

Contents

Part I Hemorrhagic Disorders 1

Section A Plasma Coagulation Factors 3

- 1. Overview of Hemostasis 3**
Robert W. Colman, Victor J. Marder, Edwin W. Salzman, and Jack Hirsh
- 2. Contact Activation and Its Abnormalities 18**
Alvin H. Schmaier, Michael Silverberg, Allen P. Kaplan, and Robert W. Colman
- 3. Factor IX 39**
Ulla Hedner and Earl W. Davie
- 4. Factor VIII 48**
Leon W. Hoyer
- 5. von Willebrand Disease 60**
Barry S. Coller
- 6. Clinical Manifestations and Therapy of Hemophilias A and B 97**
Peter H. Levine
- 7. Activation of Factor X 112**
Mark Steinberg and Yale Nemerson

- 8. Factor V 120**
Robert W. Colman
- 9. Mechanisms of Prothrombin Activation 135**
Craig M. Jackson
- 10. Biochemistry of Thrombin 148**
Kenneth G. Mann and Roger L. Lundblad
- 11. Inherited Disorders of Prothrombin Conversion 162**
Harold R. Roberts and Paul A. Foster
- 12. Adhesive Interactions of Blood Cells and the Vessel Wall 182**
Jacek Hawiger
- 13. Fibronectin—Relevance to Hemostasis and Thrombosis 210**
Deane F. Mosher
- 14. Blood Proteolytic Enzyme Inhibitors: Their Role in Modulating Blood Coagulation and Fibrinolytic Enzyme Pathways 219**
Peter C. Harpel
- 15. Protein C 235**
Whyte G. Owen
- 16. The Blood Coagulation Factors: Their cDNAs, Genes, and Expression 242**
Earl W. Davie

Section B Fibrinolysis 269

- 17. Fibrinogen Structure and Physiology 269**
Roy R. Hantgan, Charles W. Francis, Harold A. Scheraga, and Victor J. Marder
- 18. Structure and Function of Factor XIII 289**
Jan McDonagh
- 19. Disorders of Fibrinogen Structure and Function 301**
Jan McDonagh and Nadia Carrell
- 20. Plasminogen Activators 318**
Fedor Bachmann
- 21. The Plasminogen—Plasmin Enzyme System 340**
Kenneth C. Robbins
- 22. Physiologic Regulation and Pathologic Disorders of Fibrinolysis 358**
Charles W. Francis and Victor J. Marder
- 23. Antifibrinolytic Therapy 380**
Victor J. Marder, Fred O. Butler, and Grant H. Barlow

Section C Platelet Production and Destruction 395

- 24. Megakaryocyte Structure, Maturation, and Ecology 395**
Marshall A. Lichtman and James K. Brennan
- 25. Thrombopoiesis 418**
Jack Levin
- 26. Platelet Kinetics 431**
N. Raphael Shulman and James V. Jordan, Jr.
- 27. Platelet Immunology 452**
N. Raphael Shulman and James V. Jordan, Jr.
- 28. Management of Thrombocytopenia 530**
Dudley P. Jackson
- 29. Anatomy and Structural Organization of the Platelet 537**
James G. White
- 30. Platelet–Surface Interactions 555**
Vincent Thomas Turitto and Hans R. Baumgartner
- 31. Platelet Membrane Glycoproteins 572**
Laurence A. Fitzgerald and David R. Phillips
- 32. Mechanisms of Platelet Aggregation 594**
Robert W. Colman and Peter N. Walsh
- 33. Platelet Secretion 606**
Holm Holmsen
- 34. Biochemistry and Physiology of Secreted Platelet Proteins 618**
Stefan Niewiarowski and John C. Holt
- 35. Biochemistry of the Platelet: Energy Metabolism 631**
Holm Holmsen
- 36. Platelet Contractile Proteins 644**
James L. Daniel and George P. Tuszyński
- 37. Platelet Lipids 661**
Paul K. Schick
- 38. Platelet Eicosanoid Metabolism 676**
Aaron J. Marcus
- 39. Platelet–Coagulant Protein Interactions 689**
Peter N. Walsh and Alvin H. Schmaier
- 40. Intracellular Regulatory Processes in Platelets 710**
Jacek Hawiger, Michael L. Steer, and Edwin W. Salzman

41. Inherited Disorders of the Platelet Membrane: Glanzmann's Thrombasthenia and Bernard-Soulier Syndrome 726

James N. George and Alan T. Nurden

42. Inherited Disorders of Platelet Secretion 741

Harvey J. Weiss

43. Acquired Qualitative Platelet Defects 750

Angelina C. A. Carvalho and A. Koneti Rao

Section D Blood Vessels 773

44. Anatomy of the Blood Vessel Wall 773

Michael B. Stemerman

45. Physiology of the Vessel Wall 781

David Shepro and Bernadette Dunham

46. Biochemical Aspects of the Vessel Wall 793

Nicholas A. Kefalides

47. Platelet Interactions With the Blood Vessel Wall 804

Babette B. Weksler

48. Nonthrombocytopenic Vascular Disorders 816

E. J. Walter Bowie and Charles A. Owen, Jr.

Section E Acquired Disorders of Hemostasis 825

49. Acquired Inhibitors Against Factor VIII and Other Clotting Proteins 825

Donald I. Feinstein

50. Acquired Coagulation Disorders and Dysproteinemias 841

Bruce Furie

51. Vitamin K 846

Robert E. Olson

52. Hemostatic Abnormalities in Liver Disease 861

J. Heinrich Joist

53. Hemorrhagic Complications of Antithrombotic Therapy 873

Mark N. Levine, Jack Hirsh, and John G. Kelton

54. Defibrinogenating Enzymes 886

William R. Bell

55. Extracorporeal Circulation 901

L. Henry Edmunds, Jr., and V. Paul Addonizio, Jr.

- 56. Massive Transfusion 913**
L. Henry Edmunds, Jr., and V. Paul Addonizio, Jr.
- 57. Hemostatic Problems in Surgical Patients 920**
Edwin W. Salzman
- 58. Thrombohemorrhagic Complications in the Obstetric Patient 926**
René von Hugo and Henner Graeff
- 59. Bleeding in the Newborn and Pediatric Patient 942**
Marie J. Stuart
- 60. Disordered Platelet Function in Renal Disease 960**
Peter A. Castaldi and D. J. Gorman
- 61. Hemorrhagic Complications of Infection 965**
John G. Kelton and Peter B. Neame
- 62. Consumptive Thrombohemorrhagic Disorders 975**
Victor J. Marder, S. Eric Martin, Charles W. Francis, and Robert W. Colman
- 63. Thrombotic Thrombocytopenic Purpura 1016**
Richard S. Eisenstaedt, Robert W. Colman, and Victor J. Marder
- 64. Some Therapeutic Agents Influencing Hemostasis 1026**
Oscar D. Ratnoff
- 65. Approach to the Bleeding Patient 1048**
Gilbert C. White II, Victor J. Marder, Robert W. Colman, Jack Hirsh, and Edwin W. Salzman

Part II Thrombotic Disorders 1061

Section A Pathogenesis of Thrombosis 1063

- 66. Overview of the Thrombotic Process and Its Therapy 1063**
Jack Hirsh, Edwin W. Salzman, Victor J. Marder, and Robert W. Colman
- 67. The Vessel Wall in Thrombosis 1073**
J. Fraser Mustard, Raelene L. Kinlough-Rathbone, and Marian A. Packham
- 68. Role of Leukocytes in Thrombosis 1089**
Julian Niemetz
- 69. Coagulation Proteins in Thrombosis 1098**
Karen L. Kaplan
- 70. Rheology of Thrombosis 1111**
Edward F. Leonard

- 71. The Structure of Thrombi 1123**
David G. Freiman
- 72. Relationship of Thrombosis to Atherosclerosis 1136**
Michael B. Stemerman
- 73. Abnormalities of Hemostasis in Malignancy 1143**
Harold F. Dvorak
- 74. Thrombotic Complications of Oral Contraceptives 1158**
Stanford Wessler and Sanford N. Gitel
- 75. Laboratory Diagnosis of Thrombosis 1165**
Jack Hirsh

Section B Venous Thromboembolism 1185

- 76. The Epidemiology of Venous Thrombosis 1185**
Cedric Carter, Michael Gent, and Jacques R. Leclerc
- 77. Pathogenesis of Venous Thromboembolism 1199**
Jack Hirsh and Edwin W. Salzman
- 78. Natural History and Clinical Features of Venous Thrombosis 1208**
Jack Hirsh and Russell D. Hull
- 79. Diagnosis of Deep-Vein Thrombosis 1220**
Russell D. Hull, Roger H. Secker-Walker, and Jack Hirsh
- 80. Diagnosis of Pulmonary Embolism 1240**
Russell D. Hull, Geoffrey Coates, Gary E. Raskob, and Jack Hirsh
- 81. Prevention of Venous Thromboembolism 1252**
Edwin W. Salzman and Jack Hirsh
- 82. Treatment of Venous Thromboembolism 1266**
Jack Hirsh, Victor J. Marder, Edwin W. Salzman, and Russell D. Hull

Section C Arterial Thromboembolism 1273

- 83. Epidemiology 1273**
Simon W. Rabkin and David L. Sackett
- 84. Coronary Artery Disease, Platelets, and Thrombosis 1290**
Valentin Fuster, James H. Chesebro, Juan José Badimon, and Lina Badimon
- 85. Thrombotic Processes in Cerebrovascular Disease 1301**
Henry J. M. Barnett
- 86. Peripheral Arterial Occlusive Disease 1316**
D. E. Strandness, Jr.

- 87. Intracardiac Thrombosis 1324**
Michael D. Ezekowitz, Richard S. Meltzer, and Valentin Fuster
- 88. Interaction of Blood With Artificial Surfaces 1335**
Edwin W. Salzman and Edward W. Merrill
- 89. Artificial Devices in Clinical Practice 1348**
G. Patrick Clagett

Section D Therapeutic Modalities for Thrombotic Disorders 1367

- 90. Vitamin K Antagonists 1367**
Robert A. O'Reilly
- 91. The Heparin–Antithrombin System: A Natural Anticoagulant Mechanism 1373**
Robert D. Rosenberg
- 92. Fibrinolytic Therapy 1393**
Victor J. Marder and William R. Bell
- 93. The Use of Agents That Modify Platelet Function in the Management of Thrombotic Disorders 1438**
Laurence A. Harker and Michael Gent
- 94. Surgical Management of Venous Thromboembolism 1457**
Edwin W. Salzman
- 95. Surgical Treatment of Arterial Thromboembolic Disease 1467**
Edwin W. Salzman
- Index 1475**
