<i>Preface to Third Edition</i>	<i>vii</i>
<i>Acknowledgments</i>	<i>ix</i>
<i>Contributors</i>	<i>xi</i>

Section 1	
Introduction	1

1. Development and Application of Cardiac Catheterization and Interventional Procedures: Historical Background	3
<i>Carl J. Pepine</i>	
<i>James A. Hill</i>	
<i>Charles R. Lambert</i>	

Section 2	
Catheterization Laboratory Organization, Administration, and Related Issues ..	11

2. Cardiac Catheterization Laboratory Settings	13
<i>Thomas M. Bashore</i>	
<i>Andrew G. Wang</i>	
3. Training and Training Requirements for Cardiac Catheterization	31
<i>Patrick J. Scanlon</i>	
4. Aspects of Catheterization Laboratory Administration	42
<i>James A. Hill</i>	
<i>Charles R. Lambert</i>	
<i>Carl J. Pepine</i>	
5. Quality Assurance for Cardiac Catheterization Procedures: Continuous Quality Improvement, Clinical Pathways, and Scorecarding	50
<i>Frederick A. Heupler, Jr.</i>	
<i>Kimberly Brown</i>	
<i>Stephen G. Ellis</i>	

6. Conflicts of Interest in the Catheterization Laboratory: Strategies for Identification and Avoidance 67
Barry D. Bertolet
Ronald E. Vlietstra
Carl J. Pepine

Section 3

General Cardiac Catheterization: Application to Both Diagnostic and Therapeutic Procedures 75

7. Evaluation and Preparation of the Patient for Cardiac Catheterization 77
Hercules Panayiotou
Charles R. Lambert
Norberto Schechtmann
Carl J. Pepine
James A. Hill
8. Complications of Cardiac Catheterization and Strategies to Reduce Risks 91
Richard A. Kerensky
9. Review of Techniques 106
James A. Hill
Charles R. Lambert
Ronald E. Vlietstra
Carl J. Pepine
10. Catheters, Sheaths, Guidewires, Needles, and Related Equipment 129
Robert G. MacDonald
11. Radiographic Techniques Used in Cardiac Catheterization 162
David R. Holmes, Jr.
Merrill A. Wondrow
Paul R. Julsrud
12. Digital Angiography: Principles and Clinical Applications 185
Steven E. Nissen
13. Radiographic Contrast Agents 203
James A. Hill
Charles R. Lambert
Carl J. Pepine
14. Recording Cardiovascular Variables 217
Wilmer W. Nichols
Charles R. Lambert
Carl J. Pepine

Section 4

Diagnostic Cardiac Catheterization Techniques 231

15. Indications and Contraindications for Cardiac Catheterization 233
Charles R. Lambert
James A. Hill
Carl J. Pepine

16. Ventriculography	247
<i>Florence H. Sheehan</i>	
<i>J. Ward Kennedy</i>	
17. Coronary Angiography	264
<i>Carl J. Pepine</i>	
<i>Charles R. Lambert</i>	
<i>James A. Hill</i>	
18. Intravascular Ultrasound	307
<i>Jay D. Schlaifer</i>	
<i>Steven E. Nissen</i>	
19. Angioscopy for Interventional Cardiovascular Diagnosis	326
<i>Joel D. Eisenberg</i>	
<i>Sergio Waxman</i>	
<i>George S. Abela</i>	
20. Noncardiac Angiography	339
<i>Jeffrey Brinker</i>	
<i>Scott J. Savader</i>	
21. Blood Flow Measurement and Quantification of Vascular Stenoses	399
<i>Michael D. Winniford</i>	
<i>Morton J. Kern</i>	
<i>Charles R. Lambert</i>	
22. Pressure Measurement and Determination of Vascular Resistance	442
<i>Charles R. Lambert</i>	
<i>Carl J. Pepine</i>	
<i>Wilmer W. Nichols</i>	
23. Shunt Detection and Quantification	459
<i>David C. Mayer</i>	
24. Assessment of Cardiovascular Function	480
<i>Richard A. Lange</i>	
<i>L. David Hillis</i>	
25. Valve Function: Stenosis and Insufficiency	516
<i>Lawrence R. Blitz</i>	
<i>Daniel M. Kolansky</i>	
<i>John W. Hirshfeld, Jr.</i>	

5

Section

Coronary and Noncoronary Therapeutic (Intervention) Cardiac Techniques	541
26. Indications and Contraindications: Patient Selection for Coronary Artery Interventions	543
<i>Charles R. Lambert</i>	
<i>James A. Hill</i>	
<i>Carl J. Pepine</i>	
27. Introduction to Coronary Angioplasty	551
<i>George W. Vetrovec</i>	
28. Complex Coronary Angioplasty	564
<i>John S. Douglas, Jr.</i>	

	<i>Spencer B. King III</i>	
29.	Coronary Atherectomy: Directional, Rotational, and Extraction Techniques .. <i>Richard A. Kerensky</i> <i>Jay D. Schlaifer</i>	606
30.	Laser Techniques for Coronary Artery Intervention, and Other Alternative Techniques <i>John A. Bittl</i>	638
31.	Introduction to Coronary Artery Stenting <i>Michael J.B. Kutryk</i> <i>Patrick W. Serruys</i>	654
32.	Stents for Coronary Artery Intervention: Types, Technical Issues, and Clinical Examples <i>Paul Kelly</i> <i>Ulrich Sigwart</i>	710
33.	Angiographic and Clinical Results Using Coronary Stents <i>Sheldon Goldberg</i> <i>David L. Fischman</i> <i>Michael P. Savage</i>	730
34.	Antithrombotic Therapy During Percutaneous Coronary Intervention <i>Christopher B. Granger</i> <i>Robert A. Harrington</i>	751
35.	Balloon Valvuloplasty: Indications, Techniques, and Results <i>Howard C. Herrmann</i>	764

Section	6	
	Specific Clinical States and Their Assessment and Intervention by Catheter Techniques	787
36.	The Patient with Known or Suspected Coronary Heart Disease: Stable Ischemic Syndromes <i>Carl J. Pepine</i> <i>Mark H. Mines</i> <i>James A. Hill</i> <i>Charles R. Lambert</i>	789
37.	The Patient with Known or Suspected Coronary Heart Disease: Unstable Ischemic Syndromes <i>Michael P. Savage</i> <i>Sheldon Goldberg</i>	819
38.	Microinfarction Associated with Percutaneous Coronary Intervention <i>Barbara E. Tardiff</i> <i>Kenneth W. Mahaffey</i> <i>E. Magnus Ohman</i> <i>Robert M. Califf</i>	872
39.	Economic Issues Related to Diagnosis and Therapy in Coronary Heart Disease <i>Eric L. Eisenstein</i> <i>Daniel B. Mark</i>	892

40. The Patient with Valvular Heart Disease	914
<i>Michael E. Assey</i>	
<i>Bruce W. Usher</i>	
<i>Blase A. Carabello</i>	
41. Evaluation for Cardiac Transplantation and Follow-up of the Cardiac Transplant Recipient	960
<i>Roger M. Mills, Jr.</i>	
<i>James B. Young</i>	
42. The Patient with Known or Suspected Pericardial Disease	981
<i>Jamie B. Conti</i>	
<i>Jannet F. Lewis</i>	
<i>C. Richard Conti</i>	
43. The Adult with Congenital Heart Disease	997
<i>F. Jay Fricker</i>	
44. The Patient with Known or Suspected Disease of the Aorta	1008
<i>Tomas D. Martin</i>	
<i>Carl J. Pepine</i>	
<i>James A. Hill</i>	
<i>Charles R. Lambert</i>	
Appendix: Useful Cardiovascular Equations, Physical Quantities, and Nomograms	1032
<i>Wilmer W. Nichols</i>	
<i>Francesca A. Nicolini</i>	
Index	1047
