

CONTENTS

CYTOLOGY	<i>page</i>		
Introduction	2	Vertebral Characteristics	233
Cell Structure	4	Sternum and Ribs	249
Epithelial Tissues	27	The Skull	256
Connective Tissues	32	Exterior of the Skull	261
Blood and Haemopoiesis	42	Interior of the Cranium	273
		Individual Cranial Bones	281
		Cranial Growth and Variations	310
EMBRYOLOGY		Appendicular Skeleton	315
Introduction	54	Skeleton of Upper Limb	318
Sexual Reproduction	55	Skeleton of Lower Limb	344
Growth and Differentiation	58		
The Female Gamete	63	ARTHROLOGY	
The Male Gamete	66	Fibrous and Cartilaginous Joints	388
Fertilization	71	Structure of Synovial Joints	394
Heredity and Human Genetics	72	Movements and Mechanisms of Joints	398
Early Development of the Human Embryo	74	Temporomandibular Joint	407
Differentiation of the Embryonic Area	81	Vertebral and Thoracic Articulations	411
Formation of the Embryo	88	Joints of the Upper Limb	421
Nutrition of the Embryo	91	Joints of the Lower Limb	442
Implantation and Placentation	101		
Skeletal Development	110	MYOLOGY	
Branchial Apparatus	115	Introduction	474
Development of Locomotor Structures	122	Skeletal Muscle	474
Nervous System and Special Sense Organs	126	Cardiac Muscle	483
Vascular System	149	Non-striated Muscle	486
Digestive and Respiratory System	169	Form and Actions of Skeletal Muscle	488
Urogenital System	183	Fasciae and Muscles of the Head	496
Prenatal Growth	192	Anterolateral Nuchal Muscles and Fasciae	503
		Fasciae and Muscles of the Trunk	510
OSTEOLOGY		Fasciae and Muscles of the Upper Limb	532
Human Skeletal Morphology	200	Fasciae and Muscles of the Lower Limb	559
Skeletal Connective Tissues	210		
Structure of Cartilage	210	ANGIOLOGY	
Bone as a Tissue	215	Introduction and Vascular Structure	588
x Histogenesis of Bone	222	Vascular Patterns	594

Thoracic Cavity and Pericardium	596	Peripheral Nervous System	994
The Heart	599	Individual Cranial Nerves	996
Aortic Arch	619	Morphology of Cranial Nerves	1027
Carotid Arterial System	622	Spinal Nerves	1030
Subclavian Arterial System	639	Dorsal Spinal Rami	1032
Thoracic Aorta	656	Cervical Ventral Spinal Rami	1034
Abdominal Aorta	659	Thoracic Ventral Spinal Rami	1047
Iliac Arterial System	667	Lumbar Ventral Spinal Rami	1050
Cranial Venous System	686	Sacral Ventral Spinal Rami	1054
Veins of the Upper Limb	698	Autonomic Nervous System	1065
Thoracic Veins	700	Parasympathetic Nervous System	1067
Veins of the Lower Limb	704	Sympathetic Nervous System	1068
Abdominal Veins	706	Major Autonomic Plexuses	1076
Reticulo-endothelial System	712	Gustatory Apparatus	1083
The Spleen	718	Olfactory Apparatus	1086
The Thymus	723	Visual Apparatus	1095
Regional Lymph Nodes and Vessels	727	Auditory and Vestibular Apparatus	1134
		Integument—Skin	1159

NEUROLOGY

General Principles	746
Neuroanatomical Techniques	755
Neurocytology	766
Nervous System—Divisions	804
Spinal Medulla or Cord	806
Myelencephalon—Medulla Oblongata	840
Metencephalon—Pons	849
Cerebellum	856
Mesencephalon—Midbrain	880
Reticular Formation	888
Diencephalon	891
Dorsal Thalamus	892
Epithalamus	901
Subthalamus	902
Hypothalamus	904
Metathalamus	913
Cerebral Surfaces	921
Limbic Lobe	930
Cerebral Cortex—Structure	943
Cerebral Cortex—Areas	952
Basal Nuclei	976
Meninges—Cranial and Spinal	986

SPLANCHNOLOGY

Respiratory System	1172
Larynx	1173
Trachea and Bronchi	1183
Pleurae	1190
The Mediastinum	1195
Lungs	1196
Alimentary System	1205
The Teeth	1215
Tongue, Pharynx and Oesophagus	1237
The Abdomen	1254
Peritoneum	1257
Gastro-intestinal Tract	1270
Pancreas and Liver	1299
Urogenital System	1314
The Urinary Tract	1315
Reproductive Organs—Male	1336
Reproductive Organs—Female	1351
Endocrine Glands	1367
