### **A Profile of the Mature Athlete.**

<i>By Edward R. Eichner . . . . .</i>	<b>1</b>
The Epidemiology of Exercise and Health . . . . .	1
The Athlete's Heart . . . . .	3
Exercise, Fitness, and Heart Health . . . . .	5
Sudden Death and Exercise . . . . .	7
The Athlete's Blood . . . . .	8
The Anemias of Athletes . . . . .	9
The Athlete's Muscles . . . . .	11
Exercise, Hormones, and Bones . . . . .	12
Exercise, Endorphins, Mood, and Addiction . . . . .	14
Selected Topics of Interest to Athletes and Their Physicians . . . . .	15
Exercise-Induced Asthma . . . . .	15
Running and Osteoarthritis . . . . .	16
Exercise and Immunity . . . . .	17
Conclusion . . . . .	17

### **PART I. Sports Science.**

<i>Edited by Brian J. Sharkey . . . . .</i>	<b>23</b>
<b>Specificity of Testing. By Brian J. Sharkey . . . . .</b>	<b>25</b>
Introduction . . . . .	25
Specificity of Exercise . . . . .	26
Specificity of Training . . . . .	27
Peripheral and Central Effects of Training . . . . .	28
Transfer of Training . . . . .	31
Specificity of Testing . . . . .	33
Endurance Testing . . . . .	34
Strength Testing . . . . .	36
Purpose of Test . . . . .	37
Implications . . . . .	38
Conclusion . . . . .	40

<b>Adaptations of Skeletal Muscle to Strength or Endurance Training.</b> By Catherine G. Ratzin Jackson and Arthur L. Dickinson . . . . .	<b>45</b>
Terminology and Biopsy Use . . . . .	45
Strength Training Adaptations in Human Skeletal Muscle . . . . .	46
Endurance Training Adaptations in Human Skeletal Muscle . . . . .	48
Time Course for Changes and Detraining . . . . .	50
Additional Controversies and Speculations . . . . .	53
<b>PART II. Medical Problems.</b>	
<i>Edited by John A. Lombardo.</i> . . . . .	<b>61</b>
<b>The Role of Physical Activity in Bone Mass Regulation.</b>	
<i>By Robert Marcus and Dennis R. Carter</i> . . . . .	<b>63</b>
The Nature of the Human Skeleton . . . . .	64
The Role of Bone Remodeling . . . . .	65
Measurement of Bone Mineral Density . . . . .	66
Relationship of Exercise to Bone Density . . . . .	67
Effect of Exercise on Age-Related Bone Loss . . . . .	68
Relationship of Bone Density to Muscle Mass and Physical Fitness. . . . .	69
Effect of Exercise Intervention on Bone Density . . . . .	70
Interaction of Exercise With Reproductive Endocrine Status: The Effect of Amenorrhea . . . . .	73
Biomechanical Perspective on Regulation of Bone Mass . . . . .	76
Summary . . . . .	79
<b>Exercise-Induced Asthma: Current Perspective.</b>	
<i>By Roger M. Katz and William E. Pierson</i> . . . . .	<b>83</b>
Pathophysiology of Exercise-Induced Asthma . . . . .	84
Historical Review . . . . .	86
Early Studies . . . . .	87
Prevention of Exercise-Induced Asthma With Use of Current Medications . . . . .	88
Complicating Circumstances . . . . .	91
Prevention of Exercise-Induced Asthma Without the Use of Medication . . . . .	92
<b>Recreational Drug Use in Sports.</b> By Gregory B. Collins, Joseph W. Janesz, John A. Bergfeld, and Charles E. Pippenger . . . . .	<b>97</b>
Frequency of Drug Abuse in Society . . . . .	99

Why Do Athletes Start Using Chemicals? . . . . .	100
The Drug-Involved Athlete: The "Problem Player Syndrome" . . . . .	104
Links in the Chain: The Cleveland Browns and Cleveland Clinic Program for Drug-Involved Professional Athletes . . . . .	105
The Team Owner . . . . .	106
The Coach . . . . .	106
The Team Physician . . . . .	107
The Team Psychiatrist . . . . .	107
The Inner Circle . . . . .	108
Therapeutic Urine Monitoring . . . . .	109
The Employee Assistance Consultant . . . . .	109
The Administrative Assistant . . . . .	110
Team Security . . . . .	110
Specialized Rehabilitation Centers . . . . .	111
Self-Help Group . . . . .	111
Concerned Others . . . . .	112
Spiritual Counseling . . . . .	113
Results . . . . .	113
Applying the Links in the Chain—Inner Circle Model to Scholastic Drug Programs . . . . .	113
Links in the Chain in School . . . . .	114
Summary . . . . .	118
<b>Sudden Death in Athletes. By Steven P. Van Camp . . . . .</b>	<b>121</b>
Sudden Death in Young Athletes . . . . .	123
Sudden Death in Older Athletes . . . . .	124
Structural Cardiovascular Abnormalities in Athletes	
Dying Suddenly . . . . .	126
Myocardial Causes . . . . .	126
Coronary Arterial Causes . . . . .	126
Aortic Causes . . . . .	127
Valvular Causes . . . . .	127
Cardiac Conduction System Abnormalities . . . . .	128
Prevention of Sudden Death . . . . .	128
The Pre-Participation Examination . . . . .	130
Evaluation of Patients With Suspected Cardiovascular Abnormalities . . . . .	133
Medical Conditions Not Specifically Requiring Exclusion From Athletics . . . . .	135
Athletic Heart Syndrome . . . . .	137
Other Prevention Measures . . . . .	138
Future Considerations . . . . .	139

**PART III. Sports Traumatology.**

<i>Edited by William A. Grana . . . . .</i>	<b>143</b>
<b>Low Back Pain in Athletes. By Craig D. Brigham and Michael F. Schafer . . . . .</b>	<b>145</b>
General Causes . . . . .	146
Mechanical . . . . .	146
Anthropometric Factors . . . . .	149
Developmental . . . . .	150
Neoplastic . . . . .	152
Metabolic . . . . .	152
Spondyloarthropathies . . . . .	152
Infectious . . . . .	152
Referred . . . . .	153
Other . . . . .	153
Overuse Syndrome . . . . .	153
Establishing a Diagnosis . . . . .	154
Age . . . . .	154
History . . . . .	156
Physical Examination . . . . .	157
Diagnostic Studies . . . . .	159
Treatment . . . . .	164
Musculoligamentous . . . . .	165
Spondylolysis/Spondylolisthesis . . . . .	167
Discogenic . . . . .	169
End-Plate Fracture (Vertebral Apophyseal Ring Fracture) . . . . .	171
Prevention/Rehabilitation . . . . .	171
Exercises . . . . .	171
Flexibility . . . . .	172
Technique Alteration . . . . .	173
Training Programs: Graduated Intensity . . . . .	175
Safety Standards . . . . .	176
Strength Testing . . . . .	177
Pre-Participation Physicals . . . . .	177
Conclusion . . . . .	178
<b>Anterior Cruciate Ligament Insufficiency of the Knee. By Mark S. Pascale and Peter A. Indelicato . . . . .</b>	<b>183</b>
Anatomy . . . . .	183
Function . . . . .	186
Mechanism of Injury . . . . .	190
Natural History . . . . .	192

Diagnosis . . . . .	196
Reconstruction . . . . .	201
Primary Repair . . . . .	202
Extra-articular Reconstructions . . . . .	203
Intra-articular Reconstructions . . . . .	206
Rehabilitation . . . . .	208
Summary . . . . .	210
<b>Age and Injury in Ballet. By James Garrick . . . . .</b>	<b>217</b>
Introduction . . . . .	217
Injury Data . . . . .	219
Lumbar Spine . . . . .	219
Hip . . . . .	220
Knee . . . . .	221
Leg . . . . .	221
Ankle . . . . .	221
Foot . . . . .	222
Discussion . . . . .	222
<b>Shoulder Injuries in the Mature Athlete.</b>	
<i>By Peter J. Fowler . . . . .</i>	<b>225</b>
Rotator Cuff Injuries . . . . .	226
Overwork . . . . .	226
Impingement . . . . .	227
Decreased Blood Supply . . . . .	228
Summary . . . . .	228
Clinical Presentation . . . . .	228
Tendinitis . . . . .	229
Treatment . . . . .	230
Tendinitis With Posterior Instability or Excessive Laxity . . . . .	232
Instability Alone . . . . .	235
Muscle Imbalance . . . . .	236
Flexibility . . . . .	237
<b>PART IV. Prevention and Rehabilitation.</b>	
<i>Edited by Jennifer Stone . . . . .</i>	<b>239</b>
<b>Proprioceptive Training in the Rehabilitation of Lower Extremity Injuries.</b>	
<i>By Robert W. Day and Byron P. Wildermuth . . . . .</i>	<b>241</b>
Muscle Spindles . . . . .	243
Golgi Tendon Organ . . . . .	244

Joint Receptors . . . . .	244
Type I Receptors . . . . .	244
Type II Receptors . . . . .	245
Type III Receptors . . . . .	245
Type IV Receptors . . . . .	245
Return to Activity . . . . .	245
Flexibility . . . . .	245
Facilitation of Proprioceptors . . . . .	247
Balance . . . . .	250
Plyometrics . . . . .	251
Sport Specific Training . . . . .	253
<b>No Tech Rehabilitation. By Jennifer A. Stone and Edward J. Ryan, III.</b> . . . . .	<b>259</b>
Effect of Disability . . . . .	260
Muscle and Joint Integrity . . . . .	260
Pain and Its Effect on Function . . . . .	261
Motion. . . . .	265
Strength . . . . .	266
Power and Coordination. . . . .	270
Aerobic Conditioning . . . . .	271
<b>Index</b> . . . . .	<b>277</b>
