
Functions; Actions; Deficiency Manifestations .....	214
<i>α-Lipoic Acid</i> .....	215
Postulated Vitamin-B Factors .....	216
Vitamin B <sub>13</sub> .....	216
Vitamin B <sub>T</sub> .....	216
Streptogenin .....	216
Liver Residue Factor (LRF) .....	216
Choline .....	216
BIBLIOGRAPHY .....	216
<b>7. ENZYMES</b> .....	219
INTRODUCTION .....	219
GENERAL MECHANISMS OF ENZYME ACTION .....	221
Enzyme-Substrate Combination .....	221
Coenzymes and Prosthetic Groups .....	222
Specific Ion Activators .....	223
Zymogens .....	224
PHYSICAL FACTORS INFLUENCING THE RATE OF ENZYMATIC REACTIONS .....	224
Temperature .....	224
pH .....	224
Concentration of Enzyme .....	225
Concentration of Substrate .....	225
Concentration of Cofactors .....	226
CLASSIFICATION OF ENZYMES .....	226
Introduction .....	226
General Classes of Enzymes .....	227
HYDROLASES .....	228
Carboxylesterases .....	228
Sulfatases .....	228
Phosphatases .....	229
Simple Glycosidases and Oligosaccharidases .....	232

Polysaccharidases .....	233
Exopeptidases .....	234
Endopeptidases .....	237
Amidases, Amidinases, Imidazolases .....	238
Hydrolytic Deaminases .....	239
<b>ADDING AND REMOVING ENZYMES</b> .....	241
Dehydrases .....	241
Desulfhydrases .....	241
Non-oxidative Decarboxylases .....	243
Isomerases .....	243
Aldolases .....	244
<b>TRANSFERRING ENZYMES</b> .....	244
Transglycosidases .....	244
Transamidases and Transpeptidases .....	245
Transaminases .....	246
Transphosphorylases .....	247
Transacylases .....	249
Transfers of 1-Carbon Units .....	249
Other Transfer Reactions .....	250
<b>INHIBITION OF ENZYME REACTIONS</b> .....	251
Types of Inhibitors .....	251
Sulfhydryl Inhibitors .....	251
Inhibitors Acting on Coenzyme, Prosthetic Group, or Ion Ac- ticator .....	252
Inhibition Due to Metabolic Antagonism .....	252
Enzymes and Drug Action .....	253
<b>THE INTRACELLULAR LOCALIZATION OF ENZYMES</b> .....	253
Cytochemical Studies .....	253
Differential Centrifugation .....	254
<b>INFLUENCE OF HORMONES ON ENZYMES</b> .....	254
<b>ENZYMES AND GENETICS</b> .....	255
<b>BIBLIOGRAPHY</b> .....	256
<b>8. CHANGES IN FOODSTUFFS IN THE ALIMENTARY TRACT</b> .....	257
<b>DIGESTION</b> .....	257
Digestive Enzymes .....	258
<b>SALIVA</b> .....	259
Functions of Saliva .....	259
Salivary Amylase (Ptyalin) .....	259
<b>GASTRIC JUICE</b> .....	260
Hydrochloric Acid .....	260
Pepsin .....	261
Gastric Lipase .....	261
Rennin .....	262
Gastric "Mucus" .....	262
<b>PANCREATIC JUICE</b> .....	262
Trypsin .....	262
Chymotrypsin .....	263
Carboxypeptidase .....	263
Pancreatic Amylase (Diastase; Amylopsin) .....	263
Pancreatic Lipase (Steapsin) .....	263
Nucleodepolymerases .....	264
<b>INTESTINAL JUICE (SUCCUS ENTERICUS)</b> .....	264
Carbohydrases .....	265
Peptidases .....	265
Nucleophosphatases (Nucleotidases) .....	265
Nucleosidases (Glucosidases or Phosphorylases) .....	266
Enterokinase .....	266

BILE .....	266
Bile Acids (Bile Salts) .....	267
Bile Pigments .....	269
Cholesterol .....	269
SUMMARY OF DIGESTION .....	270
Carbohydrates .....	270
Proteins .....	270
Nucleoproteins .....	270
Lipids .....	270
ABSORPTION .....	271
ACTION OF BACTERIA IN THE INTESTINES .....	271
Carbohydrates and Lipids .....	272
Proteins .....	272
Miscellaneous .....	274
FORMATION AND COMPOSITION OF FECES .....	275
Protein .....	277
Lipids .....	277
BIBLIOGRAPHY .....	277
9. DETOXICATION MECHANISMS .....	279
Oxidation .....	279
Reduction .....	280
Hydrolysis .....	280
Conjugation .....	281
BIBLIOGRAPHY .....	284
10. RESPIRATION .....	285
CHEMICAL CONTROL OF RESPIRATION .....	287
Influence of CO <sub>2</sub> Tension and pH .....	288
Influence of O <sub>2</sub> Tension .....	288
TRANSPORT OF OXYGEN .....	288
Dissociation of Oxyhemoglobin .....	289
TRANSPORT OF CARBON DIOXIDE .....	292
CO <sub>2</sub> in Arterial Blood .....	293
Entrance of CO <sub>2</sub> in Tissues .....	293
BIBLIOGRAPHY .....	294
11. WATER BALANCE .....	295
WATER INTAKE .....	295
WATER OUTPUT .....	295
Feces .....	295
Insensible Perspiration .....	295
Perspiration .....	296
Urine .....	296
Equilibrium Requirements .....	297
BODY FLUIDS COMPARTMENTS .....	297
VOLUME OF BODY FLUID COMPARTMENTS .....	298
Blood and Plasma Volume .....	298
Total Extracellular Fluid Volume .....	299
Total Body Water .....	300
COMPOSITION OF BODY FLUID COMPARTMENTS .....	300
Milliequivalents .....	300
Osmolar Concentration .....	301
EXTRACELLULAR FLUID .....	302

INTRACELLULAR FLUID .....	305
EXCHANGES BETWEEN FLUID COMPARTMENTS .....	306
Gibbs-Donnan Equilibrium .....	306
Gibbs-Donnan Effect and Osmotic Pressure .....	308
Plasma: Interstitial Fluid Exchange .....	309
Interstitial Fluid: Intracellular Fluid Exchange .....	310
BIBLIOGRAPHY .....	312
<b>12. "ACID-BASE" (ANION-CATION) BALANCE (NEUTRALITY REGULATION) .....</b>	<b>313</b>
PHYSIOLOGICAL BUFFER SYSTEMS .....	314
Buffer Action of Hemoglobin .....	315
Buffer Systems for $H_2CO_3(CO_2)$ .....	316
$CO_2$ Enters Plasma in Tissues .....	317
$CO_2$ Enters Erythrocytes .....	317
Buffer Systems for Fixed Acids .....	318
Net Effect of Buffer Mechanisms .....	319
Respiratory Regulation of Acid-Base Balance .....	320
Renal Regulation of Acid-Base Balance .....	320
ABNORMALITIES OF "ACID-BASE" (ANION-CATION) BALANCE .....	324
ACIDOSIS .....	325
Primary $BHCO_3$ (Alkali) Deficit .....	327
Primary $H_2CO_3$ ( $CO_2$ ) Excess .....	329
ALKALOSIS .....	329
Primary $BHCO_3$ (Alkali) Excess .....	329
Primary $H_2CO_3$ ( $CO_2$ ) Deficit .....	330
BIBLIOGRAPHY .....	331
<b>13. ENERGY METABOLISM .....</b>	<b>332</b>
Caloric Value of Foods .....	332
Heat Production .....	333
Respiratory Quotient .....	333
Calorimetry .....	337
Basal Metabolism .....	338
Specific Dynamic Action (SDA) of Foods .....	341
Total Metabolism (Caloric Requirement) .....	342
BIBLIOGRAPHY .....	343
<b>14. METHODS OF INVESTIGATING INTERMEDIARY METABOLISM .....</b>	<b>344</b>
GENERAL METHODS .....	345
In Vivo .....	345
In Vitro .....	346
Microorganisms .....	349
ISOTOPE METHODS .....	349
Introduction .....	349
Technics .....	350
BIBLIOGRAPHY .....	353
<b>15. BIOLOGICAL OXIDATIONS .....</b>	<b>354</b>
INTRODUCTION .....	354
Definition and Nomenclature .....	354
Significance of Biological Oxidations .....	355
Fundamental Reaction of Biological Oxidations .....	355

<b>REDOX POTENTIAL</b> .....	357
Electron Affinity .....	357
Redox Potential and Electron Transfer .....	357
<b>REDOX CHAINS IN NATURE</b> .....	358
Types of Oxidative Enzyme Systems .....	358
Coenzymes and Prosthetic Groups of Redox Systems .....	361
Oxidases .....	361
Aerobic Dehydrogenases .....	363
Cytochrome-Linked Anaerobic Dehydrogenases .....	364
Coenzyme-Linked Anaerobic Dehydrogenases .....	366
<b>MISCELLANEOUS REDOX SYSTEMS</b> .....	368
Hydroperoxidases .....	368
Glutathione and Ascorbic Acid .....	369
<b>BIBLIOGRAPHY</b> .....	370
<b>BIOENERGETICS AND HIGH-ENERGY PHOSPHATE</b> .....	371
<b>INTRODUCTION</b> .....	371
Fundamental Concepts .....	371
Ultimate Origin of Energy .....	371
<b>BIOENERGETIC SYSTEMS</b> .....	372
Basic Requirements .....	372
Over-all Scheme of Bioenergetics .....	373
Energy Levels of Foodstuffs .....	373
Energy Levels of Hydrolyzable Linkages .....	374
Transphosphorylations .....	377
Coupling Mechanisms: Substrate Phosphorylation .....	378
Coupling Mechanisms: Oxidative Chain Phosphorylation .....	379
Summary of Generation of High-Energy Phosphate .....	380
Utilization of High-Energy Phosphate .....	380
Uncoupling of Phosphorylations .....	381
<b>BIBLIOGRAPHY</b> .....	382
<b>17. CARBOHYDRATE METABOLISM</b> .....	383
<b>INTRODUCTION</b> .....	383
<b>SOURCES OF GLUCOSE TO THE ORGANISM</b> .....	383
Exogenous .....	383
Endogenous .....	386
<b>UTILIZATION OF GLUCOSE</b> .....	386
Storage .....	386
Oxidation .....	387
Conversion to Fat .....	387
Conversion to Other Carbohydrates .....	387
Conversion to Amino Acids .....	387
Miscellaneous Pathways .....	387
<b>THE INTERMEDIARY METABOLISM OF CARBOHYDRATE: INTRODUCTION</b> .....	388
<b>ANAEROBIC METABOLISM OF GLUCOSE (GLYCOLYSIS)</b> .....	389
Initial Phosphorylation .....	389
Synthesis of Glycogen .....	391
Conversion to Trioses .....	392
Oxidative Step .....	392
Formation of Lactate (or Ethanol) .....	393
Reversibility .....	394
Other Hexoses .....	394
Energetics of Fermentation and Glycolysis .....	395
Intracellular Localization .....	396
<b>AEROBIC METABOLISM OF CARBOHYDRATE</b> .....	396
Initial Oxidation of Pyruvic Acid .....	397

Tricarboxylic Acid Cycle .....	397

CONTENTS

Incorporation into Nucleic Acids ..... 568  
 Catabolism ..... 569  
**METABOLISM OF PYRIMIDINES** ..... 571  
 Synthesis ..... 571  
 Interconversions ..... 572  
 Incorporation into Nucleic Acid ..... 572  
 Catabolism ..... 573  
**METABOLISM OF THE "FREE" NUCLEOTIDES (COENZYMES)** ..... 573  
 Adenylic System ..... 574  
 Nicotinamide Coenzymes ..... 574  
 Flavin Coenzymes ..... 575  
 Coenzyme A ..... 575  
 Miscellaneous ..... 576  
**METABOLISM OF THE NUCLEIC ACIDS** ..... 576  
 Mechanisms of Anabolism and Catabolism ..... 576  
 Net Synthesis and Degradation of Nucleic Acids ..... 576  
 "Turnover" of Nucleic Acids ..... 577  
**BIOLOGICAL SIGNIFICANCE OF NUCLEIC ACIDS** ..... 578  
 Viruses ..... 578  
 Chromosomes-Genes ..... 579  
 "Transforming Substance" of Bacteria ..... 580  
 Role of Nucleic Acids in Mutation and Carcinogenesis ..... 580  
 Role of Nucleic Acids in Protein Synthesis ..... 581  
**INTERRELATIONS OF METABOLISM OF NUCLEIC ACIDS WITH OTHER FOOD-STUFFS** ..... 582  
**BIBLIOGRAPHY** ..... 583

**21. METABOLISM OF PORPHYRINS AND RELATED SUBSTANCES.** 584

**OVER-ALL SURVEY OF PORPHYRIN METABOLISM** ..... 585  
**SYNTHESIS** ..... 586  
 General Synthesis of Porphyrins ..... 586  
 Synthesis of Hemoglobin ..... 588  
 Synthesis of Other Hemoproteins ..... 589  
 Abnormalities in Synthesis of Porphyrins and Heme ..... 590  
**CATABOLISM OF HEMOPROTEINS AND PORPHYRINS** ..... 590  
 Catabolism of Hemoglobin ..... 591  
 "Extra-erythrocytic" Sources of Bile Pigments ..... 595  
**EXCRETION OF PRODUCTS OF PORPHYRIN METABOLISM** ..... 596  
 Bile Pigments ..... 596  
 Porphyrins ..... 596  
 Other Related Metabolites ..... 597  
**RELATION OF PORPHYRIN METABOLISM TO THAT OF OTHER METABOLITES.** 597  
**BIBLIOGRAPHY** ..... 598

**22. INORGANIC METABOLISM** ..... 599

**SODIUM, POTASSIUM, AND CHLORIDE METABOLISM** ..... 599  
 Related Physiological Mechanisms ..... 599  
 Absorption and Excretion ..... 600  
 Na, Cl, and K in Blood ..... 601  
 Distribution and Intermediary Metabolism ..... 602  
**SULFUR METABOLISM** ..... 604  
 Absorption ..... 604  
 Intermediary Metabolism ..... 604  
 Transport and Excretion ..... 605  
**IODINE METABOLISM** ..... 606  
 Absorption and Excretion ..... 606
