

Contents

F. H. C. Crick	Chairman's opening remarks	1
W. D. M. Paton	Receptors as defined by their pharmacological properties	3
<i>Discussion</i>	<i>Burgen, Changeux, Crick, Karlin, Mayer, Paton, Rang, Silman, Spector, Wyman</i>	30
S. Thesleff	The cholinergic receptor in skeletal muscle	33
<i>Discussion</i>	<i>Burgen, Changeux, Crick, Paton, Rang, Silman, Singer, Spector, Stryer, Thesleff, Waser</i>	39
S. E. Mayer	Adenyl cyclase as a component of the adrenergic receptor	43
<i>Discussion</i>	<i>Burgen, Changeux, Mayer, Singer, Waser</i>	56
P. G. Waser	On receptors in the postsynaptic membrane of the motor endplate	59
<i>Discussion</i>	<i>Ascher, Burgen, Changeux, Crick, Jardetzky, Karlin, Mayer, Paton, Silman, Singer, Thesleff, Waser</i>	69
<i>General Discussion</i>	<i>Ascher, Burgen, Changeux, Crick, Jardetzky, Mayer, Paton, Singer, Thesleff, Waser</i>	77
C. R. Beddell J. Moulton D. C. Phillips	Crystallographic studies of the active site of lysozyme	85
<i>Discussion</i>	<i>Burgen, Crick, Jardetzky, Paton, Phillips, Rang, Richards, Singer, Stryer, Waser, Wyman</i>	103
O. Jardetzky	Nuclear magnetic resonance studies of protein binding sites: the complex of staphylococcal nuclease with 3',5'-thymidine diphosphate	113
<i>Discussion</i>	<i>Crick, Jardetzky, McConnell, Paton, Phillips, Richards, Silman, Singer, Waser, Wyman</i>	129
L. Stryer	Fluorescent probes of biological macromolecules	133
<i>Discussion</i>	<i>Changeux, Crick, Jardetzky, McConnell, Paton, Singer, Stryer, Wyman</i>	150
<i>General Discussion</i>	<i>Brenner, Burgen, Changeux, Crick, Jardetzky, Karlin, Mayer, McConnell, Paton, Phillips, Rang, Richards, Silman, Singer, Stryer</i>	155
J. Wyman	The interaction of the subunits of haemoglobin as a mechanism of control	167
<i>Discussion</i>	<i>Brenner, Burgen, Changeux, Crick, Kirschner, McConnell, Phillips, Singer, Spector, Stryer, Thesleff, Wyman</i>	180
J. P. Changeux R. Blumenthal M. Kasai T. Podleski	Conformational transitions in the course of membrane excitation	197
<i>Discussion</i>	<i>Brenner, Burgen, Changeux, Crick, Karlin, Paton, Silman, Singer, Stryer</i>	214

<i>General Discussion</i>	<i>Burgen, Changeux, Crick, Mayer, McConnell, Richards, Silman, Singer</i>	219
S. J. Singer	Affinity labelling of protein active sites	229
<i>Discussion</i>	<i>Brenner, Crick, Mayer, Paton, Phillips, Rang, Richards, Silman, Singer, Stryer, Thesleff, Waser</i>	242
A. Karlin	Counting acetylcholine receptors in the electroplax	247
J. Prives		
W. Deal		
M. Winnik		
<i>Discussion</i>	<i>Brenner, Burgen, Changeux, Crick, Karlin, Singer</i>	259
A. S. V. Burgen	The nature of complex formation	263
<i>Discussion</i>	<i>Brenner, Burgen, Jardetzky, Phillips, Singer</i>	268
<i>Final Discussion</i>	<i>Ascher, Brenner, Burgen, Changeux, Crick, Jardetzky, Karlin, Mayer, McConnell, Paton, Potter, Rang, Richards, Silman, Singer, Thesleff, Waser</i>	271
