

# Contents

---

## **PART ONE**

### **Introduction**

- 1 Platelet Immunology: Historical  
Perspective and Future Directions .... 3  
*Richard H. Aster and  
Thomas J. Kunicki*

## **PART TWO**

### **Structural Profile of the Platelet Plasma Membrane**

- 2 Structure and Function of Platelet  
Membrane Glycoproteins ..... 9  
*Laurence A. Fitzgerald and  
David R. Phillips*
- 3 Platelet Glycolipids ..... 31  
*Paul K. Schick*
- 4 Platelet Proteoglycans and Sulfated  
Proteins ..... 44  
*Barbara P. Schick*
- 5 Congenital Abnormalities of Platelet  
Membrane Glycoproteins ..... 63  
*Alan T. Nurden*

## **PART THREE**

### **Antigenic Profile of the Platelet Plasma Membrane**

- 6 Biochemistry of Platelet-Associated  
Isoantigens and Alloantigens ..... 99  
*Thomas J. Kunicki*
- 7 Platelet Autoantigens ..... 121  
*Diana S. Beardsley*
- 8 Biochemistry of Drug-Dependent Platelet  
Autoantigens ..... 132  
*Michael C. Berndt, Beng H. Chong, and  
Robert K. Andrews*

- 9 Phylogeny and Tissue Distribution of  
Platelet Antigens ..... 148  
*Peter J. Newman*

- 10 Activation-Specific Platelet  
Antigens ..... 166  
*Barry S. Collier*

## **PART FOUR**

### **Application of Antibody Probes to the Study of Platelet Biochemistry and Molecular Biology**

- 11 The Application of Crossed-  
Immunoelectrophoresis and Related  
Immunoassays to the Characterization of  
Glycoprotein Structure  
and Function ..... 193  
*Dominique Pidard*
- 12 Use of Murine Monoclonal Antibodies  
to Determine Platelet Membrane  
Glycoprotein Structure  
and Function ..... 235  
*Zaverio M. Ruggeri and  
Elisabeth M. Hodson*
- 13 Homologous Functions and Interactions  
of Platelets and Endothelial Cells ... 255  
*Robert R. Montgomery,  
Yohko Kawai, and J. Paul Scott*
- 14 Human Monoclonal Antibodies in the  
Characterization of  
Platelet Antigens ..... 273  
*Diane J. Nugent*
- 15 Molecular Characterization of the  
Antigenic Sites of  
Antiplatelet Antibodies ..... 291  
*Mark H. Ginsberg, Joseph C. Loftus, and  
Edward F. Plow*

*continued*

**PART FIVE**

**Platelet-Associated IgG and Complement**

- 16** The Origin and Significance  
of Platelet IgG. . . . . **305**  
*James N. George*

- 17** Fc Receptors of Human Platelets . . . **337**  
*Stephen I. Rosenfeld and*  
*Clark L. Anderson*

- 18** Interaction of Human Platelets with the  
Complement System . . . . . **354**  
*Peter J. Sims*

**PART SIX**

**Clinical Aspects of Platelet Immunology**

- 19** The Immunologic  
Thrombocytopenias. . . . . **387**  
*Richard H. Aster*

- 20** Laboratory Methods for the Detection of  
Platelet Antibodies and Identification  
of Antigens . . . . . **436**  
*Christian Mueller-Eckhardt and*  
*Volker Kiefel*

- 21** Prevention of Alloimmunization in  
Platelet Transfusion Recipients. . . . . **454**  
*Charles A. Schiffer*

- 22** Platelet-Specific Antibodies as in vivo  
Therapeutic Reagents:  
A Baboon Model. . . . . **471**  
*Stephen R. Hanson*

- Index*. . . . . **485**
-
