Los Angeles and Wadsworth Hospital, Veterans Administration Center, Los
Angeles

Pathology of Human Muscular Dystrophy

CARL M. PEARSON*

TABLE OF CONTENTS

I. Introduction	2
II. Gross Appearance of Dystrophic Muscle.	3
III. General Histopathological Features of Striated Muscle in Dystrophy	3
A. Sequential Histologic Pattern of Muscular Dystrophy.	6
1. Background of Detection of Early Cases	6
2. Early Asymptomatic Dystrophy	7
3. Early Symptomatic Dystrophy	9
4. Classical Dystrophy	11
B. Selected Features of the Dystrophic Process	13
IV. The Regenerative Capacity of Dystrophic Muscle after Induced Injury	16
V. Central and Peripheral Nervous Systems	18
VI. The Cardiovascular System	18
VII. Pathological Characteristics of Various Forms of Dystrophy	19
A. Childhood or Pseudohypertrophic Muscular Dystrophy	19
B. Mild Restricted Adult Forms of Dystrophy	19
C. Myotonic Dystrophy	20
D. Myopathic Arthrogryposis	22
E. Dystrophy of the Extraocular Muscles	22
VIII. Concluding Comments	23
References	26
