

# Table of Contents

	Page
Preface . . . . .	i
Chapter	
1 - INTRODUCTION . . . . .	1
A. Gestation period . . . . .	2
B. Hematological and weight changes during normal pregnancy in the mouse . . . . .	3
C. Litter size . . . . .	3
D. Sex ratio . . . . .	5
E. The neo-natal mouse . . . . .	6
F. Sex distinction . . . . .	6
2 - REPRODUCTIVE SYSTEMS OF ADULT MICE . . . . .	7
ADULT MALE . . . . .	7
A. Testes . . . . .	7
B. Spermatogenesis . . . . .	12
Table of spermatogenesis . . . . .	17
C. Ducts . . . . .	22
D. The accessory glands . . . . .	22
E. Urethra . . . . .	23
F. Penis . . . . .	23
THE ADULT FEMALE . . . . .	24
A. Ovaries . . . . .	24
B. Oögenesis . . . . .	28
Stages of oögenesis . . . . .	30
C. Ovulation . . . . .	32
D. The oviducts . . . . .	35
E. The uterus . . . . .	37
F. The estrous cycle . . . . .	38
G. Vagina, clitoris, and clitoral glands . . . . .	41
H. Mammary glands . . . . .	41
3 - NORMAL DEVELOPMENT OF THE MOUSE . . . . .	44
A. Mating . . . . .	45
B. Fertilization . . . . .	47
C. Early development . . . . .	56
a. Cleavage . . . . .	56
b. Blastulation . . . . .	64
c. Gastrulation . . . . .	84
d. Implantation . . . . .	85
e. Head process formation . . . . .	96
f. Early organogenesis . . . . .	96
g. Reichert's membrane . . . . .	100
h. Giant cells . . . . .	101

Chapter	Page
4 - CHRONOLOGY OF DEVELOPMENT (8-16 days) . . . . .	102
A. The 8 day embryo . . . . .	102
B. The 8½ day embryo . . . . .	107
C. The 9 day embryo . . . . .	116
D. The 9½ day embryo . . . . .	131
E. The 10 day embryo . . . . .	138
F. The 10½ day embryo . . . . .	149
G. The 11 day embryo . . . . .	154
H. The 12 day embryo . . . . .	171
I. The 13 day embryo . . . . .	183
J. The 14 day embryo . . . . .	195
K. The 15 day embryo . . . . .	200
L. The 16 day embryo . . . . .	204
5 - ORGANOGENY . . . . .	208
EXTERNAL CHANGES . . . . .	208
Body contour . . . . .	208
Appendages . . . . .	209
Sense organs . . . . .	212
Skin, hair follicles, and vibrissae . . . . .	214
INTERNAL CHANGES . . . . .	216
Skeleton . . . . .	216
Tooth development . . . . .	227
Brain . . . . .	237
Spinal cord . . . . .	242
Sense organs . . . . .	245
The eyes . . . . .	245
The ears . . . . .	249
The nose . . . . .	251
The endocrine organs . . . . .	251
The thyroid, parathyroid, and ultimobranchial bodies . . . . .	251
The thymus . . . . .	253
Pituitary . . . . .	259
Pineal . . . . .	261
Adrenal . . . . .	262
The digestive system . . . . .	262
General . . . . .	262
Liver . . . . .	262
Spleen . . . . .	265
The respiratory system . . . . .	267
The circulatory system . . . . .	268
Blood of the fetus . . . . .	272
The excretory system . . . . .	276
The muscular system . . . . .	282
The gonads . . . . .	282
The testes . . . . .	282
The ovaries . . . . .	290
Addenda . . . . .	296
Glossary . . . . .	315
References . . . . .	365
Index . . . . .	411
