

TABLE OF CONTENTS

Basic Considerations

I. Pathophysiology of Diabetes, <i>Erol Cerasi, M.D., and Rolf Luft, M.D.</i>	1
II. Proinsulin and Its Derivatives, <i>Donald F. Steiner, M.D., and Arthur H. Rubenstein, M.B., M.R.C.P.</i>	7
III. Immunological Aspects of Insulin and Principles of Immunoassay of Polypeptide Hormones, <i>Peter H. Wright, M.D.</i>	13
IV. Mechanism of Insulin Secretion, <i>Karl E. Sussman, M.D.</i>	19
V. Dietary Stimulants to Insulin Secretion, <i>John C. Floyd, Jr., M.D.</i>	25
VI. Insulin Secretion in Diabetes and Other Pathological States, <i>Roger L. Lerner, M.D., and Daniel Porte, Jr., M.D.</i>	31
VII. Pancreatic Glucagon: Its Contribution to Health and Disease, <i>Roger H. Unger, M.D.</i>	39

VIII. Gastrointestinal Factors and Insulin Release, <i>John Dupré, M.A., M.R.A.C.P., and</i> <i>Donald J. Chisholm, M.B., M.R.A.C.P.</i>	47
IX. Metabolic Effects of Insulin, <i>Oscar B. Crofford, M.D.</i>	51
X. Control of Gluconeogenesis, <i>George F. Cahill, Jr., M.D.</i>	57
XI. Central Nervous System Control of Carbohydrate Metabolism, <i>Lawrence A. Frohman, M.D. ...</i>	63
XII. Central Nervous System Modulation of Fat Metabolism, <i>Charles J. Goodner, M.D.</i>	67
XIII. Genetic Considerations in Diabetes Mellitus, <i>Nancy E. Simpson, Ph.D.</i>	71
XIV. Metabolic Abnormalities Associated with Obesity, <i>Ethan A. H. Sims, M.D.</i>	75
XV. Research Frontiers in Diabetes, <i>Rachmiel Levine, M.D., and</i> <i>Richard J. Mahler, M.D.</i>	81

Diagnosis

XVI. Classification and Natural History of Genetic Diabetes Mellitus, <i>Stefan S. Fajans, M.D.</i>	89
---	----

XVII. Screening for Diabetes Mellitus, <i>Glen W. McDonald, M.D., M.P.H., and John B. O'Sullivan, M. D.</i>	95
XVIII. Oral Glucose Tolerance Tests, <i>Holbrooke S. Seltzer, M.D.</i>	101
XIX. The Intravenous Glucose Tolerance Test, <i>J. Stuart Soeldner, M.D.</i>	107
XX. Effect of Age in Interpretation of Glucose and Tolbutamide Tolerance Tests, <i>Reubin Andres, M.D.</i>	115
XXI. Epidemiology of Diabetes, <i>Kelly M. West, M.D.</i>	121

Therapy

XXII. Goals, Objectives, and Approaches, <i>Henry T. Ricketts, M.D.</i>	129
XXIII. Diet Principles and Applications, <i>Jerome M. Feldman, M.D.</i>	133
XXIV. Clinical Use of Various Insulin Preparations, <i>George D. Molnar, M.D., Ph.D.</i>	139
XXV. Oral Hypoglycemic Agents: Mechanisms of Action, <i>Harold E. Lebovitz, M.D., and Jerome M. Feldman, M.D.</i>	147

XXVI. Therapy with Oral Hypoglycemic Agents, <i>John A. Colwell, M.D., Ph.D.</i>	153
XXVII-A. Effects of Oral Hypoglycemic Agents on Cardiovascular Disease, <i>Thaddeus E. Prout, M.D., and</i> <i>Max Miller, M.D.</i>	159
XXVII-B. Effects of Oral Hypoglycemic Agents on Cardiovascular Disease, <i>Harry Keen, M.B., B.S., F.R.C.P., and</i> <i>R. John Jarrett, M.A., M.D.</i>	167
XXVIII. Insulin Resistance and Insulin Allergy, <i>Joseph C. Shipp, M.D., and</i> <i>Daniel B. Stone, M.D.</i>	173
XXIX. Common Errors in the Treatment of Diabetes, <i>James M. Moss, M.D.</i>	181
XXX. Patient Education, <i>Donnell D. Etzwiler, M.D.</i> ..	185
XXXI. Interdisciplinary Approach to the Management of Ambulatory Patients, <i>Alan L. Graber, M.D.</i> ...	191
 <i>Problems in Management</i>	
XXXII. Problems Associated with Diabetes in Children, <i>Allan Drash, M.D.</i>	197
XXXIII. Management of Elderly Persons with Diabetes, <i>T. Franklin Williams, M.D.</i>	201

XXXIV. Diabetes in Socioeconomically Deprived
Neighborhoods, *John K. Davidson, M.D., Ph.D.* 207

XXXV. Infections, *John D. Bagdade, M.D.* 211

XXXVI. Surgery in the Diabetic Patient,
Charles R. Shuman, M.D. 217

Oral Contraceptive Agents, Pregnancy and Diabetes

XXXVII. Oral Contraceptive Agents, *Paul Beck, M.D.* 223

XXXVIII. Insulin Antagonism in Pregnancy,
Ronald K. Kalkhoff, M.D. 229

XXXIX. Management of the Pregnant Diabetic,
Jørgen Pedersen, M.D. 235

XL. The Infant of the Diabetic Mother,
Lynne L. Levitsky, M.D., and
Marvin Cornblath, M.D. 243

Emergencies

XLI. Diabetic Ketoacidosis, *T. S. Danowski, M.D.* . . . 249

XLII. Nonketotic Coma, *Theodore B. Schwartz, M.D.* . 255

XLIII. Hypoglycemia Secondary to Therapy,
Clifford F. Gastineau, M.D., Ph.D. 261

Long-term Problems

XLIV. Pathophysiology	
A. Polyol Pathway and Diabetic Complications, <i>Albert I. Winegrad, M.D.,</i> <i>Rex S. Clements, M.D., and</i> <i>Anthony D. Morrison, M.D.</i>	269
XLIV. Pathophysiology	
B. Biochemical Basis of the Diabetic Microangiopathy, <i>Robert G. Spiro, M.D.</i>	275
XLV-A. Capillary Basement Membranes in Diabetes, <i>Marvin D. Siperstein, M.D., Ph.D.</i>	281
XLV-B. Basement Membrane Thickening in Diabetes, <i>Charles Kilo, M.D., Nancy J. Vogler, B.S.,</i> <i>and Joseph R. Williamson, M.D.</i>	289
XLVI. Coronary Artery Disease, <i>Robert F. Bradley, M.D.</i>	295
XLVII-A. Peripheral Vascular Disease: Medical Management, <i>Marios C. Balodimos, M.D. ...</i>	305
XLVII-B. Peripheral Vascular Disease: Surgical Considerations, <i>Frank C. Wheelock, Jr., M.D. .</i>	311
XLVIII. Foot Care in Diabetic Patients, <i>Harold Zarowitz, M.D.</i>	317

XLIX. Ophthalmologic Problems in Diabetes Mellitus, <i>Matthew D. Davis, M.D.</i>	323
L-A. Photocoagulation for Retinopathy: Xenon (White) Arc Photocoagulation, <i>Paul C. Wetzig, M.D.</i>	329
L-B. Ruby Laser Photocoagulation for Diabetic Retinopathy, <i>Lloyd M. Aiello, M.D.</i>	333
L-C. Argon Laser Photocoagulation for Diabetic Retinopathy, <i>Francis A. L'Esperance, Jr., M.D.</i>	337
LI. Pituitary Ablation for Diabetic Angiopathy, <i>Knud Lundbaek, M.D.</i>	341
LII. Diabetic Neuropathy, <i>Leon D. Prockop, M.D.</i> ..	347
LIII. Diabetic Nephropathy, <i>Ruth Østerby, M.D.</i>	353
LIV. Functional Alterations Associated with Diabetic Nephropathy, <i>Neal S. Bricker, M.D.</i> , and <i>Herbert Lubowitz, M. D.</i>	357
LV. Organ Transplantation in Diabetes Mellitus, <i>Frederick C. Goetz, M.D.</i>	363
LVI. Prognosis in Diabetes, <i>Harvey C. Knowles, Jr., M.D.</i>	369

Special Problems

- LVII. Hyperlipoproteinemia with Carbohydrate
Intolerance, *Donald S. Fredrickson, M.D.* . . . 377
- LVIII. Hyperlipemia in the Manifest Diabetic:
Mechanism and Treatment,
Edwin L. Bierman, M.D. 383
- LIX. Emotional Factors in Diabetes,
Donald M. Barnett, M.D. 387
- LX. Hypoglycemic Disorders, *Norbert Freinkel, M.D.* 393

Appendix

- LXI. Some Useful References for the Clinician,
Kelly M. West, M.D. 403
- Index 409
