

CONTENTS

Preface.....	v
Contributors	ix
1 General Adaptation Syndrome: <i>An Overview</i>	1
<i>David J. Torpy and George P. Chrousos</i>	
2 Developmental Considerations: <i>The Fetal and Neonatal</i> <i>Endocrine Response to Stress</i>	25
<i>C. Richard Parker, Jr.</i>	
3 Growth, Development, and Critical Disease	45
<i>Pamela A. Clark and Alan D. Rogol</i>	
4 Pituitary Response to Stress: <i>Growth Hormone and Prolactin</i>	67
<i>Mark E. Molitch</i>	
5 The Sympathoadrenomedullary Response to Critical Illness	87
<i>Otto Kuchel</i>	
6 The Adrenocortical Response to Critical Illness: <i>The CRH-ACTH-Cortisol Axis</i>	123
<i>Jay Watsky and Matthew C. Leinung</i>	
7 Adrenocortical Response to Critical Illness: <i>The Renin-Aldosterone Axis</i>	137
<i>Paul I. Jagger</i>	
8 Thyroid Response to Critical Illness	155
<i>Jonathan S. LoPresti and John T. Nicoloff</i>	
9 Pathophysiology of Water Metabolism During Critical Illness	175
<i>Mary H. Parks and Joseph G. Verbalis</i>	
10 Alterations in Fuel Metabolism in Critical Illness: <i>Hyperglycemia</i> ...	197
<i>Barry A. Mizock</i>	
11 Alterations in Fuel Metabolism in Critical Illness: <i>Hypoglycemia</i>	211
<i>K. Patrick Ober</i>	
12 Critical Illness and Calcium Metabolism	233
<i>Jack F. Tohme and John P. Bilezikian</i>	
13 Skeletal Metabolism in Critical Illness	249
<i>Steven R. Gambert and Stephen J. Peterson</i>	
14 Testicular Function in Critical Illness	271
<i>Stephen R. Plymate and Robert E. Jones</i>	
15 The Female Gonadal Response to Critical Disease	285
<i>Mark D. Nixon and Robert W. Rebar</i>	

16	Effects of Aging on the Hormonal Response to Stress	299
	<i>Gary A. Wittert and John E. Morley</i>	
	Index	311
