

Contents

Problems of Surgery in and around the Brain Stem and the Third Ventricle. A General Perspective. M. Samii (With 10 Figures) .	1
---	---

Anatomy

Microanatomy of and around the Brain Stem and the Third Ventricle. J. Lang (With 31 Figures)	9
The Three-Dimensional Anatomy of the Fourth Ventricle and Adjacent Structures. F. Afshar (With 7 Figures)	46
Trigeminal DREZ for Craniofacial Pain. B. S. Nashold, H. Lopes, J. Chodakiewitz, and P. Bronec (With 1 Figure)	54
Interpeduncular Fossa Microvascular Anatomy. J. I. Ausman, A. Pedroza, M. Dujovny, F. G. Diaz, J. C. Artero, S. K. Berman, and H. G. Mirchandani (With 2 Figures)	60
Microsurgical Anatomy of the Pineal and Midbrain Region. G. Pendl (With 14 Figures)	65

Pathology, Metabolic Disturbances

Neuropathology of the Processes in the Third Ventricle and the Brain Stem. K. J. Zülch (With 1 Figure)	79
Clinical and Pathological Findings in Brain Stem Gliomas. J. Artigas, J. Cervós-Navarro, M. Brock, and C. Aruffo (With 6 Figures)	86
Blood Flow and Metabolism in Brain Stem – Pathophysiological Implications. A. Baethmann (With 1 Figure)	95

Neurology, Neurophysiology

Topographic Analysis of Neurologic Symptoms in Brain Stem Diseases. A. Hartmann and J. Wappenschmidt (With 15 Figures)	105
Symptoms of Tumors of the Brain Stem and the Third Ventricle. M. Schirmer	129
Functional Anatomy of Sensory Motor Afferences of the Thalamus. A. Struppeler and P. Birk (With 6 Figures)	133

Intracranial Pressure, Neurological Condition and Operative Management in Relation to the Outcome of Patients with Supratentorial Midline Tumors. K.-E. Richard, R. Knipprath, P. Sanker, P. Van den Bergh, and R. A. Frowein (With 6 Figures)	139
Neurophysiological Results (Brain Stem Reflexes and Evoked Potentials) in Primary and Secondary Brain Stem Disorders. N. Klug (With 6 Figures)	147
Intraoperative Monitoring of Evoked Potentials for Surgery in and around the Third Ventricle and the Brain Stem. J. Schramm, C. Cedzich, R. Fahlbusch, T. Mokrusch, and H. Hochstetter (With 6 Figures)	153
Stimulation Mapping of the Periventricular-Periaqueductal Gray (PVG-PAG) in Man – an Autopsy Study. R. R. Tasker, M. Yoshida, A. A. F. Sima, and J. Deck (With 6 Figures)	161
Monitoring of Brain Stem Function by Brain Stem Auditory Evoked Potentials (BAEP). C. B. Lumenta, M. Krämer, and W. J. Bock (With 6 Figures)	168
The Perioperative Monitoring of Brain Stem Auditory Evoked Potentials (BAEP). P. Gürtner, E. Kohmura, R. Ramina, R. Lorenz, and M. Samii (With 4 Figures)	175

Neuroradiology

Artificial Intelligence in Radiology. A. Wackenheim (With 17 Figures)	183
Brain Stem and Tentorial Notch. M. Nadjmi (With 7 Figures)	195
Local Cerebral Blood Flow Measurements in the Deep Seated Brain Structures. K.-D. Lerch, N. Nemati, E. Kohmura, K. Holl, and M. Samii (With 6 Figures)	200
Remote Metabolic Disturbances in Lesions of Brain Stem and Diencephalon. A PET-Study. W.-D. Heiss, G. Pawlik, K. Herholz, B. Szelies, C. Beil, R. Wagner, and K. Wienhard (With 1 Figure)	207
Vascular Malformations Involving the Mesencephalic Region. (Review of 26 Personal Cases) P. Lasjaunias, C. Mañéfe, L. Lopez Ibor, K. Ter Brugge, and M. Chiu (With 2 Figures) ..	213
New Embolization Method for Inoperable AVMs and Vascular Rich Tumors – Chemical Embolization Using Conjugated Estrogen. J. Suzuki, Y. Nagamine, and A. Takahashi (With 6 Figures)	223

Surgical Management of Specific Lesions:

Vascular Lesions, Trauma

Cavernous Angioma in the Brain Stem. Report of Successfully Operated Cases. T. Yoshimoto and J. Suzuki (With 6 Figures) .	233
---	-----

Surgical Management of Deep Seated Angiomas. M. Samii and R. Ramina (With 4 Figures)	240
Surgical Treatment of Para and Intraventricular Vascular Lesions Complicated by Intraventricular and Periventricular Hemorrhage. M. Mircevski, A. Popovski, R. Basevska, P. Ruškov, and I. Dzonov (With 2 Figures)	248
Surgical Management of Deep-Seated Cerebrovascular Lesions by Means of Temporary Vascular Occlusion Using Sendai Cocktail. J. Suzuki, T. Kayama, and T. Yoshimoto (With 6 Figures)	255
Revascularization of the Brain Stem and Posterior Fossa. R. F. Spetzler and M. N. Hadley (With 6 Figures)	262
Revascularization of the Brain Stem: Anatomical Basis, Clinical Results and Long-Term Angiographic Follow-up – Ten Years Experience. J. I. Ausman, F. G. Diaz, M. Dujovny, C. Shrontz, J. Pearce, R. A. De Los Reyes, S. Patel, B. Mehta, and R. Boulos	270
Prognostic Factors Implicated in the Microsurgical Treatment of Trigeminal Neuralgia. M. Sindou and J. Szapiro (With 3 Figures)	273
Ectatic Basilar Artery: An Unusual Cause of Trigeminal Neuralgia. R. H. Lye (With 4 Figures)	280
Microneurosurgical Findings of Glossopharyngeal Neuralgia. J. Hamer (With 3 Figures)	285
Traumatic Intraventricular, Basal Ganglia, and Brain Stem Haematomas. G. Teasdale, E. Teasdale, and P. Macpherson (With 4 Figures)	290
Neurosurgical Advances Relating to Pontine Hemorrhage. W. J. Bock and C. Sprick	297
Surgical Removal of an Intrapontine Hematoma. Case Report. M. Schäfer (†), H.-P. Richter, and H. J. Klein (With 4 Figures)	302

Surgical Management of Lesions in Specific Locations: Pineal Region, Anterior Third Ventricle

Treatment of Tumors in the Pineal and Posterior Third Ventricular Region. K. Sano (With 6 Figures)	309
Tumor Markers: Their Role and Limit for Management of Pineal Tumor. N. Arita, Y. Ushio, T. Hayakawa, S. Bitoh, M. Kano, Y. Oku, S. Mori, H. Hasegawa, Y. Maeda, and H. Mogami (With 6 Figures)	318
A New Operative Approach to the Pineal Region. J. I. Ausman, G. M. Malik, J. Pearce, and J. S. Rogers (With 1 Figure)	326
Two Approaches to the Anterior Third Ventricle. I. Via the Velum Interpositum. II. Via the Lamina Terminalis and Sphenoid Sinus. R. H. Patterson, Jr. and M. H. Lavyne (With 2 Figures) .	329

Interhemispheric Trans-Lamina Terminalis Approach by Bifrontal Craniotomy to Tumor of the Anterior Part of Third Ventricle. J. Suzuki, R. Katakura, T. Kayama, and T. Yoshimoto (With 5 Figures)	334
Microneurosurgical Anterior and Basal Interhemispheric Approaches for Lesions in and around the Anterior Third Ventricle. N. Yasui, A. Suzuki, H. Ohta, H. Kamiyama, K. Watanabe, and K. Shindo (With 6 Figures)	339
Interforaminal Exposure of the Third Ventricular Chamber. M. L. J. Apuzzo	346
Tumors in the Anterior Part of the Third Ventricle Removed by Right Transventricular Approach. H.-D. Herrmann and C. Kamm	350
Intraventricular Tumors: With Special Reference of Those in and around the Brain Stem and Third Ventricle – Analysis of 125 Cases. L. Basauri (With 2 Figures)	353
Approach Problems in Anterior Third Ventricle Tumors: Review of 33 Cases. V. Lupret and I. Jelicic (With 5 Figures)	359

Suprasellar Lesions Affecting Third Ventricle

Endocrinological Disturbances Detected in Hypothalamic Lesions. R. Fahlbusch, M. Buchfelder, and U. Schrell (With 7 Figures)	367
Clinical and Surgical Management of Giant Pituitary Adenomas. A. Basso, M. Vitale, C. Yampolsky, A. Chervin, A. Kreutel, E. Caputi, and A. Guitelman (With 2 Figures)	375
The Effect of Suprasellar Lesions on Energy Balance. E. Grote (With 5 Figures)	383
Removal of Craniopharyngioma by a Unilateral Interhemispheric Trans-Lamina Terminalis Approach: Operative Procedures and Postoperative Management. N. Arita, S. Mori, T. Ikeda, T. Hayakawa, Y. Ushio, and H. Mogami (With 6 Figures)	389
The Transpetrosal-Transtentorial Approach and Its Application in the Therapy of Retrochiasmatic Craniopharyngiomas. A. Hakuba (With 6 Figures)	396

Surgery of Processes Affecting Midbrain and Basal Ganglia

Surgery of Processes Along the Pyramidal Tract and the Internal Capsule. U. Ebeling, H. J. Reulen, and P. Huber (With 4 Figures)	405
Management of Tuberculoma in the Brain Stem and the Thalamus. S. N. Bhagwati (With 5 Figures)	410
Neurosurgical Aspects of Processes at the Tentorial Margin. M. Samii (With 12 Figures)	416
Laser Surgery on and Within the Neuraxis. F. Heppner, R. W. Oberbauer, and P. W. Ascher (With 1 Figure)	444

Advanced Technologies for the Treatment of Brain Stem Tumors. V. A. Fasano, R. Urciuoli, and R. M. Ponzio (With 3 Figures) ..	449
--	-----

Posterior Fossa: IV Ventricle, Clivus, Foramen Magnum

The Removal of the Petrous Pyramid to Improve Neurosurgical Access to the Brain Stem. J. Helms and K. Schürmann (With 2 Figures)	457
The Posterolateral Approach to the Foramen Magnum. A. Perneczky (With 5 Figures)	460
The Transoral Surgical Approach to the Craniocervical Junction. M. N. Hadley and R. F. Spetzler (With 8 Figures)	467
Transoral Surgery in Craniocervical Ventral Extradural Processes. E. Pásztor, J. Vajda, P. Piffkó, and I. Gádor (With 4 Figures) ..	476
Posterior Fossa Transtentorial Route to Basal Perisellar Space- Occupying Lesions. P. C. Potthoff (With 2 Figures)	482
Tumors of the Fourth Ventricle and the Aqueductus. R. Lorenz ..	487
Some Considerations on the Successful Total Extirpation of Hemangioblastoma Originating in the Medulla Oblongata. A Report of Two Cases. N. Nakamura, H. Sekino, Y. Taguchi, and T. Fuse (With 4 Figures)	491
Indications for Posterior Fossa Surgery in Syringomyelia. R. Van den Bergh	496
Surgical Technique for Excision of Large Chemodectomas of the Jugular Foramen. G. Meinig, K. Schürmann, B. Ludwig, and J. Helms (With 5 Figures)	501

Stereotactic Intervention, Radiotherapy, Chemotherapy

CT-Guided Stereotactic Biopsy and Interstitial Curie-Therapy with ¹⁹² Ir and ¹²⁵ I of Non-Resectable Midline and Brain Stem Gliomas. F. Munding (With 1 Figure)	509
Computed Tomographic Guidance Stereotaxis in the Management of Ninety-Four Lesions of the Third Ventricular Region. M. L. J. Apuzzo (With 1 Figure)	518
Computed Tomography – Guided Thalamotomy. L. V. Laitinen (With 2 Figures)	523
Interstitial Irradiation of Inoperable Brain Stem Tumors. F. Oppel, H. W. Pannek, J. Voges, and M. Brock (With 8 Figures)	526
Aspiration of Intracerebral Hematomas and Biopsy of Deep Brain Tumors Using CT-Guided Stereotaxic Technique. H. Niizuma, T. Otsuki, R. Katakura, and J. Suzuki (With 5 Figures)	534
Thalamic Stimulation: Effects on Deafferentation Pain and Movement Disorders. J. Siegfried and H. van Loveren (With 4 Figures)	540

Stereotaxic Hypothalamotomy in Aggressive Behavior.	
B. Ramamurthi and V. Balasubramaniam	547
Stereotactic Radiosurgery in Rabbit Eye Melanoma. R. W. Rand,	
A. Khonsary, W. J. Brown, J. Winter, E. Holly, H. D. Snow,	
and T. Geiger (With 7 Figures)	550
Stereotactic Radiosurgery of Acoustic Neuromas. A. Khonsary,	
R. W. Rand, and G. H. Wilson (With 14 Figures)	559
Chemotherapy of Childhood Brain Stem Tumors. M. K. Neidhardt	570
Chemotherapy of Malignant Brain Stem Tumors in Adults.	
P. Krauseneck (With 5 Figures)	575
Chemotherapy of Malignant Brain Stem Tumors in Adults –	
New Substances, Prospect. G. Haferkamp	582
Subject Index	588
