

# CONTENTS

---

## ONE

### METHODOLOGY AND PATHOLOGY

#### OF BONE TUMORS ..... 1

Imaging Features of Bone Tumors and Tumor-like Lesions 2

Imaging Modalities 14

*George B. Greenfield, John A. Arrington*

#### PATHOLOGY..... 20

Diagnostic Approach 20

Types and Distribution of Bone Tumors 21

*Kenneth R. Schroer*

## TWO

### PRIMARY MALIGNANT BONE TUMORS..... 43

Imaging Analysis of the Solitary Bone Lesion 44

Osteosarcoma 48

Chondrosarcoma 91

Fibrosarcoma of Bone 109

Malignant Fibrous Histiocytoma of Bone 110

Ewing Tumor 111

Primary Non-Hodgkin Lymphoma of Bone 126

Multiple Myeloma and Other Diseases With Altered  
Immunoglobulins 126

Chordoma 146

Giant Cell Tumor 146

Rare Malignant Bone Tumors 153

*George B. Greenfield, John A. Arrington*

## THREE

### BENIGN BONE TUMORS..... 167

Differential Diagnosis of Benign Conditions of Bone 168

Imaging of Specific Tumors and Related Conditions 169

*George B. Greenfield, John A. Arrington*

## FOUR

### SOFT-TISSUE TUMORS ..... 255

Imaging Modalities for Evaluating Soft-Tissue Tumors 256

Staging of Soft-Tissue Tumors 263

Classification of Soft-Tissue Tumors 268

Differential Diagnosis of Soft-Tissue Tumors 268

*George B. Greenfield, John A. Arrington*

## FIVE

### METASTATIC TUMORS, DIFFERENTIAL DIAGNOSIS, AND BONE MARROW ..... 333

Imaging Strategies for Metastases to Bone 334

Metastases to Bone and Differential Diagnosis 338

*George B. Greenfield, John A. Arrington*

### BONE MARROW IMAGING ..... 432

Anatomy and Physiology 432

Imaging Methods 433

Magnetic Resonance Characteristics 433

*Stephanie D. Holman Ferris, Martin L. Silbiger*

## SIX

### SOME CLINICAL CONSIDERATIONS ..... 445

#### ***Osteosarcoma*** 446

Clinical Presentation and Natural History 446

Diagnostic Studies 446

Treatment of Osteosarcomas 447

*Jaime Estrada*

#### ***Surgical Treatment for Osteosarcoma*** 450

Surgical Approaches 450

Anatomic Determinants of Surgical Treatment 454

Prognosis 457

*George Douglas Letson*

#### ***Orthopedic Perspective: What I Want From the Radiologist*** 458

Conventional Radiography 458

Radionuclide Imaging 458

Computed Tomography and Magnetic Resonance Imaging 459

Role of the Radiologist 459

*Arthur K. Walling*

***Radiotherapeutic Treatment of Soft Tissue Sarcoma*** 459

Principles of Radiation Treatment 460

Imaging Modalities Used in the Radiotherapeutic Management  
of Sarcomas 461

*Harvey M. Greenberg*

Bibliography 463

Index 481

The color plates fall between pages 14 and 15.
