

CONTENTS

PREFACE TO THE FIFTH EDITION.....	v
-----------------------------------	---

CHAPTER 1

ORIGIN AND COMPOSITION OF THE NERVOUS SYSTEM.....	1
Primitive Neural Mechanisms.....	1
Centralization.....	3
Segmentation.....	3
Neural Tube.....	4
Spinal Nerves.....	4
Vertebrate Nervous System.....	5
Plexus Formation.....	5
Cephalization.....	6
Brain.....	6
Cerebral Cortex.....	7
Peripheral Nervous System.....	10

CHAPTER 2

DEVELOPMENT OF THE NERVOUS SYSTEM.....	11
Fertilization to Implantation.....	11
Germ Layers to Primitive Streak.....	11
Somite Formation.....	12
Neural Tube.....	12
Neural Crest.....	13
Spinal Cord.....	13
Brain.....	14
Myelencephalon.....	16
Metencephalon.....	16
Mesencephalon.....	17
Diencephalon.....	17
Telencephalon.....	19
Commissures.....	21

CHAPTER 3

THE MENINGES OF THE CENTRAL NERVOUS SYSTEM.....	24
Dura Mater.....	24
Pia Mater.....	26
Arachnoid.....	29
Cerebrospinal Fluid.....	30

CHAPTER 4

GROSS CONSIDERATIONS OF THE CENTRAL NERVOUS SYSTEM.....	34
The Spinal Cord.....	34
General Topography.....	36

The Brain Stem.....	38
Cranial Nerves.....	41
Medulla (Myelencephalon).....	42
Fourth Ventricle.....	42
Pons (Metencephalon).....	44
Cerebellum.....	44
Midbrain (Mesencephalon).....	47
Diencephalon.....	47
Basal Ganglia.....	51
Cerebral Hemispheres.....	51
Topography.....	51
Lateral Surface.....	51
Medial Surface.....	55
Medullary Substance.....	57
Projection Fibers.....	58
Association Fibers.....	60
Commissural Fibers.....	64
Ventricles.....	67
CHAPTER 5	
BLOOD SUPPLY OF THE CENTRAL NERVOUS SYSTEM.....	69
Blood Supply of Spinal Cord.....	69
Blood Supply of Brain.....	72
Cerebral Arterial Circle.....	72
Cortical Branches.....	75
Central (Ganglionic) Branches.....	78
Arteries of the Dura.....	82
Arteries of the Midbrain and Hindbrain.....	83
Blood Supply of Cerebellum.....	83
Cerebral Veins and Venous Sinuses.....	84
CHAPTER 6	
THE NEURON.....	91
Shape and Size of Neurons.....	91
Cell Body (Perikaryon).....	96
Nucleus.....	97
Chromophil Substance.....	97
Neurofibrils.....	102
Mitochondria.....	102
Central Body.....	103
Golgi Apparatus.....	103
Nerve Fiber.....	104
Myelin.....	107
Neurolemma.....	109
Endoneurium.....	109
Unmyelinated Peripheral Nerve Fibers.....	110
Fiber Size.....	111
Physical and Physiological Grouping of Nerve Fibers.....	111

The Synapse.....	113
Degeneration of Nerve Fibers.....	115
Chromatolysis.....	119
Regeneration.....	119

CHAPTER 7

NEUROGLIA, THE INTERSTITIAL TISSUE OF THE NERVOUS SYSTEM.....	125
Astrocytes.....	126
Oligodendrocytes.....	128
Ependyma.....	130
Microglia.....	131

CHAPTER 8

HISTOGENESIS OF NEURAL ELEMENTS AND THEIR SEGMENTAL DISTRIBUTION	132
Differentiation of Neurons.....	132
Segmental Arrangement of Peripheral Nerve Elements.....	137

CHAPTER 9

PERIPHERAL NERVES AND THEIR GANGLIA.....	139
The Spinal Nerve.....	139
The Spinal Ganglia.....	140
The Mixed Nerve.....	142
Connective Tissue Sheaths.....	143
Functional Considerations.....	145

CHAPTER 10

PERIPHERAL TERMINATIONS OF AFFERENT AND EFFERENT NERVE FIBERS..	148
Receptors.....	148
Free Nerve Endings.....	149
Encapsulated Endings.....	151
Relation of Receptors to Sensory Modalities.....	157
Referred Pain.....	158
Effectors.....	160
Somatic Effectors.....	160
Visceral Effectors.....	161

CHAPTER 11

SEGMENTAL AND PERIPHERAL INNERVATION.....	162
Segmental (Radicular) Innervation.....	162
Peripheral Innervation.....	164
Cervical Plexus.....	168
Brachial Plexus.....	170
Injuries of Brachial Plexus.....	175
Lumbosacral Plexus.....	176
Regeneration of Injured Peripheral Nerves.....	179

CHAPTER 12

INTERNAL STRUCTURE OF THE SPINAL CORD.....	182
Gray and White Substance.....	182
Neuroglia.....	182
Variations in Spinal Cord at Different Cord Levels.....	185
Nuclei or Cell Groups.....	189
Somatic Efferent Root Cells.....	189
Visceral Efferent Cells.....	192
Posterior Horn Neurons.....	193
Arrangement of Fibers.....	195

CHAPTER 13

THE FIBER TRACTS OF THE SPINAL CORD.....	199
Arrangement of Entering Afferent Fibers.....	199
The Long Ascending Tracts.....	203
The Posterior White Columns.....	203
The Anterior Spinothalamic and Tectospinal Tracts.....	209
The Lateral Spinothalamic Tract.....	209
The Posterior Spinocerebellar Tract.....	213
The Anterior Spinocerebellar Tract.....	213
Spinoreticular Fibers.....	215
Other Ascending Fiber Systems in the Spinal Cord.....	215
The Long Descending Tracts.....	216
The Corticospinal Tract.....	216
The Reticulospinal Tracts.....	220
The Vestibulospinal Tract.....	223
The Rubrospinal Tract.....	225
The Tectospinal and Tectobulbar Tracts.....	225
The Medial Longitudinal Fasciculus.....	225
The Olivospinal Tract.....	227
Descending Autonomic Pathways.....	227
The Fasciculi Proprii.....	228
Ascending and Descending Tracts.....	228
Lesions and Degeneration in the Spinal Cord.....	229

CHAPTER 14

AUTONOMIC NERVOUS SYSTEM.....	236
Pre- and Postganglionic Neurons.....	236
Sympathetic System.....	240
Parasympathetic System.....	243
Visceral Afferent Fibers.....	244
Autonomic Ganglia.....	245
Chemical Mediation at Synapses.....	246
Central Autonomic Pathways.....	248
Functional Considerations.....	248

CHAPTER 15

THE INTERNAL STRUCTURE OF THE MEDULLA.....	251
Junction of Spinal Cord and Medulla.....	253
Corticospinal Decussation.....	254
Decussation of the Medial Lemniscus.....	259
Lower and Midolivary Levels of the Medulla.....	264
Inferior Olivary Nuclear Complex.....	265
Medullary Reticular Formation.....	266
Afferent Fibers to the Medullary Reticular Formation.....	268
Efferent Fibers from the Medullary Reticular Formation.....	269
Inferior Cerebellar Peduncle.....	269
The Hypoglossal Nerve.....	270
The Spinal Accessory Nerve.....	271
The Vagus Nerve.....	272
The Glossopharyngeal Nerve.....	276
Upper Medulla and Junction of Medulla and Pons.....	278

CHAPTER 16

THE INTERNAL STRUCTURE OF THE PONS.....	283
Caudal Pons and Pontine Tegmentum.....	283
The Basilar Portion of the Pons.....	283
The Pontine Tegmentum.....	286
The Vestibulocochlear Nerve.....	289
The Cochlear Nerve and Auditory Pathways.....	289
The Vestibular Nerve and Its Central Connections.....	294
Primary Vestibular Fibers.....	297
Medial Longitudinal Fasciculus.....	300
Functional Considerations.....	301
The Facial Nerve.....	304
The Abducens Nerve.....	307
Upper Pons and Pontine Tegmentum.....	309
The Pontine Reticular Formation.....	310
The Trigeminal Nerve.....	313
Secondary Trigeminal Pathways.....	315
Isthmus of the Hindbrain.....	318
The Superior Cerebellar Peduncle.....	319
The Blood Supply of the Medulla and Pons.....	321

CHAPTER 17

THE MESENCEPHALON.....	325
Inferior Collicular Level.....	325
The Nucleus of the Trochlear Nerve.....	326
The Inferior Colliculi.....	326
Tegmental and Interpeduncular Nuclei.....	328
Superior Collicular Level.....	329
Nuclei of the Mesencephalic Tegmentum.....	330
The Nucleus Ruber.....	330
Mesencephalic Reticular Formation.....	333

Functional Considerations of the Reticular Formation.....	334
Substantia Nigra.....	340
Crus Cerebri.....	341
Corticobulbar Fibers.....	342
Superior Colliculi and Pretectal Areas.....	343
The Oculomotor Nerve.....	345
The Pupillary Reflexes.....	349
Blood Supply.....	350
CHAPTER 18	
INTERNAL STRUCTURE OF THE CEREBELLUM.....	351
Structure of the Cerebellar Cortex.....	353
Nerve Fibers.....	355
Neuroglia.....	358
The Deep Cerebellar Nuclei.....	358
Corpus Medullare and Fiber Connections.....	361
Afferent Fibers.....	361
Efferent Fibers.....	365
Cerebellar Connections.....	367
Functional Considerations.....	373
CHAPTER 19	
THE DIENCEPHALON AND CORPUS STRIATUM.....	379
Midbrain-Diencephalic Junction.....	379
Caudal Diencephalon.....	383
Diencephalon and Basal Ganglia (Level of Optic Chiasm).....	387
Thalamus and Corpus Striatum (Level of Anterior Commissure).....	396
Rostral Corpus Striatum.....	398
Diencephalon.....	398
The Epithalamus.....	400
The Thalamus.....	400
The Thalamic Nuclei and Their Connections.....	400
The Thalamic Radiations and Internal Capsule.....	410
The Visual Pathway.....	414
Clinical Considerations.....	416
Functional Considerations of the Thalamus.....	417
The Hypothalamus.....	423
The Hypothalamic Nuclei.....	424
Connections of the Hypothalamus.....	427
Functional Considerations.....	430
The Subthalamus.....	432
The Basal Ganglia.....	434
The Amygdaloid Nuclear Complex.....	434
The Claustrum.....	436
The Corpus Striatum.....	436
The Extrapyramidal Motor System.....	438
CHAPTER 20	
RHINENCEPHALON, OLFACTORY PATHWAYS, AND LIMBIC SYSTEM.....	443
Rhiencephalon.....	443

Basal Olfactory Structures.....	443
Olfactory Pathways.....	447
Olfactory Receptors.....	447
Olfactory Bulb.....	447
Olfactory Tract.....	448
Olfactory Reflex Connections.....	449
Clinical Considerations.....	450
Anterior Commissure.....	450
The Hippocampal Formation.....	450
Fornix.....	453
Functional Considerations.....	454
The Limbic System.....	456
CHAPTER 21	
THE CEREBRAL CORTEX.....	461
Structure of the Cortex.....	461
The Cortical Cells and Fibers.....	462
The Cortical Layers.....	463
The Interrelation of Cortical Neurons.....	465
Cortical Areas.....	468
Sensory Areas of the Cerebral Cortex.....	474
The Primary Sensory Areas.....	474
Secondary Sensory Areas.....	475
The Primary Somesthetic Area.....	476
The Primary Visual Area.....	480
The Primary Auditory Area.....	482
The Gustatory Area.....	484
Vestibular Representation.....	484
Efferent Cortical Areas.....	485
The Primary Motor Area.....	485
The Premotor Area.....	489
Supplementary Motor Area.....	491
Second Somatic Area.....	492
Frontal Eye Fields.....	493
Nonpyramidal Corticofugal Fibers.....	493
Phenomenon of Cortical Suppression.....	495
Corticofugal Fibers.....	496
General Consideration of Cortical Functions.....	496
Cerebral Dominance.....	496
Interhemispheric Transfer.....	497
Nonspecific Thalamocortical Relationships.....	498
Cortical Functioning.....	499
Agnosia.....	500
Aphasia.....	500
Apraxia.....	501
Prefrontal Cortex.....	502
BIBLIOGRAPHY.....	505
ATLAS.....	541
INDEX.....	555
