

CONTENTS

1. By Way of Introduction—The Cell. BY JOSEPH ENGELBERG.....	1
--	---

SECTION I. THE NERVOUS SYSTEM

2. The Physiological Properties of Nerve. BY LOUIS L. BOYARSKY.....	25
3. Receptor Organs and Sensation. REVISED BY LOUIS L. BOYARSKY.....	52
4. Physiological and Electrical Characteristics of Reflex Activity. BY LOUIS L. BOYARSKY.....	65
5. The Physiological Mechanisms Governing Posture and Equilibrium. BY JOSEPH E. HAWKINS.....	84
6. The Spinal Cord and Brain Stem (Medulla Oblongata, Pons and Midbrain). BY PAUL C. BUCY.....	116
7. The Basal Ganglia, The Thalamus and Hypothalamus. BY PAUL C. BUCY..	144
8. The Cerebral Cortex and Higher Functions. BY PAUL C. BUCY, REVISED, AND WITH NEW SECTIONS ADDED BY PAUL D. COLEMAN.....	162
9. Conditioning and Learning. BY JAMES F. ZOLMAN.....	198
10. The Cerebellum. BY PAUL C. BUCY WITH ADDITIONS BY LOUIS L. BOYARSKY.	223
11. The Cerebrospinal Fluid. REVISED BY LOUIS L. BOYARSKY.....	236
12. The Autonomic Nervous System. REVISED BY WILLIAM C. NORTH.....	242

SECTION II. THE SPECIAL SENSES

13. The Physiology of Vision. BY E. N. WILLMER.....	265
14. Intensity Discrimination and the Duplicity Theory of Vision; Color Vision; Visual Acuity; Flicker; After Images; Optical Illusions. BY E. N. WILLMER.....	295
15. The Dioptric Mechanisms of the Eye. Cataract. Optical Defects. Intra- ocular Fluids. BY FERGUS W. CAMPBELL.....	329
16. The Visual Fields and Pathway. Movements of the Ocular Muscle. Stereo- scopic Vision. BY FERGUS W. CAMPBELL.....	357
17. Hearing: Anatomical Considerations; Dimensions of Sound. BY J. E. HAWKINS.....	375
18. Hearing: Biomechanics and Neurophysiology. BY J. E. HAWKINS.....	395
19. Hearing: Measurement and Impairment. BY J. E. HAWKINS.....	409
20. The Senses of Taste and Smell. Common Chemical Senses. BY NORMAN B. TAYLOR.....	423

SECTION III. THE MUSCLE

21. Muscle Physiology. BY FRITIOF S. SJÖSTRAND.....	437
Electromyography. BY JOHN V. BASMAJIAN.....	459
Gross Organization and Function of Whole Skeletal Muscles. BY RONALD A. BERGMAN.....	462

SECTION IV. THE BLOOD AND LYMPH

22. The Physiological Properties, Physical Characters, and Composition of the Blood. REVISED BY DOROTHY C. H. LEY.....	471
23. The Red Cells or Erythrocytes. REVISED BY DOROTHY C. H. LEY.....	480
24. Blood Volume. Body Water. Water Balance. REVISED BY DOROTHY C. H. LEY.....	488
25. The Lymph and Tissue Fluids. REVISED BY DOROTHY C. H. LEY.....	505
26. Transfusion: The Blood Groups. BY DONALD W. CLARKE.....	513
27. Hemoglobin. BY DONALD W. CLARKE.....	521
28. Hemolysis and Suspension Stability of the Blood. BY NORMAN B. TAYLOR..	527
29. The Spleen. The Life of the Red Cell: The Regeneration of Blood: Iron Metabolism. REVISED BY DOROTHY C. H. LEY.....	533
30. The Anemias. REVISED BY DOROTHY C. H. LEY.....	544
31. The White Blood Corpuscles or Leukocytes--The Platelets. REVISED BY DOROTHY C. H. LEY.....	555
32. Origin of the Cells of the Blood. BY ERNEST A. MCCULLOCH.....	568
33. The Coagulation (Clotting) of Blood. BY FRANK C. MONKHOUSE AND ROBERT L. MACMILLAN.....	585
34. The Regulation of the Hydrogen Ion Concentration of the Body Fluids. REVISED BY JAMES A. DAUPHINEE.....	594

SECTION V. CIRCULATION

35. Basic Properties of the Heart. BY DONALD E. GREGG; REVISED BY ANDREW HUVOS.....	623
36. Functional Characteristics of the Systemic and Pulmonary Circulation. BY DONALD E. GREGG; REVISED BY ANDREW HUVOS.....	639
37. Electrocardiography. BY ALBERT A. KATTUS, JR., AND E. RAYMOND BORUN..	658
38. Disorders of the Heart and their Investigation by Graphic Methods. BY ALBERT A. KATTUS, JR., AND E. RAYMOND BORUN.....	681
39. Estimation of Volume of Blood Flow, Velocity of Blood Flow, Volume of Organs, Cavities and Regions, Circulation Time. BY DONALD E. GREGG; REVISED BY JAY D. COFFMAN.....	696
40. Blood Pressure Measurements. BY DONALD E. GREGG; REVISED BY JAY D. COFFMAN.....	722
41. The Heart as a Pump. BY DONALD E. GREGG; REVISED BY ANDREW HUVOS.	731
42. Regulation of Pressure and Flow in the Systemic and Pulmonary Circulations. BY DONALD E. GREGG; REVISED BY JAY D. COFFMAN.....	744
43. Regulation of Pressure and Flow in the Systemic and Pulmonary Circulations. BY DONALD E. GREGG; REVISED BY ANDREW HUVOS.....	767
44. The Output of the Heart and the Regulation of Its Action. BY DONALD E. GREGG; REVISED BY ANDREW HUVOS.....	795
45. The Coronary Circulation. BY DONALD E. GREGG; REVISED BY JAY D. COFFMAN.....	813
46. Special Features of the Circulation in Different Regions: Brain, Skeletal Muscle, Skin.....	839
The Cerebral Circulation. BY ANDREW HUVOS.....	839

CONTENTS

xiii

The Cutaneous Circulation. BY JAY D. COFFMAN.....	841
Skeletal Muscle Circulation. BY JAY D. COFFMAN.....	849
Peripheral Vascular Disease. BY JAY D. COFFMAN.....	853
47. Special Features of Circulation in Different Regions (cont.).....	864
The Splanchnic Circulation. BY ANDREW HUVOS.....	864
Renal Circulation. BY KLAUS W. C. THURAU.....	868
48. Regulation of the Circulation Under States of Stress.....	883
Dilation and Hypertrophy of the Heart. BY JAY D. COFFMAN.....	883
Arterial Hypertension. BY JAY D. COFFMAN.....	886
Hypotension. BY JAY D. COFFMAN.....	897
Hyperventilation, Hypoventilation, Hypercapnia, etc. BY W. B. YOUMANS.....	898
Circulatory Adjustments to Climatic Conditions. BY W. B. YOUMANS..	900
Circulatory Responses to Gravitational Stress. BY DONALD E. GREGG; REVISED BY JAY D. COFFMAN.....	900
Cardiovascular Effects of Ionizing Radiations. BY DURWOOD J. SMITH..	904
Effects of Aging on the Circulation. BY NATHAN W. SHOCK.....	906
49. Regulation of the Circulation under States of Stress (cont.).....	915
Shock and Hemorrhage. BY W. B. YOUMANS.....	915
Congestive Heart Failure. BY W. B. YOUMANS.....	918
Hemodynamics. REVISED BY JAY D. COFFMAN.....	922

SECTION VI. RESPIRATION

50. Uptake and Delivery of the Respiratory Gases. REVISED BY WILLIAM E. STONE.....	965
51. Pulmonary Gas Exchange. BY A. A. SIEBENS.....	985
56. The Mechanics of Breathing. REVISED BY A. A. SIEBENS.....	993
53. The Control of Breathing. BY W. B. YOUMANS.....	1007
54. Hypoxia, Asphyxia, Dysbarism, Oxygen Therapy, and Resuscitation. BY W. B. YOUMANS.....	1030

SPECIAL CHAPTER

55. Cytoarchitecture of Protein Secretory and Active Transport Cells. BY DONALD G. WALKER.....	1055
---	------

SECTION VII. DIGESTION

56. Salivary Secretion. BY N. C. HIGHTOWER.....	1061
57. Gastric Secretion. BY N. C. HIGHTOWER.....	1081
58. Pancreatic Secretion. BY N. C. HIGHTOWER.....	1122
59. The Liver and Biliary System. BY N. C. HIGHTOWER.....	1141
60. Secretion and Absorption in the Intestine. BY N. C. HIGHTOWER.....	1172
61. Movements of the Alimentary Canal. BY N. C. HIGHTOWER.....	1196
62. Innervation and Visceral Sensations of the Gastrointestinal Tract. BY N. C. HIGHTOWER.....	1242

SECTION VIII. METABOLISM AND NUTRITION

63. Composition and Energy Content of Foods: General Metabolism.	
BY COLIN C. LUCAS AND JESSIE H. RIDOUT.....	1263
64. Protein in Metabolism. BY JAMES M. SALTER.....	1291
65. Protein Metabolism—Continued. BY JAMES M. SALTER.....	1313
66. The Metabolism of the Purine and Pyrimidine Bases.	
BY JOSEPH B. HOUPF.....	1322
67. Carbohydrate Metabolism and Insulin.	
BY REGINALD E. HAIST AND CHARLES H. BEST.....	1329
68. Fat Metabolism. BY JAMES CAMPBELL.....	1368
69. The Metabolism in Starvation, Semistarvation, and Obesity.	
REVISED BY COLIN C. LUCAS AND JESSIE H. RIDOUT.....	1405
70. The Body Temperature. BY JOHN W. SCOTT.....	1413
71. The Vitamins. BY COLIN C. LUCAS AND JESSIE H. RIDOUT.....	1428
72. The Vitamins—Continued. BY COLIN C. LUCAS AND JESSIE H. RIDOUT.....	1445
73. Dietary Requirements. REVISED BY COLIN C. LUCAS AND JESSIE H. RIDOUT..	1471

SECTION IX. THE DUCTLESS GLANDS OR ENDOCRINES

Introduction—Ductless Glands or Endocrines.....	1481
74. The Pituitary Gland or Hypophysis Cerebri. BY G. W. HARRIS.....	1487
75. The Thyroid Gland. REVISED BY K. BROWN-GRANT.....	1529
76. The Adrenal (Suprarenal) Glands.....	1555
The Adrenal Medulla. REVISED BY H. BLASCHKO.....	1556
The Adrenal Cortex. REVISED BY MARTIE VOGT.....	1568
77. The Parathyroid Glands. REVISED BY W. M. KEYNES.....	1583
78. The Endocrine Organs of Sex. BY B. T. DONOVAN.....	1615

SECTION X. THE EXCRETION OF URINE

79. Urine Formation. BY ROBERT W. BERLINER.....	1665
80. The Pathological Physiology of the Kidney. BY ROBERT W. BERLINER....	1703
The Urinary Bladder. WILLIAM K. KERR AND LIONEL E. DOREMAN.....	1711

INDEX.....	1721
