Part I Imaging of the Temporal Bone

Galdino E. Valvassori and Richard A. Buckingham

Chapter 1 Conventional Radiography

Schüller Projection	2
Transorbital Projection	2
Stenvers Projection	2

Chapter 2 Serial CT Sections of Temporal Bone Anatomy

Introduction	4
Projections	4
Axial Sections	5
Coronal Sections	11
20° Coronal Oblique Sections	16
Sagittal Sections	22

Chapter 3 Magnetic Resonance Imaging of the Temporal Bone

Technique	31
Temporal Bone Imaging	33
Magnetic Resonance Angiography (MRA)	33

Chapter 4 Congenital Abnormalities of the Temporal Bone

Radiographic Evaluation	36
Embryology	36
Anomalies of the Sound-Conducting System	38
Facial Nerve Anomalies	44
Anomalies of the Inner Ear	45
Cochlea	45
Vestibular Aqueduct Abnormalities	47
Anomalies of the Internal Auditory Canal	51
Anomalies of the Cochlear Aqueduct	51
Congenital Obliterative Labyrinthitis	51
Cerebrospinal Fluid Otorrhea	52
Imaging Assessment for Cochlear Implantation	52
Congenital Vascular Anomalies	52

Chapter 5 Temporal Bone Trauma

Classification	57
Clinical Findings	57
Longitudinal Fractures	59
Transverse Fractures	59
Comminuted Mastoid Fractures	60
Ossicular Dislocation	60
Projectile Missiles	61
Traumatic Facial Nerve Lesions	62

Chapter 6 Acute Otitis Media, Mastoiditis, and Malignant Necrotizing External Otitis

Acute Otitis Media and Mastoiditis	67
Imaging Findings	67
Labyrinthitis	71
Chronic Labyrinthitis	71
Facial Neuritis	73
Malignant Necrotizing External Otitis	73

Chapter 7 Chronic Otitis Media and Mastoiditis

Clinical Findings	75
Otoscopic Findings	75
Imaging Techniques	75
Mastoid Pneumatization	75
Imaging Findings	75

Chapter 8 Cholesteatoma of the Middle Ear and Mastoid

Acquired Cholesteatoma of the Middle Ear and Mastoid	83
Clinical and Otoscopic Findings	83
Imaging Techniques	84
Diagnosis of Cholesteatoma	84
Patterns of Imaging Findings	84
Complications	94
Congenital Cholesteatoma of the Middle Ear	95
Cholesteatoma of the External Auditory Canal	100

Chapter 9 Postoperative and Postirradiation Imaging of the Temporal Bone

Simple and Radical Mastoidectomies	104
Tympanoplasty	104
Imaging Findings	104
Stenosis of the External Auditory Canal	105

Chapter 10 Tumors

Benign Tumors	110
Glomus Tumors	118
Malignant Tumors	127

Chapter 11 Internal Auditory Canal and Acoustic Neuroma

Normal Internal Auditory Canal	132
Abnormal Internal Auditory Canal	133
Imaging Studies	134
Labyrinthine Schwannomas	141

Chapter 12 Otosclerosis and Bone Dystrophies

Otosclerosis	143
Paget Disease	150

Osteogenesis Imperfecta	151
Osteopetrosis	153
Fibrous Dysplasia	154
Craniometaphyseal Dysplasia	154

Part II Orbit and Globe, Paranasal Sinuses, Nasopharynx and Base of the Skull

Mahmood F. Mafee

Chapter 13 Imaging of the Orbit

Anatomic and Developmental Considerations	158
Technique for Orbital CT and MRI	165
Developmental Anomalies	174
Inflammatory Diseases of the Orbit	180
Miscellaneous Granulomatous and Histiocytic Lesions	189
Vascular Conditions of the Orbit	193
Optic Nerve Sheath Meningioma	199
Optic Nerve Glioma	202
Nontumoral Enlargement of the Optic Nerve/Sheath	204
Lacrimal Gland and Fossa Lesions	209
References	212

Chapter 14 Imaging of the Globe

Introduction	216
Computed Tomography	216
Magnetic Resonance Imaging	216
Normal Ocular Anatomy	217
Ocular Pathology	218
Congenital Lesions	218
Ocular Detachments	219
Leukokoria	224
Retinoblastoma	225
Persistent Hyperplastic Primary Vitreous	228
Norrie's Disease	232
Warburg's Syndrome	233
Retinopathy of Prematurity or Retrolental Fibroplasia	233
Coats' Disease	234
Ocular Toxocariasis (Sclerosing Endophthalmitis)	236
Ocular Hamartoma	236
Drusen of the Optic Nerve Head	237
Malignant Uveal Melanoma	237
Uveal Metastasis	240
Choroidal Nevus	240
Choroidal and Retinal Hemangiomas	242
Other Tumors of the Uvea	242
Suggested Reading	245

Chapter 15 Nasal Cavity and Paranasal Sinuses

M. F. Mafee and B. L. Carter

Anatomy	248
Imaging of the Sinonasal Cavities	263
Sinonasal Pathology	272
Congenital Anomalies of the Nose and Paranasal Sinuses	272
Inflammatory Diseases	276
Acute Sinusitis	276
Acute Mycotic Sinonasal Diseases	280
Allergy	283
Rhinolith	284
Atrophic Rhinitis	284
Granulomatous Diseases	284
Mucocoeles	286
Nasal Polyps	288
Traumatic and Postoperative Findings	292
Tumors and Tumor-like Lesions of the Paranasal Sinuses and Nasal Cavity	302
Benign Tumors	303
Epithelial Tumors of the Paranasal Sinuses and Nasal Cavity	308
Sonography of the Paranasal Sinus System	329

Chapter 16 Nasopharynx Parapharyngeal Space, and Base of Skull

Anatomy of the Nasopharynx and Parapharyngeal Space	332
Imaging Technique	335
Pathology of the Nasopharynx and Parapharyngeal Space	336
Congenital Anomalies	336
Inflammations	336
Infectious Mononucleosis	336
Benign Tumors	336
Malignant Tumors	338
Pathology of the Parapharyngeal and Masticatory Spaces	342
Skull Base	351

Pathology	372
Tumors and Cysts	372
Trauma	382
Vocal Cord Paralysis	384

Part III Neck, Oropharynx, and Salivary Glands

Barbara L. Carter

Chapter 17 Imaging of the Larynx

H. D. Curtin	
Anatomy	366
Imaging	368

Inflammation and Systemic Disease 384
 Congenital 385
 Posttreatment Imaging 387
 Summary 387
 Sonographic Examination of the Larynx and
 Hypopharynx 387
 References 389

Chapter 18 Imaging of the Suprahyoid Neck

J. S. Lewin
 Anatomy 390
 Normal Imaging Anatomy and Imaging Tech-
 nique 396
 Pathology 400
 Parapharyngeal Space 400
 Masticator Space 408
 Parotid Space 413
 Retropharyngeal and Prevertebral Spaces 415
 Submandibular and Sublingual Spaces 417
 Posterior Cervical Space 421
 Summary 422
 References 422

Chapter 19 The Infrahyoid Neck

J. L. Weissman
 Anatomy 424
 Branchial Apparatus 425
 Thyroid Gland 426
 Parathyroid Glands 428
 Thymus 429
 Esophagus and Trachea 430
 Lymph Nodes 431
 Muscles 433
 Nerves and Brachial Plexus 433
 Other Pathology 435
 Sonography of the Facial Soft Tissue Regions and
 the Neck 437
 References 444

**Chapter 20 CT and MRI of the Oral Cavity
 and Oropharynx**

D. R. Gale
 Normal Anatomy 445
 CT and MR Imaging 448
 Overview of Regional Malignancies 451
 Tonsillar Infections 459
 Tonsilloliths 461
 Infections of the Floor of the Mouth 462
 Benign Tumors 464

Lingual Thyroid and Thyroglossal Duct Cyst 465
 Dermoids and Epidermoids 468
 Sonography of the Floor of the Mouth, the Tongue,
 and the Oropharynx 469
 References 473

Chapter 21 Salivary Glands

B. L. Carter
 Embryology 475
 Normal Anatomy 475
 Imaging studies 475
 Pathology 478
 Congenital Abnormalities 478
 Obstruction 479
 Inflammatory Disease—Sialadenitis 483
 Cysts 487
 Benign Lymphoepithelial Lesion 487
 Tumors 488
 Miscellaneous 497
 Sonography of the Large Salivary Glands 500
 References 508

**Chapter 22 Radiographic Evaluation of the
 Mandible and Maxilla: (Cysts, Benign and
 Malignant Tumors)**

A. L. Weber
 Examination Techniques 510
 Pathology 512
 Odontogenic and Nonodontogenic Cysts of the
 Mandible 513
 Benign Odontogenic Tumors 516
 Benign Nonodontogenic Tumors 519
 Fibro-osseous Lesions 521
 Vascular Tumors 522
 Neurogenic Tumors 522
 Malignant Tumors 523
 References 526

Chapter 23 Cervical Vasculature

H. Iro
 Color-Coded Duplex Sonography 527

**Appendix 1 Ultrasound in the Head and Neck
 Area 529**

Appendix 2 TNM Classification 536

Index 539
