<i>Preface</i>	v
<i>Introduction</i>	1
<b>Part 1 CELLULAR NEUROPATHOLOGY</b>	<b>7</b>
1 Histopathology of Neurons	9
2 The Glial Cells and Their Pathologic Reactions	33
3 The Peripheral Nerve and Muscle Fibers and Their Pathologic Reactions	55
4 The Other Interstitial and Supportive Tissues and the Pathology of Hydrocephalus	83
<b>Conclusion to Part 1:</b>	
Neurocellular Reactions to Disease	99
<b>Part 2 TISSUE NEUROPATHOLOGY</b>	<b>101</b>
5 Meningeal Infections, Abscesses, and Granulomas of the Brain	105
6 Viral Infections (Encephalitis)	135
7 Demyelinating Diseases	149
8 Cerebrovascular Diseases	171
9 Traumatic Diseases	221
10 Metabolic, Toxic, and Nutritional Disorders of the Nervous System	245
11 Degenerative Diseases of the Nervous System	279
12 Tumors of the Brain, Spinal Cord, and Nerves	303
13 Intrauterine Neuropathology: Malformations and Congenital Diseases of the Nervous System	329
<b>Conclusion to Part 2:</b>	
The Principles of Pathogenicoclinical Correlation	359

<b>Part 3 REGIONAL AND CORRELATIVE PATHOLOGY</b>	<b>367</b>
14 The Peripheral Nerves	369
15 The Spinal Cord	395
16 The Brainstem	413
17 The Cerebellum	429
18 The Basal Ganglia	453
19 The Diencephalon and Reticular Formation of the Upper Brainstem	469
20 The Cerebrum: Limbic Cortex	489
21 The Cerebrum: Neocortex	505
<b>Conclusion to Part 3:</b>	
The Principles of Anatomicoclinical Correlation	527
<i>Appendix. Case Studies</i> .	531
<i>Index</i> .	615
