

CONTENTS

Part I

FLUID AND ELECTROLYTE BALANCE

The Influence of Hydrostatic Pressure and Colloid Osmotic Pressure on Fluid Transfer Across the Capillary Membranes	3
<i>LOUIS TOBIAN</i>	
The Lymphatic System and Its Influence on Extracellular Fluid Balance	6
<i>ROBERT BOWER</i>	
The Integrity of the Capillary Membrane and Factors Influencing Its Function ...	13
<i>RICHARD R. OVERMAN, GEORGE BARLOW</i>	
The Cell Membrane and Its Selective Influence on Fluid and Electrolyte Transfer..	18
<i>LOUIS TOBIAN</i>	
Volume and Pressure Imbalance in the Genesis of Edema	23
<i>A. V. WOLF</i>	
Panel Discussion	30
<i>CARL F. SCHMIDT, Moderator</i>	
Electron Microscopy of the Kidney	33
<i>JOHANNES A. G. RHODIN</i>	

Physiology of the Glomerulus and the Convolute Tubule as Related to Fluid and Electrolyte Balance	47
<i>EARL S. BARKER</i>	
Some Aspects of the Renal Tubular Reabsorption of Sodium and Water	55
<i>ROBERT W. WINTERS, ROBERT E. DAVIES</i>	
Renal Juxtaglomerular Cells in Sodium Deficiency	63
<i>PHYLLIS M. HARTROFT, ROBERT EDELMAN</i>	
Relationship of Arterial and Venous Pressure to Renal Physiology	68
<i>J. LEONARD BRANDT</i>	
Urine Osmolality and Its Relationship to Disease	74
<i>LEONARD S. DREIFUS, FRANK DeMAIO</i>	
Primary Renal Syndromes Associated with Water and Electrolyte Retention	81
<i>J. RUSSELL ELKINTON</i>	
Panel Discussion	84
<i>CARL F. SCHMIDT, Moderator</i>	
Factors Influencing Na and K Absorption from the Intestinal Tract	88
<i>FRANK P. BROOKS</i>	
The Thirst Mechanism and Its Relation to Edema	95
<i>JOSEPH H. HOLMES</i>	
The Antidiuretic Hormone: Its Physiology and Relationships to Electrolyte Metabolism	102
<i>GEORGE BARLOW, RICHARD R. OVERMAN</i>	
The Adrenal Gland and Its Effect on Electrolyte and Fluid Distribution	107
<i>LOUIS J. SOFFER</i>	
Hormonal Control of Aldosterone Secretion	113
<i>JAMES O. DAVIS</i>	
Primary and Secondary Aldosteronism: Definition and Diagnosis	121
<i>DAVID H. P. STREETEN</i>	
Panel Discussion	132
<i>LOUIS WELT, Moderator</i>	
The Relation of Normal and Abnormal Salt Intake to Edema	135
<i>JOHN P. MERRILL</i>	

<i>CONTENTS</i>	xxi
Total Body Sodium and Its Relationship to Water Balance	139
<i>A. V. WOLF</i>	
Factors Which Influence the Amount and Distribution of Total Body Sodium and Potassium	145
<i>GEORGE R. MENEELY, JANET LEMLEY-STONE, ROBERT M. HEYSSEL</i>	
Mechanisms of Retention of Body Fluids	153
<i>JOHN P. MERRILL</i>	
Pathophysiology of the Dilutional Hyponatremic Syndromes	160
<i>J. RUSSELL ELKINTON</i>	
Mechanisms Producing the Hyponatremic Syndrome	166
<i>JOSEPH H. HOLMES</i>	
Panel Discussion	172
<i>LOUIS WELT, Moderator</i>	

Part II

PHARMACOLOGY AND THERAPEUTIC USE OF DIURETICS

Some General Considerations of the Chemistry of Diuretics	177
<i>JAMES M. SPRAGUE</i>	
General Considerations of the Pharmacology of Diuretics	183
<i>LARS WERKÖ</i>	
Effect of Variable Salt Intake on the Electrolyte Response to Diuretics	192
<i>MORTON FUCHS, BENJAMIN E. NEWMAN, DONALD SNYDER</i>	
The Effect of Salt Intake on Sodium Excretion and Response to Diuretics	195
<i>RALPH V. FORD</i>	
Chemistry and Pharmacology of Xanthine and Isocytosine Diuretics	197
<i>RALPH V. FORD</i>	
Therapeutic Use and Therapeutic Limitations of Xanthine and Isocytosine Diuretics	201
<i>MORTON FUCHS</i>	
Panel Discussion	204
<i>LOUIS LEITER, Moderator</i>	

Chemistry of Mercurial Diuretics and the Relationship to Biological Activity	208
<i>HARRIS L. FRIEDMAN</i>	
Some Laboratory Considerations of the Pharmacology of Mercurial Diuretics	214
<i>A. FARAH</i>	
Clinical Considerations of the Pharmacology of Mercurial Diuretics	223
<i>JACOB GROSSMAN</i>	
Excretion Products of Mercurial Diuretics	230
<i>JOHN H. MOYER</i>	
Organomercurials, Clinical Usage and Long-term Renal Effects	235
<i>GEORGE C. GRIFFITH</i>	
Panel Discussion	240
<i>LOUIS LEITER, Moderator</i>	
The Pharmacology of Triazines	243
<i>GEORG E. CRONHEIM</i>	
Clinical Use and Therapeutic Limitations of Triazine Compounds	247
<i>RALPH V. FORD</i>	
Chemistry and Pharmacology of Carbonic Anhydrase Inhibitors	252
<i>JOHN R. CUMMINGS, ELIZABETH TABACHNICK, MILDRED SEELIG</i>	
Clinical Use and Therapeutic Limitations of Carbonic Anhydrase Inhibitors	258
<i>CHARLES K. FRIEDBERG</i>	
Chemistry of Thiazide Derivatives	266
<i>FREDERICK C. NOVELLO</i>	
Laboratory Pharmacology of Thiazide Derivatives	270
<i>KARL H. BEYER, JR.</i>	
Clinical Pharmacology of Thiazide Derivatives	276
<i>MORTON FUCHS, SANFORD R. MALLIN</i>	
Clinical Use of Thiazide Derivatives	284
<i>RAY W. GIFFORD, JR.</i>	
Limitations and Potential and Actual Side Effects of Thiazide Derivatives	289
<i>RALPH V. FORD</i>	

<i>CONTENTS</i>	xxiii
Electrolyte Abnormalities Associated with Mercurial, Thiazide and Carbonic Anhydrase Inhibiting Diuretics	292
<i>JACOB GROSSMAN</i>	
Panel Discussion	299
<i>WALTER MODELL, Moderator</i>	
Chemistry and Structure-Activity Relationships of Some Steroidal Spirolactones ...	303
<i>JOHN A. CELLA</i>	
The Pharmacology of Antialdosterone Agents (Spirolactones)	309
<i>C. M. KAGAWA</i>	
Clinical Pharmacology and Therapeutic Use of Spirolactones, Antialdosterone Agents	316
<i>CHARLES K. FRIEDBERG</i>	
The Diuretic Effect of Digitalis Glycosides and the Adrenal Steroids	325
<i>LEWIS C. MILLS, JOHN H. MOYER, GEORGINA FALUDI</i>	
Advances in the Development of Diuretics	333
<i>MORTON FUCHS</i>	
Panel Discussion	341
<i>WALTER MODELL, Moderator</i>	

Part III

IATROGENIC EDEMA

Edema of Exogenous Steroid Origin	349
<i>DALTON JENKINS</i>	
Comparative Salt-retaining Effects of Common Steroids in Clinical Use	356
<i>LEWIS C. MILLS, EFTHIMIOS PONTIDAS, GEORGINA FALUDI</i>	
Therapy of Iatrogenic Steroid Edema	362
<i>DALTON JENKINS</i>	
Panel Discussion	367
<i>ARTHUR GROLLMAN, Moderator</i>	

Part IV
HYPERTENSION

The Role of Sodium and Other Electrolytes in Hypertension	375
<i>ARTHUR GROLLMAN</i>	
The Role of Electrolytes in Hypertension	379
<i>HENRY A. SCHROEDER</i>	
Pharmacology and Rationale of Use of Diuretics in Treatment of Hypertension ...	387
<i>A. C. CORCORAN</i>	
The Place and Therapeutic Use of Diuretics in Hypertension	392
<i>RAY W. GIFFORD, JR.</i>	
The Therapeutic Use of the Thiazide Derivatives in the Treatment of Hypertension	398
<i>ALBERT N. BREST</i>	
Some Side Effects and Limitations of Diuretics in the Treatment of Hypertension	402
<i>GARFIELD G. DUNCAN, WILLIAM K. JENSON, RICHARD B. FREEMAN</i>	
Panel Discussion	409
<i>ARTHUR GROLLMAN, Moderator</i>	

Part V
- TOXEMIA OF PREGNANCY AND PREMENSTRUAL TENSION

Fluid and Electrolyte Metabolism in Pregnancy	417
<i>JOSEPH SETICHK</i>	
The Retention of Sodium and Water in Toxemia of Pregnancy	423
<i>RUSSELL R. de ALVAREZ</i>	
An Evaluation of Renal Factors in the Toxemias of Pregnancy	433
<i>CHARLES P. McCARTNEY, BENJAMIN SPARGO</i>	
Edema and Electrolyte Balance in Pregnancy and the Toxemias of Pregnancy	439
<i>ALLAN C. BARNES</i>	
Hormonal and Electrolyte Factors in the Development of Premenstrual Tension ..	444
<i>S. LEON ISRAEL</i>	

<i>CONTENTS</i>	xxv
Panel Discussion	448
<i>J. ROBERT WILLSON, Moderator</i>	
The Importance of Salt Restriction in Toxemia of Pregnancy	453
<i>HOWARD J. TATUM</i>	
Diuretics in Edema of Pregnancy; Experience with Chlorothiazide and Hydrochlorothiazide	458
<i>ALAN W. WINSHEL</i>	
The Use of Diuretics in Toxemia of Pregnancy	467
<i>FRANK A. FINNERTY, JR.</i>	
Salt Restriction and Diuretics in Premenstrual Tension	472
<i>EDWIN C. JUNGCK, ROBERT B. GREENBLATT</i>	
Psychic and Hormonal Factors in the Treatment of Premenstrual Tension	474
<i>S. LEON ISRAEL</i>	
Panel Discussion	478
<i>NEWLIN F. PAXSON, Moderator</i>	

Part VI

EDEMA OF RENAL ORIGIN

The Glomerular Membrane in the Nephrotic Syndrome	485
<i>GEORGE E. SCHREINER</i>	
Electron Microscopic Studies on the Renal Glomerulus in the Nephrotic Syndrome	497
<i>MARILYN G. FARQUHAR</i>	
Glomerulo-Tubular Imbalance and Proteinuria in the Edema of the Nephrotic Syndrome	504
<i>EARL S. BARKER</i>	
Factors Involved in the Pathogenesis of Renal Edema: The Role of Aldosterone and Posterior Pituitary Antidiuretic Hormone	511
<i>C. W. DAESCHNER</i>	
The Effects of Potassium Deficiency on Renal Function	522
<i>WALTER HOLLANDER, JR.</i>	
Panel Discussion	530
<i>HENRY A. SCHROEDER, Moderator</i>	

Diet and Salt Restriction in the Treatment of Renal Edema	537
<i>ARTHUR GROLLMAN</i>	
The Use of Diuretics in Edema of Renal Origin	540
<i>GEORGE E. SCHREINER</i>	
Limitations and Side Effects with the Use of Diuretics in Renal Disease	547
<i>LEONARD S. DREIFUS, CRISTOBAL G. DUARTE</i>	
Specific and Supportive Therapy of Patients with the Nephrotic Syndrome	553
<i>C. W. DAESCHNER, W. F. DODGE</i>	
Panel Discussion	567
<i>HENRY A. SCHROEDER, Moderator</i>	

Part VII

EDEMA ASSOCIATED WITH LIVER DISEASE

The Role of Outflow Block and Portal Hypertension in the Production of Ascites	575
<i>C. STUART WELCH</i>	
Decreased Effective Colloid Osmotic Pressure in the Formation of Ascites and Edema in Patients with Cirrhosis of the Liver	579
<i>WILLIAM J. EISENMENGER</i>	
The Role of Adrenal Cortical Hormones and Antidiuretic Hormone in the Edema and Ascites of Hepatic Disease	583
<i>HYMAN J. ZIMMERMAN, CLARENCE L. GANTT</i>	
The Role of the Kidney in the Production of Edema and Ascites in Cirrhosis	599
<i>A. E. PARRISH</i>	
Nutrition in Mechanism and Treatment of the Waterlogging of Hepatic Cirrhosis: Comparison with Other Anasarcas	606
<i>S. H. ARMSTRONG, JR., R. GRISSOM, A. DUBIN, F. C. HELWIG, G. L. RIVER, J. A. SCHOENBERGER</i>	
Panel Discussion	623
<i>CHARLES THOMPSON, Moderator</i>	
Nutritional Factors and Other Supportive Therapy in the Treatment of Hepatic Edema	628
<i>W. PAUL HAVENS, JR.</i>	

<i>CONTENTS</i>	xxvii
Salt Restriction: Its Importance in the Therapy of Liver Disease	631
<i>JOSEPH M. GAMBESCIA</i>	
The Use of Diuretics in the Treatment of Hepatic Edema: Indications, Therapeutic Program and Potential Hazards	643
<i>DONALD BERKOWITZ</i>	
The Use of Steroids and Anti-aldosterone Agents in the Treatment of Hepatic Edema	648
<i>LEWIS C. MILLS, LOUIS L. SHANE, BENJAMIN E. NEWMAN, MORTON FUCHS, GEORGINA FALUDI</i>	
A Comparison of Chlorothiazide with Other Diuretics in the Treatment of Edema and Ascites Associated with Liver Disease	653
<i>MORTON FUCHS</i>	
Success and Failure of Colloid Therapy in Cirrhosis Ascites Control as Related to Induced Changes in Effective Colloid Osmotic Pressures	657
<i>S. H. ARMSTRONG, JR., D. BRONSKY, A. DUBIN, S. T. GIBSON, W. D. MILLER, D. H. SOLOMON</i>	
Panel Discussion	663
<i>THOMAS DURANT, Moderator</i>	

Part VIII

CONGESTIVE HEART FAILURE

The Influence of Electrolytes on the Myocardium and Electrocardiogram	671
<i>SHELDON R. BENDER</i>	
The Effect of Thyroid Function on the Heart and on Electrolyte and Fluid Balance	678
<i>JOHN H. NODINE</i>	
The Influence of Calcium and Trace Metals on Myocardial Function	684
<i>MARVIN J. SEVEN</i>	
The Place of Magnesium in Normal and Abnormal Cardiac Function	689
<i>J. LEONARD BRANDT</i>	
Panel Discussion	691
<i>WILLIAM LIKOFF, Moderator</i>	
Metabolism of the Failing Heart	696
<i>WILLIAM H. DANFORTH</i>	

Forward Failure versus Backward Failure	704
WILLIAM A. SODEMAN	
Mechanisms of Pulmonary Edema	708
HARRY GOLDBERG, LAMBERTO BENTIVOGLIO, XAVIER SAGARMINAGA	
The Role of the Kidney in Salt and Water Retention Associated with Congestive Heart Failure	721
ROBERT M. HEYSSEL, GEORGE R. MENEELY	
The Role of the Liver in Congestive Heart Failure	728
WILLIAM J. EISENMENGER	
Role of the Neurohypophysis in Cardiac Edema	731
JOSEPH F. DINGMAN	
The Place of Endogenous Steroids in Heart Failure	738
DAVID H. P. STREETEN	
The Effect of Experimentally Induced Hypervolemia on Renal Function in Patients with Mitral Stenosis	746
HÄRJE BUCHT, JAN EK, HARALD ELIASCH, BERTIL JOSEPHSON, LARS WERKÖ	
Panel Discussion	756
CHARLES WOLFERTH, <i>Moderator</i>	
The Role of Rest in the Treatment of Congestive Heart Failure	759
JAMES V. WARREN	
The Place and Use of Digitalis Glycosides in Congestive Heart Failure	762
JOSEPH R. DiPALMA	
Nutritional Therapy of Heart Failure	770
HOWARD LEVY	
Salt Restriction in Heart Failure and Hypertension	775
A. C. CORCORAN	
Panel Discussion	780
FRANCIS WOOD, <i>Moderator</i>	
The Treatment of Severe Heart Failure	782
JOSEPH F. URICCHIO	

<i>CONTENTS</i>	xxix
The Use of Diuretics in Mild Heart Failure	785
<i>JOHN W. KEYES</i>	
A Comparison of the Effectiveness of Chlorothiazide and Its Derivatives with Other Diuretics in the Treatment of Heart Failure	792
<i>SANFORD R. MALLIN, BENJAMIN E. NEWMAN, MORTON FUCHS</i>	
The Use of Diuretics in Intractable Heart Failure	796
<i>WILLIAM LIKOFF</i>	
The Use of Diuretics in Patients Undergoing Cardiac Surgery	800
<i>DON W. CHAPMAN</i>	
Electrolyte Abnormality Associated with Diuretic Therapy of Heart Failure	805
<i>JAMES V. WARREN</i>	
Potassium Abnormalities and Renal Function in Heart Failure	808
<i>A. E. PARRISH</i>	
Panel Discussion	813
<i>WILLIAM SODEMAN, Moderator</i>	
INDEX	819
