

CONTENTS

<i>Preface</i>	<i>vii</i>
----------------------	------------

INTRODUCTION

1. Clinical Microbiology of the Female Genital Tract	3
2. Use of the Microbiology Laboratory in Infectious Diseases	16

SPECIAL ORGANISMS

3. Group B Streptococci	35
4. Genital Mycoplasmas	53
5. Chlamydial Infection	64
6. Herpes Simplex Virus Infection	111
7. Sexually Transmitted Diseases	133
8. Mixed Anaerobic-Aerobic Infection and Pelvic Abscess .	189
9. Hepatitis	231
10. Acquired Immunodeficiency Syndrome (AIDS)	252

GYNECOLOGIC AND OBSTETRIC INFECTIONS

11. Toxic Shock Syndrome	321
12. Infectious Vulvovaginitis	341
13. Postabortion Infection, Bacteremia, and Septic Shock ..	363
14. Pelvic Inflammatory Disease	378
15. Urinary Tract Infection	429
16. Perinatal Infections	465
17. Premature Rupture of the Membranes	529
18. Intraamniotic Infection (Intrauterine Infection in Late Pregnancy)	548
19. Subclinical Infection as a Cause of Premature Labor ...	564
20. Postpartum Infection	578
21. Wound and Episiotomy Infection	601
22. Parasitic Disease in Pregnancy	617

ANTIBIOTICS

23. Antimicrobial Agents	657
24. Antibiotic Prophylaxis in Obstetrics and Gynecology ...	729
