

Contents

Section One **BASIC CONCEPTS**

Chapter One	
THE EPIDEMIOLOGIC METHOD.....	3
Chapter Two	
CAUSATION AND CAUSAL INFERENCE.....	15
Chapter Three	
MOLECULAR AND CELLULAR BASIS OF CHEMICAL CARCINOGENESIS.....	23
Chapter Four	
EXPERIMENTAL STUDIES IN THE ASSESSMENT OF HUMAN RISK.....	44
Chapter Five	
MORPHOLOGIC CLASSIFICATION OF HUMAN CANCER.....	74
Chapter Six	
MORPHOLOGY AND NATURAL HISTORY OF PRECURSOR LESIONS	90

Section Two **THE MAGNITUDE OF CANCER**

Chapter Seven	
INTERNATIONAL PATTERNS OF CANCER	119

xix

xx—CONTENTS

Chapter Eight	
THE INCIDENCE OF CANCER IN THE UNITED STATES	138
Chapter Nine	
CANCER PATIENT SURVIVAL IN THE UNITED STATES	166
Chapter Ten	
GEOGRAPHIC EPIDEMIOLOGY OF CANCER IN THE UNITED STATES.....	179
Chapter Eleven	
MIGRANT STUDIES	194
Chapter Twelve	
ECONOMIC IMPACT OF CANCER IN THE UNITED STATES	208
 Section Three	
THE CAUSES OF CANCER	
Chapter Thirteen	
IONIZING RADIATION	231
Chapter Fourteen	
SOLAR RADIATION	254
Chapter Fifteen	
TOBACCO.....	277
Chapter Sixteen	
ALCOHOL.....	293
Chapter Seventeen	
DRUGS.....	304
Chapter Eighteen	
OCCUPATION	318
Chapter Nineteen	
AIR AND WATER POLLUTION	336
Chapter Twenty	
VIRUSES.....	364
Chapter Twenty-one	
SPATIAL AND TEMPORAL CLUSTERING.....	391
Chapter Twenty-two	
PARASITES.....	408

CONTENTS — xxi

Chapter Twenty-three	
DIET.....	419
Chapter Twenty-four	
ASSESSMENT OF NUTRITION IN EPIDEMIOLOGIC STUDIES.....	434
Chapter Twenty-five	
SINGLE GENE SYNDROMES	475
Chapter Twenty-six	
FAMILIAL PREDISPOSITION	483
Chapter Twenty-seven	
IMMUNOLOGIC FACTORS	494
Chapter Twenty-eight	
GENETIC-ENVIRONMENTAL INTERACTIONS.....	506

Section Four CANCER BY TISSUE OF ORIGIN

Chapter Twenty-nine	
NASAL CAVITY AND PARANASAL SINUSES	519
Chapter Thirty	
NASOPHARYNX.....	536
Chapter Thirty-one	
LARYNX.....	554
Chapter Thirty-two	
LUNG AND PLEURA	564
Chapter Thirty-three	
ORAL CAVITY AND PHARYNX.....	583
Chapter Thirty-four	
✓ ESOPHAGUS	596
Chapter Thirty-five	
✓ STOMACH	624
Chapter Thirty-six	
PANCREAS	638
Chapter Thirty-seven	
LIVER	668

Chapter Thirty-eight	
BILIARY TRACT.....	683
Chapter Thirty-nine	
SMALL INTESTINE	692
Chapter Forty	
LARGE INTESTINE	703
Chapter Forty-one	
THE LEUKEMIAS	728
Chapter Forty-two	
HODGKIN'S DISEASE.....	739
Chapter Forty-three	
NON-HODGKIN'S LYMPHOMA AND MYCOSIS FUNGOIDES	754
Chapter Forty-four	
BURKITT'S LYMPHOMA	779
Chapter Forty-five	
MULTIPLE MYELOMA AND MACROGLOBULINEMIA	795
Chapter Forty-six	
BONE.....	814
Chapter Forty-seven	
SOFT TISSUE	827
Chapter Forty-eight	
THYROID.....	837
Chapter Forty-nine	
BREAST.....	855
Chapter Fifty	
OVARY	871
Chapter Fifty-one	
UTERINE CERVIX.....	881
Chapter Fifty-two	
UTERINE CORPUS.....	901
Chapter Fifty-three	
CHORIOCARCINOMA	909

CONTENTS—xxiii

Chapter Fifty-four	
URINARY TRACT	925
Chapter Fifty-five	
PROSTATE.....	938
Chapter Fifty-six	
TESTIS	947
Chapter Fifty-seven	
PENIS	958
Chapter Fifty-eight	
NERVOUS SYSTEM.....	968
Chapter Fifty-nine	
MELANOMA.....	984
Chapter Sixty	
SKIN (OTHER THAN MELANOMA)	996
Chapter Sixty-one	
CANCERS IN CHILDREN	1012
Chapter Sixty-two	
MULTIPLE PRIMARY CANCERS.....	1025

Section Five **CANCER CONTROL**

Chapter Sixty-three	
HISTORICAL PERSPECTIVES	1039
Chapter Sixty-four	
BEHAVIORAL DIMENSIONS.....	1049
Chapter Sixty-five	
FUNDAMENTAL ISSUES IN SCREENING.....	1064
Chapter Sixty-six	
MATHEMATICAL MODELS IN SCREENING	1075
Chapter Sixty-seven	
MULTISITE SCREENING	1091

xxiv — CONTENTS

Chapter Sixty-eight	
PUBLIC EDUCATION	1100
Chapter Sixty-nine	
ROLE OF ALLIED HEALTH PROFESSIONALS	1111
Chapter Seventy	
ROLE OF REGULATORY AGENCIES	1123
INDEX	1135
