
Contents

PART I

Introduction

- | | | |
|----------|------------------------|----|
| 1 | The Nature of Immunity | 3 |
| 2 | Humoral Immunity | 16 |
| 3 | Cell-Mediated Immunity | 34 |

PART II

Immunoassays

- | | | |
|----------|--|-----|
| 4 | The Interaction of Antibodies and Antigens | 61 |
| 5 | Antibody-Antigen Assays | 85 |
| 6 | Assays of Cell-Mediated Immunity | 118 |

PART III

The Immune System

- | | | |
|----------|--|-----|
| 7 | The Tissues and Cells of the Immune System | 131 |
|----------|--|-----|

PART IV

Immune Responsiveness

- | | | |
|----------|--|-----|
| 8 | The Response of B Lymphocytes to Antigen | 163 |
| 9 | The Immunoglobulins | 195 |

10	The Genetic Basis of Antibody Diversity	235
11	The Response of T Lymphocytes to Antigen	282
12	Cellular Interactions in Humoral Immunity	311
13	Cellular Interactions in Cell-Mediated Immunity	339
14	The Effectors of Immunity	359

PART V**Regulation of Immune Responses**

15	Homeostatic Control of Immunity	385
16	Immunological Tolerance	415

PART VI**Immunity and Disease**

17	Immunity and Infectious Disease	445
18	Immunopathology	470
19	Transplantation Immunity	502
20	Tumor Immunology	520

Glossary	551
