

# CONTENTS

## SECTION I. INTRODUCTORY

### CHAPTER I. EYE-STRAIN

	PAGE
THE INCIDENCE OF EYE-STRAIN . . . . .	1
THE SYMPTOMATOLOGY OF REFRACTIVE ERRORS . . . . .	3
THE SYMPTOMS OF GROSS REFRACTIVE ERRORS . . . . .	3
THE SYMPTOMS OF SMALL REFRACTIVE ERRORS . . . . .	3
The mechanism of symptoms ; the incidence of symptoms ; visual symptoms ; ocular symptoms ; referred symptoms.	
THE TREATMENT OF REFRACTIVE ERRORS . . . . .	10
Optical treatment ; general treatment.	

## SECTION II. REFRACTION

### CHAPTER II. THE PRINCIPLES OF REFRACTION

THE NATURE OF REFRACTION . . . . .	14
REFRACTION BY A PLATE WITH PARALLEL SIDES . . . . .	16
REFRACTION BY PRISMS . . . . .	17
The detection and measurement of prisms ; the nomenclature of prisms.	
REFRACTION BY LENSES . . . . .	21
The nature of lenses ; refraction by spherical lenses ; refraction by cylindrical lenses ; refraction by astigmatic lenses ; the notation of lenses ; the notation of cylinders ; the detection and measurement of lenses.	
REFRACTION BY OPTICAL SYSTEMS . . . . .	38

### CHAPTER III. THE REFRACTION OF THE EYE

THE REFRACTIVE SYSTEM OF THE EYE . . . . .	41
Refraction at the corneal surface ; refraction by the lens ; the reduced eye.	
THE OPTICAL DEFECTS OF THE EYE . . . . .	47
PHYSIOLOGICAL OPTICAL DEFECTS . . . . .	48
Diffraction of light ; chromatic aberration ; chromatic difference of magnification ; spherical aberration ; decentring ; peripheral aberrations ; circles of diffusion.	
THE SIZE OF THE PUPIL ; STENOPEIC APERTURES . . . . .	54
PATHOLOGICAL OPTICAL DEFECTS . . . . .	56
Varieties of ametropia.	
THE NATURE AND INCIDENCE OF REFRACTIVE ERRORS . . . . .	58

## CONTENTS

## CHAPTER IV. ANOMALIES OF REFRACTION

## 1. Hypermetropia

PAGE

ÆTIOLOGY . . . . .	63
OPTICAL CONDITION . . . . .	65
The accommodation in hypermetropia.	
THE NORMAL AGE VARIATION . . . . .	67
CLINICAL PATHOLOGY . . . . .	68
CLINICAL SYMPTOMS . . . . .	69
TREATMENT . . . . .	71

## CHAPTER V. ANOMALIES OF REFRACTION

## 2. Myopia

ÆTIOLOGY . . . . .	76
Progress of myopia ; clinical types of myopia.	
CLINICAL PATHOLOGY . . . . .	81
OPTICAL CONDITION . . . . .	84
CLINICAL SYMPTOMS . . . . .	86
PROGNOSIS . . . . .	87
PROPHYLAXIS . . . . .	87
TREATMENT . . . . .	87

## CHAPTER VI. ANOMALIES OF REFRACTION

## 3. Astigmatism

ÆTIOLOGY . . . . .	91
OPTICAL CONDITION . . . . .	92
TYPES OF ASTIGMATISM . . . . .	92
REGULAR ASTIGMATISM . . . . .	93
Symptoms ; treatment.	
IRREGULAR ASTIGMATISM . . . . .	96
Varieties ; symptoms ; treatment.	

## CHAPTER VII. ANOMALIES OF REFRACTION

## 4. Anisometropia

THE VISION IN ANISOMETROPIA . . . . .	100
THE TREATMENT OF ANISOMETROPIA . . . . .	101

## CHAPTER VIII. ANOMALIES OF REFRACTION

## 5. Aphakia

DIAGNOSIS ; OPTICAL CONDITION ; TREATMENT . . . . .	105
---	-----

# CONTENTS

XI

## CHAPTER IX. ANOMALIES OF REFRACTION

### 6. Aniseikonia

PAGE

ÆTIOLOGY . . . . .	107
TYPES; SYMPTOMS . . . . .	109
INVESTIGATION . . . . .	111
TREATMENT . . . . .	113

## CHAPTER X. CHANGES IN REFRACTION

PHYSIOLOGICAL CHANGES . . . . .	115
PATHOLOGICAL CHANGES . . . . .	115
Dynamic changes; changes in trauma; in toxic states; in glaucoma; in inflammatory diseases; in cataract; in diabetes; with pressure.	

## SECTION III. ACCOMMODATION AND CONVERGENCE

### CHAPTER XI. ACCOMMODATION

THE NATURE OF ACCOMMODATION . . . . .	119
THE MECHANISM OF ACCOMMODATION . . . . .	120
PHYSICAL AND PHYSIOLOGICAL ACCOMMODATION . . . . .	122
THE RANGE AND AMPLITUDE OF ACCOMMODATION . . . . .	123
THE AVAILABILITY OF ACCOMMODATION . . . . .	125
PHENOMENA ASSOCIATED WITH ACCOMMODATION . . . . .	126
FATIGUE OF ACCOMMODATION . . . . .	126

### CHAPTER XII. CONVERGENCE

VOLUNTARY AND REFLEX CONVERGENCE . . . . .	127
THE MEASUREMENT OF CONVERGENCE . . . . .	129
THE RELATION BETWEEN ACCOMMODATION AND CON- VERGENCE . . . . .	130
BINOCULAR ACCOMMODATION . . . . .	134
FATIGUE OF CONVERGENCE . . . . .	135

### CHAPTER XIII. PRESBYOPIA

THE NATURE OF PRESBYOPIA . . . . .	136
THE VARIATION OF ACCOMMODATION WITH AGE . . . . .	136
SYMPTOMS . . . . .	138
TREATMENT . . . . .	138

**CHAPTER XIV. ANOMALIES OF ACCOMMODATION**

	PAGE
EXCESSIVE ACCOMMODATION . . . . .	141
SPASM OF ACCOMMODATION . . . . .	142
INSUFFICIENCY OF ACCOMMODATION . . . . .	143
ILL-SUSTAINED ACCOMMODATION . . . . .	145
INERTIA OF ACCOMMODATION . . . . .	145
PARALYSIS OF ACCOMMODATION . . . . .	146
CYCLOPLEGIA . . . . .	147

**CHAPTER XV. ANOMALIES OF CONVERGENCE**

INSUFFICIENCY OF CONVERGENCE . . . . .	152
CONVERGENCE EXCESS . . . . .	155

**SECTION IV. THE MUSCLE BALANCE****CHAPTER XVI. ORTHOPHORIA**

THE NATURE OF ORTHOPHORIA . . . . .	157
BINOCULAR VISION . . . . .	157

**CHAPTER XVII. HETEROPHORIA**

THE NATURE OF HETEROPHORIA . . . . .	162
Causes ; varieties.	
EXOPHORIA . . . . .	163
ESOPHORIA . . . . .	164
HYPERPHORIA . . . . .	164
CYCLOPHORIA . . . . .	165
SYMPTOMS . . . . .	166
TREATMENT . . . . .	167

**CHAPTER XVIII. HETEROTROPIA**

ÆTIOLOGY . . . . .	171
THE VISION IN CONCOMITANT STRABISMUS . . . . .	173
VARIETIES . . . . .	173
TREATMENT . . . . .	174

**SECTION V. CLINICAL METHODS****CHAPTER XIX. OPHTHALMOLOGICAL EXAMINATION**

GENERAL OUTLINE OF OPHTHALMOLOGICAL EXAMINATION	177
---	-----

## CONTENTS

xiii

### CHAPTER XX. VISUAL ACUITY

	PAGE
THEORY OF DETERMINATION . . . . .	179
ROUTINE TESTING OF THE VISUAL ACUITY FOR DISTANT VISION . . . . .	182
ROUTINE TESTING OF VISUAL ACUITY FOR NEAR VISION . . . . .	188

### CHAPTER XXI. OPHTHALMOSCOPIC EXAMINATION

IMPORTANCE OF OPHTHALMOSCOPIC EXAMINATION . . . . .	189
PRELIMINARY EXAMINATION WITH THE PLANE MIRROR . . . . .	189
INDIRECT OPHTHALMOSCOPY . . . . .	192
DIRECT OPHTHALMOSCOPY . . . . .	196

### CHAPTER XXII. OBJECTIVE METHODS OF REFRACTION

RETINOSCOPY . . . . .	200
OPTICAL CONDITIONS . . . . .	200
THE THEORY OF RETINOSCOPY . . . . .	201
THE PRACTICE OF RETINOSCOPY . . . . .	206
Streak retinoscopy; objective stigmatoscopy; difficulties in refraction; cycloplegia.	
REFRACTOMETRY . . . . .	216
KERATOMETRY . . . . .	219

### CHAPTER XXIII. SUBJECTIVE VERIFICATION OF THE REFRACTION, AND THE TESTING OF THE MUSCULAR EQUILIBRIUM

THE SUBJECTIVE VERIFICATION OF THE REFRACTION . . . . .	221
The distant vision; velonoskiascopy; the ordering of glasses for distance.	
THE DETERMINATION OF THE ACCOMMODATION AND THE TESTS FOR NEAR VISION . . . . .	229
The determination of the near point; dynamic retinoscopy; the determination of glasses for near work.	
THE DETERMINATION OF THE MUSCLE BALANCE . . . . .	233
The investigation of heterophoria; of vergence power.	
SUMMARY OF CLINICAL METHODS . . . . .	241

## SECTION VI. SPECTACLES

### CHAPTER XXIV. THE MAKING AND FITTING OF SPECTACLES

IMPORTANCE OF THE SUBJECT . . . . .	243
THE MANUFACTURE OF GLASSES . . . . .	243
Spectacle lenses; plastic lenses; spectacle frames; combinations of glasses.	

	PAGE
SPECTACLE LENSES . . . . .	250
The size and shape of lenses ; the form of lenses ; the transposition of lenses ; the effectivity and equivalence of lenses ; the centring and decentring of lenses ; orthoscopic lenses.	
DISCOMFORTS ARISING THROUGH GLASSES . . . . .	270
The verification of glasses.	
SPECIAL TYPES OF GLASSES . . . . .	278
Protective glasses ; special glasses for optical purposes.	
CONTACT LENSES . . . . .	284

### APPENDICES

I. REFRACTIVE INDICES . . . . .	291
II. TABLE SHOWING THE EQUIVALENTS OF CENTRADS IN PRISM DIOPTRES, IN DEGREES OF DEVIATION AND IN DEGREES OF REFRACTING ANGLE . . . . .	292
RELATIONSHIP BETWEEN REFRACTING ANGLE OF PRISMS AND THE AMOUNT OF DEVIATION PRODUCED	
III. METRE ANGLES . . . . .	293
IV. LENSES OF SAME EFFECTIVITY FOR NEAR AND FOR DISTANT WORK . . . . .	294
V. FORMULÆ FOR PERISCOPIIC LENSES . . . . .	295
VI. OFFICIAL VISUAL REQUIREMENTS . . . . .	297
INDEX . . . . .	310
