

Contents

SECTION ONE. INTRODUCTION: THE CELL

- Experiment 1-1. Gross Anatomy of the Organ Systems. 3
- Experiment 1-2. Functional Anatomy of the Cell and the Tissues. .. 15
- Experiment 1-3. Cellular Function. 21

SECTION TWO. THE BODY FLUIDS AND THE URINARY SYSTEM

- Experiment 2-1. Osmolality of Plasma. 31
- Experiment 2-2. The Exchange of Fluid, Electrolytes, and Glucose
Between the External and Internal Environments. .. 39
- Experiment 2-3. Effect of Water and Salt Loads on Kidney
Function. 45

SECTION THREE. BLOOD AND IMMUNITY

- Experiment 3-1. The Formed Elements of Blood. 55
- Experiment 3-2. Blood Typing. 67
- Experiment 3-3. Observations on the Lymphatic and
Reticuloendothelial Systems. 73

SECTION FOUR. THE CARDIOVASCULAR SYSTEM

- Experiment 4-1. The Turtle Heart. 81
- Experiment 4-2. Factors That Influence Peripheral Circulation. 87
- Experiment 4-3. The Measurement of Blood Pressure and Heart
Rate in the Human Being. 97
- Experiment 4-4. Regulation of Arterial Blood Pressure in the Dog.—
A Demonstration Experiment. 105

SECTION FIVE. RESPIRATION

- Experiment 5-1. The Model Lung.—Mechanics of Respiration. 117
- Experiment 5-2. Pulmonary Volumes and Capacities. 125
- Experiment 5-3. Regulation of Alveolar Ventilation. 133

SECTION SIX. THE NERVOUS SYSTEM AND MUSCLE

Experiment 6-1. Conduction by Depolarization: A Demonstration of the Lillie Iron Wire Model.	145
Experiment 6-2. Electrical Activity of Muscle.	153
Experiment 6-3. Characteristics of Skeletal Muscle.	159
Experiment 6-4. Characteristics of Smooth Muscle.	169
Experiment 6-5. Reflex Function of the Nervous System.	175

SECTION SEVEN. THE SPECIAL SENSORY SYSTEMS

Experiment 7-1. Optics of Vision.	187
Experiment 7-2. Hearing, Taste, and Smell.	195

SECTION EIGHT. THE GASTROINTESTINAL AND METABOLIC SYSTEMS

Experiment 8-1. Function of Saliva, Gastric Secretions, and Bile. ...	205
Experiment 8-2. The Digestion and Absorption of Carbohydrates by the Small Intestine.	215
Experiment 8-3. Measuring Metabolic Rates.	221
Experiment 8-4. Regulation of Body Temperature.	227
Experiment 8-5. Cyclic Variations in Body Temperature.	235

SECTION NINE. ENDOCRINOLOGY AND REPRODUCTION

Experiment 9-1. Thyroid Hormone and Metabolism in the Rat.	245
Experiment 9-2. Alloxan Diabetes and the Action of Insulin in the Rat.	251
Experiment 9-3. Tests for Pregnancy Hormones.	259
Experiment 9-4. Pregnancy and Fetal Development in the Rat.	265

APPENDIX I. GENERAL LABORATORY EQUIPMENT.	271
--	-----

APPENDIX II. MATERIALS REQUIRED FOR EXPERIMENTS.	273
---	-----

APPENDIX III. SOLUTIONS AND REAGENTS.	286
--	-----
