

Contents

PART ONE

Introduction

Rodger L. Bick

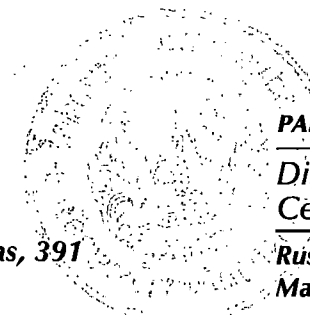

- 1 Clinical approach to the patient with hematologic disease, 3**
Rodger L. Bick
- 2 Laboratory evaluation of the patient with hematologic disease, 7**
Dennis W. Ross
- 3 Quality control and standardization in the hematology laboratory, 17**
Charles F. Arkin
- 4 Evaluation of the peripheral blood smear, 39**
Gene L. Gulati, John K. Ashton, and Bong Hak Hyun
- 5 Interpretation of bone marrow aspirates and biopsies, 51**
Lawrence Kass
- 6 Applications of nuclear medicine in hematology, 91**
Edward R. Powsner
- 7 Flow cytometry, 121**
John W. Parker
- 8 Cancer cytogenetics, 135**
Susanne M. Gollin
- 9 Oncogenes in hematology, 143**
Martin J. Cline
- 10 Hematologic problems resulting from occupational exposures, 151**
Clark W. Heath, Jr.
- 11 Biologic response modifiers useful in hematology, 157**
John Glaspy

PART TWO

Erythroid Disorders

Stephen B. Shohet
Patrick C. J. Ward

- 12 Morphology of the erythron, 163**
Carol A. Bell
- 13 Biochemistry and function of the erythron, 185**
George J. Brewer and Ananda S. Prasad
- 14 Clinical evaluation of the patient with anemia, 203**
William F. Baker, Jr.
- 15 Immunohematology: blood groups and practical applications, 231**
John D. Milam and Carol Johnson Schmoll
- 16 Iron deficiency anemia, 257**
William F. Baker, Jr. and Rodger L. Bick
- 17 Laboratory evaluation of iron deficiency, 273**
Donald P. Skoog
- 18 Hereditary hemolytic anemias associated with abnormal shapes of erythrocytes, 281**
Abdus Saleem
- 19 Hereditary hemolytic anemias associated with erythrocytic enzymopathies, 291**
Abdus Saleem
- 20 Congenital dyserythropoietic anemia, 301**
Gerald M. Gawlik, Raoul Fresco, and Harry L. Messmore
- 21 Clinical aspects of hemoglobinopathies, 307**
George J. Brewer, Vasantha Iyengar, and Ananda S. Prasad

- 22 / **Laboratory diagnosis of hemoglobinopathies, 327**
Robert M. Schmidt
- 23 / **Acquired hemolytic anemias, 391**
Ananda S. Prasad
- 24 / **Laboratory evaluation of acquired hemolytic anemias, 409**
Lawrence D. Petz
- 25 / **The anemias of chronic disease, renal failure, and endocrine disorders, 419**
Robert T. Means, Jr. and Emmanuel N. Dessypris
- 26 / **The anemias of pregnancy, liver disease, and acute blood loss, 431**
Robert T. Means, Jr. and Emmanuel N. Dessypris
- 27 / **Clinical aspects of megaloblastic anemia, 437**
Ralph Carmel
- 28 / **Laboratory evaluation of megaloblastic anemia, 459**
LoAnn Peterson and Robert W. McKenna
- 29 / **Aplastic anemia, 471**
Richard E. Champlin
- 30 / **Constitutional aplastic anemias, 485**
N. T. Shahidi
- 31 / **Sideroblastic anemia, 495**
Lawrence Kass
- 32 / **Hemochromatosis, 507**
William G. Figueroa
- 33 / **Laboratory evaluation of iron overload, 523**
Donald P. Skoog
- 34 / **Polycythemia, 533**
Harry L. Messmore and Abdul M. Choudhury
- 35 / **Laboratory diagnosis of polycythemia, 545**
Raymond D. Aller
- 36 / **Paroxysmal nocturnal hemoglobinuria and march hemoglobinuria, 547**
Rodger L. Bick
- 37 / **The porphyrias, 553**
Frederick L. Kiechle

PART THREE

Disorders of Lymphoid and Related Cells, 575

Russell K. Brynes
Martin J. Cline

- 38 / **Structure and function of the monocyte-macrophage and reticuloendothelial system, 577**
Paul L. Wolf
- 39 / **Biology of lymphocytes and plasma cells, 587**
Martin J. Cline
- 40 / **Introduction of immunodeficiency and immunoproliferative disorders, 597**
Diane Farhi
- 41 / **Immunodeficiency disorders, 601**
Ronald T. Mitsuyasu and E. Richard Stiehm
- 42 / **Hematologic manifestations of HIV-1 infection, 619**
Russell K. Brynes and Joan Esplin
- 43 / **Laboratory diagnosis of immunodeficiency, 637**
Stebbins B. Chandor
- 44 / **Benign lymphocytosis, monocytosis and plasmacytosis, 651**
Gene L. Gulati, John K. Ashton, and Bong Hak Hyun
- 45 / **Infectious mononucleosis and related disorders, 659**
Paul D. Hoeprich and Neil M. Flynn
- 46 / **Laboratory evaluation of mononucleosis syndrome, 663**
Robert M. Nakamura and Richard S. Smith
- 47 / **Disorders of the spleen, 673**
Richard S. Neiman and Barbara C. Wolf
- 48 / **Multiple myeloma, heavy chain diseases and Waldenström's macroglobulinemia, 705**
Gary J. Schiller
- 49 / **Amyloidosis, 729**
Leo P. Cawley and Barbara J. Minard
- 50 / **Laboratory evaluation of malignant immunoproliferative diseases, 741**
Paul E. Steele, Gerald M. Penn, and Paul E. Hurtubise

- 51 Adult acute lymphoblastic leukemia, 767**
Hope S. Rugo and James L. Gajewski
- 52 Acute lymphoblastic leukemia in children, 775**
Carl Lenarsky and Stephen A. Feig
- 53 Laboratory evaluation of acute lymphoblastic leukemia, 791**
Bong Hak Hyun, Gene L. Gulati, and John K. Ashton
- 54 Chronic lymphocytic leukemia, 803**
Kenneth A. Foon, Kanti R. Rai, and Robert Peter Gale
- 55 Laboratory evaluation of chronic lymphocytic leukemia, 815**
Steven H. Swerdlow and Paul E. Hurtubise
- 56 Clinical aspects of hairy-cell leukemia, 829**
John Glaspy
- 57 Hairy-cell leukemia, 833**
Jerome S. Nosanchuk
- 58 Cutaneous T-cell lymphoma, 841**
Kenneth A. Foon and Robert Peter Gale
- 59 Mycosis fungoides and Sézary syndrome, 845**
Jerome S. Nosanchuk
- 60 Benign lymphadenopathy, 853**
Barbara C. Wolf
- 61 Adult non-Hodgkin's lymphomas, 875**
James O. Armitage, Alan R. Berg, and David T. Purtle
- 62 Pediatric non-Hodgkin's lymphomas, 895**
Aziza Shad and Ian Magrath
- 63 Clinical aspects of adult Hodgkin's disease, 931**
Gregory P. Sarna
- 64 Clinical aspects of pediatric Hodgkin's disease, 955**
Aziza Shad and Ian Magrath
- 65 Histopathology and laboratory evaluation of Hodgkin's disease and non-Hodgkin's lymphoma, 973**
Nora C. J. Sun
- 66 Benign disorders of histiocytes, 1025**
Ronald T. Mitsuyasu and Ronald Wisdom
- 67 Malignant disorders of histiocytes, 1035**
Ronald T. Mitsuyasu and Ronald Wisdom
- 68 The pathology of histiocytes and dendritic cell proliferations, 1039**
Wing C. Chan and Fady Baddoura
- PART FOUR**
- Granulocyte Disorders**
- John M. Bennett**
Lawrence Kass
- 69 Morphology and biochemistry of the myeloid series, 1053**
Jerzy Lisiewicz and Rodger L. Bick
- 70 Functional biology of the granulocyte-monocyte series, 1077**
Kuender D. Yang and Harry R. Hill
- 71 Clinical evaluation of patients with quantitative granulocyte disorders, 1093**
Martin J. Cline
- 72 Functional disorders of granulocytes and monocytes, 1099**
Raymond G. Watts and Thomas H. Howard
- 73 Laboratory evaluation of qualitative neutrophil disorders, 1123**
Roger L. Berkow and Thomas H. Howard
- 74 Granulocytosis and granulocytopenia, 1137**
LoAnn Peterson and Kathy Foucar
- 75 Laboratory evaluation of benign quantitative granulocyte and monocyte disorders, 1155**
Martin J. Cline
- 76 Acute myelogenous leukemia, 1161**
Michael J. Keating and Emil J. Freireich
- 77 The acute myeloid leukemias: morphology and cytochemistry, 1195**
Jean Goasguen and John M. Bennett
- 78 Clinical evaluation of chronic myelogenous leukemia, 1217**
Steven M. Scates
- 79 Laboratory evaluation of chronic myelogenous leukemia, 1225**
Michelle M. Le Beau and James W. Vardiman

80 The myeloproliferative diseases, 1239

Murray N. Silverstein

81 The morphology of myeloproliferative disorders, 1247

Barbara C. Wolf and Richard S. Neiman

82 Benign and malignant mast cell disorders, 1261

Robert W. McKenna, Jose Hernandez, and LoAnn Peterson

83 The myelodysplastic syndromes, 1273

Patrick C. J. Ward

PART FIVE

Disorders of Hemostasis and Thrombosis

Rodger L. Bick

Genesio Murano

84 Physiology of hemostasis, 1285

Rodger L. Bick and Genesio Murano

85 Quality assurance in the hemostasis laboratory, 1309

Kim A. Musgrave and Douglas A. Triplett

86 Clinical evaluation of the patient with hemorrhage, 1317

Rodger L. Bick

87 Hereditary and acquired vascular bleeding disorders, 1325

Rodger L. Bick

88 Quantitative platelet defects, 1337

Rodger L. Bick

89 Qualitative platelet defects, 1369

Rodger L. Bick

90 Congenital coagulation protein disorders, 1391

Eberhard F. Mammen

91 Laboratory evaluation of congenital coagulation protein disorders, 1421

Eberhard F. Mammen

92 Clinical aspects of von Willebrand disease, 1435

Zaverio M. Ruggeri and Theodore S. Zimmerman

93 Laboratory diagnosis of von Willebrand disease, 1441

Theodore S. Zimmerman and Zaverio M. Ruggeri

94 Acquired coagulation protein defects, 1449

Eberhard F. Mammen

95 Disseminated intravascular coagulation and related syndromes, 1463

Rodger L. Bick

96 Hemostasis defects associated with cardiac surgery, prosthetic devices, extracorporeal circuits, and transplantation, 1501

Rodger L. Bick

97 Clinical aspects of acquired circulating anticoagulants, 1533

Rodger L. Bick

98 Laboratory evaluation of circulating anticoagulants, 1539

Douglas A. Triplett

99 Clinical approach to the patient with thrombosis, thromboembolus, and pulmonary embolus, 1549

Rodger L. Bick

100 Hypercoagulability and thrombosis, 1555

Rodger L. Bick

101 Alterations of hemostasis in malignancy, 1583

Rodger L. Bick

102 Antithrombotic therapy, 1603

Rodger L. Bick

103 Laboratory control of anticoagulant therapy, 1625

Meyer Michel Samama

104 Thrombolytic therapy, 1633

Genesio Murano and William R. Bell

PART SIX

Special Hemotherapeutic Methods

Rodger L. Bick

Genesio Murano

105 Blood component therapy, 1649

Asa Barnes

106 Red-cell substitutes, 1663

Steven A. Shoemaker

107 Plasma product therapy, 1667

John A. Penner

108 Indications for hemapheresis procedures in hematologic disorders, 1681

Alvaro A. Pineda and Edwin G. Taft

109 Bone marrow transplantation, 1691

Richard E. Champlin

Color Plates
