1 INTRODUCTION.....	1
History and Development of CPS in Thailand.....	1
CPS's Objectives.....	3
A Brief Review of CPS1.....	4
Organization of Report.....	4
2 METHODOLOGY.....	6
Preparatory Activities.....	6
The Questionnaire Design.....	6
Recruitment and Training of Field Staff.....	7
Results of the Pretest.....	8
Sample Design.....	9
Selection of the Rural Sample.....	9
Selection of the Urban Sample.....	10
Activities in the Field.....	11
Timing of Field Work.....	11
Quality Control During the Field Work.....	11
Field Work Problems.....	11
Construction of the Sampling List.....	12
Substitution of Sample Clusters.....	12
Coding and Editing.....	13
Field Coding.....	13
Machine Editing.....	13
Characterizing of the Sample.....	13
3 FERTILITY.....	17
Age at Marriage.....	17
Cumulative Fertility.....	17
Infant Mortality.....	21
Current Fertility.....	22
Trends in Fertility.....	24
Desire for Additional Children.....	26
4 CONTRACEPTIVE AWARENESS.....	30
Measuring Contraceptive Knowledge.....	30

Chapter	Page
Trends in Contraceptive Knowledge.....	31
Demographic and Socio-Economic Differentials.....	33
Age Differentials.....	33
Educational Status.....	33
Sub-National Patterns.....	33
Urban-Rural Differentials in Contraceptive Awareness.....	33
Regional Differentials in Contraceptive Awareness.....	35
Attitudes Towards Family Planning.....	35
5 CONTRACEPTIVE USE.....	37
Ever-Use of Contraception.....	37
Sub-National Patterns.....	37
Age Patterns of Ever-Use.....	39
Number of Methods Ever Used.....	39
Current Use of Contraceptive.....	50
Age Pattern of Current Use.....	40
Regional Variation in Current Use.....	41
Differentials in Use by Socio-Economic Status.....	42
Trends in Level of Contraceptive Use.....	43
Changes in Method Mix.....	43
Age and Method Mix.....	46
Unmet Need for Family Planning.....	46
Methodology.....	47
Unmet Need for Family Planning.....	48
6 CONTRACEPTIVE AVAILABILITY.....	51
Introduction.....	51
Knowledge of a Source.....	51
7 INFANT FEEDING PRACTICES..	57
Life Table Analysis of Breastfeeding.....	57
Full Breastfeeding and Supplemental Foods.....	60
8 CONCLUSION, DISCUSSION AND POPULATION POLICY ISSUES	63
Conclusion and Discussion.....	63
Population Policy Issues.....	65
References	68
Appendix	71
Appendix A SAMPLE DESIGN AND ESTIMATION OF PARAMETERS.....	71
Sample Design.....	73
Estimation of Universe Total.....	76
Estimation of The Number of Eligible Women.....	82
Estimation of the Population Mean.....	84
Estimation of the Proportion of Units.....	85
Appendix B SCHEDULE OF SURVEY OPERATIONS.....	89
Appendix C APPENDIX TABLES	93
Appendix D NOTE ON THE INDIRECT ESTIMATION OF INFANT MORTALITY RATES	111
Appendix E THAILAND CPS2 QUESTIONNAIRE.....	115

LIST OF TABLES

Table	Page
2.1 Provinces Included in the Rural Sample Frame for the Contraceptive Prevalence Survey Round Two in Thailand.....	9
2.2 Selected Demographic Characteristics of Respondents by Region.....	13
2.3 Percent Distribution of Ever-Married Women by Age, 1975, 1978 and 1981	14
2.4 Age Distribution of Ever-Married Women Aged 15-49 by Region	14
2.5 Marital Status of Ever-Married Women Aged 15-49 by Region.....	15
2.6 Education of Wife and Husband by Region.....	15
2.7 Occupation and Work Status of Ever-Married Women Aged 15-49 by Region..	16
3.1 Mean Age at Marriage for Ever-Married Women Aged 15-49 by Region.....	17
3.2 Average Number of Children Ever Born (CEB) and Living Children (LC) per Ever-Married Woman by Age and Rural-Urban Residence.....	18
3.3 Average Number of Children Ever Born (CEB) and Living Children (LC) per Ever-Married Woman by age and Region.....	19
3.4 Average Number of Children Ever Born per Ever Married Woman by Age and by Education	19
3.5 Average Number of Children Ever Born per Ever Married Woman by Age and by Occupation.....	20
3.6 Average Number of Children Ever Born to Ever-Married Women by Age and Work Status	20
3.7 Infant Mortality Rates Estimated from Data on the Proportion Dead Among Children Ever Born, Rural-Urban, 1978-1981	21
3.8 Age-Standardized General Marital Fertility Rates Among Currently Married Women Aged 15-49 by Region, 1978 and 1981.....	22
3.9 Age-Specific Fertility Rates for Thailand, 1964-65, 1975, 1974-76, 1978 and 1981.....	23
3.10 Percent Currently Pregnant Among Currently Married Women by Age and by Region.....	23
3.11 Average Open Interval (in Months) Among Currently Married Women Aged 15-49 by Age and Region of Residence	24
3.12 Average Number of Children Ever Born to Ever-Married Women by Age Group from Several Sources, Thailand, 1969-70, 1972-73, 1975, 1974-76, 1978 and 1981.....	25
3.13 Age-Standardized Percent Currently Pregnant Among Currently Married Women Aged 15-44, 1969-70, 1972-73, 1975, 1978 and 1981	26
3.14 Mean Number of Months Since Last Birth Among Currently Married Women Aged 15-44, 1969-1981	26
3.15 Percent of Currently Married Women Who Wanted No More Children by Age and Region.....	27
3.16 Mean Number of Children Expected for Currently Married Woman Aged 15-49 by Age.....	27
3.17 Mean Number of Children Expected for Currently Married Women Aged 15-49 by Region.....	28
3.18 Mean Number of Children Expected Among Currently Married Women Aged 15-49 by Education.....	29

Table	Page
4.1 Percent of Ever-Married Women Aware of Specific Contraceptive Methods, 1975, 1978 and 1981.....	32
4.2 Number of Modern Contraceptive Methods Known Without Prompting Among Currently Married Women Aged 15-44 by Residence.....	32
4.3 Percent of Ever-Married Women Aware of Specific Contraceptive Methods by Age.....	33
4.4 Percent of Ever-Married Women Aware of Specific Contraceptive Methods by Educational Status.....	34
4.5 Percent of Ever-Married Women Aged 15-49 Aware of Specific Contraceptive Methods by Region of Residence.....	35
4.6 Attitudes Towards Family Planning Among Ever-Married Women, Aged 15-49 by Region.....	35
4.7 Wife's Perception of Husband's Attitude Towards Family Planning.....	36
5.1 Percent of Ever-Married Women Aged 15-49 Who Had Ever Used a Specific Contraception Method, 1975 to 1981.....	38
5.2 Percent of Ever-Married Women Aged 15-49 Who Had Ever Used Specific Contraception by Method and Region.....	38
5.3 Percent of Ever-Married Women Who Had Ever Used Contraception by Age and Rural-Urban Residence.....	39
5.4 Average Number of Modern Contraceptive Methods Ever Used by Ever-Married Women Aged 15-49 by Age and Region and Rural-Urban Residence...	40
5.5 Percent of Currently Married Women Aged 15-49 Practicing Contraceptive Methods by Age and Region.....	42
5.6 Percent Currently Married Women Aged 15-49 Currently Practicing Contraceptive Methods by Age and Socio-Economic Status.....	43
5.7 Percent of Currently Married Women Aged 15-44 Practicing Contraception by Age, 1969 to 1981.....	44
5.8 Percent of Currently Married Women Aged 15-44 Practicing Contraception by Method Used, 1969 to 1981.....	44
6.1 Percent Knowing a Source and Mean Number Known Among Ever-Married Women, Aged 15-49 by Region.....	52
6.2 Percent Knowing a Source and Mean Number of Known Sources among Women Who Were Non-current Users, Aged 15-49 by Region.....	52
6.3 Percent of Non-Users of the Specific Method, Who Knew a Source for the Method by Region.....	53
6.4 Percent of Current Users Using a Specific Source of Contraception by Rural-Urban Residence and Region.....	54
6.5 Percent of Current Users by Stated Source of Family Planning and Method....	54
6.6 Average Travel Time in Minutes by Method by Region among Current Users...	55
6.7 Average Travel Time in Minutes by Method by Rural-Urban Residence among Current Users.....	55
7.1 Median Duration of Breastfeeding, Proportion Who Never Breastfed and Proportion Who Breastfed for at Least 3, 6, and 12 Months, Derived by Life Table Techniques, by Rural-Urban Residence, by Region, and by Rural-Urban Residence and Years of Schooling, for Women with a Surviving Birth in the 24 Months Prior to Interview.....	59
7.2 Median Duration of "Full Breastfeeding" and Proportion Who "Full	

	Breastfed'' at Least 1, 3, 6 and 12 Months, Derived by Life Table Techiques, by Residence and Education, for Women with a Surviving Birth in the 24 Months Prior to Interview Who Start Breastfeeding	60
7.3	Type of Non-milk Food First Fed to Most Recently Born Child of Ever-Married Women Aged 15-49 with a Surviving Birth in the 24 Months Prior to Interview, by Residence and Education	61
A1	Number of Ever-Married Women Aged 15-49 by Age and Rural-Urban Residence.....	95
A2	Number of Ever-Married Women Aged 15-49 by Age and Region of Residence	95
A3	Number of Ever-Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence.....	95
B1	Number of Currently Married Women Aged 15-49 by Age and Rural-Urban Residence	96
B2	Number of Currently Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence	96
B3	Number of Currently Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence	96
C1	Average Number of Children Ever-Born Among Ever-Married Women Aged 15-49 by Age and Rural-Urban Residence	97
C2	Average Number of Children Ever-Born Among Ever-Married Women Aged 15-49 by Age and Region of Residence	97
C3	Average Number of Children Ever-Born Among Ever-Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence.....	97
D1	Average Number of Living Children Among Ever-Married Women Aged 15-49 by Age and Rural-Urban Residence	98
D2	Average Number of Living Children Among Ever-Married Women Aged 15-49 by Age and Region of Residence	98
D3	Average Number of Living Children Among Ever-Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence.....	98
E1	Age Specific Fertility Rates Among Currently Married Women Aged 15-49 by Age and Rural-Urban Residence.....	99
E2	Age Apecific Fertility Rates Among Currently Married Women Aged 15-49 by Age and Region of Residence.....	99
E3	Age Specific Fertility Rates Among Currently Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence.....	99
F1	Percent Currently Pregnant Among Currently Married Women Aged 15-49 by Age and Rural-Urban Residence.....	100
F2	Percent Currently Pregnant Among Currently Married Women Aged 15-49 by Age and Region of Residence.....	100
F3	Percent Currently Pregnant Among Currently Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence.....	100
G1	Expected Family Size Among Currently Married Women Aged 15-49 by Age and Rural-Urban Residence.....	101
G2	Expected Family Size Among Currently Married Women Aged 15-49 by Age and Region of Residence.....	101
G3	Expected Family Size Among Currently Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence.....	101

Table**Page**

H1	Ideal Family Size Among Currently Married Women Aged 15-49 by Age and Rural-Urban Residence	102
H2	Ideal Family Size Among Currently Married Women Aged 15-49 by Age and Region of Residence	102
H3	Ideal Family Size Among Currently Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence	102
I1	Number of Modern Contraceptive Methods Known Without Prompting Among Currently Married Women Aged 15-49, by Age and Rural-Urban Residence	103
I2	Number of Modern Contraceptive Methods Known with Prompting Among Currently Married Women Aged 15-49 by Age and Rural-Urban Residence	105
J1	Percent Ever-Using a Contraceptive Method Among Currently Married Women Aged 15-49 by Age and Rural-Urban Residence	107
J2	Percent Ever-Using a Contraceptive Method Among Currently Married Women Aged 15-49 by Age and Region of Residence	107
J3	Percent Ever-Using a Contraceptive Method Among Currently Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence	107
K1	Percent Currently Using a Contraceptive Method Among Currently Married Women Aged 15-49 by Age and Rural-Urban Residence	108
K2	Percent Currently Using a Contraceptive Method Among Currently Married Women Aged 15-49 by Age and Region of Residence	108
K3	Percent Currently Using Contraceptive Methods Among Currently Married Women Aged 15-49 by Age, Number of Years of Schooling and Rural-Urban Residence	108
L1	Data for Breastfeeding Graph for CPS Report	109
M1	Distribution of Currently Married Users Aged 15-49 by Age and Method Currently Used	109

LIST OF FIGURES

Figure	Page
4.1 Percent of Ever-Married Women Aged 15-49 Aware of Specific Contraceptive Methods With and Without Prompting	31
4.2 Percent of Ever-Married Women Aware of Specific Contraceptive Methods by Urban-Rural Residence	34
5.1 Percent of Currently Married Women Practicing Contraception by Age	41
5.2 Distribution of Currently Married Users Aged 15-49 by Age and Method	45
5.3 Distribution of Currently Married Women Aged 15-44 Practicing Contraception According to the Specific Method Used, 1969-1981	46
5.4 Percent of Currently Married Fedund Women Aged 15-49, with an Unmet Need for Family Planning, by Age	47
5.5 Percent of Currently Married Fecund Women, with an Unmet Need for Family Planning, by Urban-Rural Residence	48
5.6 Percent of Currently Married Fecund Women, with an Unmet Need for Family Planning, by Region	49
5.7 Percent of Currently Married Fecund Women, with an Unmet Need for Family Planning, by Educational Status	50
7.1 Estimated Proportion of Women Still Breastfeeding by Months Since Last Birth, Derived by Life Table Techniques, by Residence, for Women with a Surviving Birth in the 24 Months Prior to Interview	58
