The Role of the Kidney in the Pathogenesis of Hypertension

- 1 Renal Excretory Function and Hypertension
*John E. Hall, Arthur C. Guyton, Thomas G. Coleman, Lori L. Woods, and
H. Leland Mizelle*
- 21 Sodium and Calcium Handling
Brian F. Robinson
- 35 Role of the Renin-Angiotensin-Aldosterone Axis in Human Hypertensive
Disorders
John H. Laragh
- 53 The Kidney in the Pathogenesis of Hypertension: Role of the Renal Nerves
John P. Koepke, Ulla C. Kopp, and Gerald F. DiBona
- 67 Role of Intraglomerular Hypertension in the Initiation and Progression of
Renal Disease
Sharon Anderson and Barry M. Brenner

The Kidney and Hypertension—Clinical Aspects

- 77 Pathology of the Kidney in Hypertension
Michael Kashgarian
- 91 Identifying Patients with Renovascular Hypertension
E. D. Vaughan, Jr., T. G. Pickering, and J. H. Laragh
- 109 Imaging Evaluation of the Hypertensive Patient
Bruce J. Hillman

Therapeutic Strategies in Hypertension

- 127 Principles of Antihypertensive Drug Therapy: An Overview
Norman M. Kaplan
- 145 Vasodilators and Beta-Adrenergic Antagonists
Stephen C. Textor
- 161 Angiotension Converting Enzyme Inhibitors: Evidence for Renin-Dependent
and Renin-Independent Mechanisms of Action
Randall M. Zusman

- 179 Diuretics
Burton D. Rose and Laurence A. Turka
- 197 Hypertensive Crises
C. Venkata S. Ram
- 213 Medical Management of Renovascular Hypertension
Thomas G. Pickering
- 225 Surgical Management of Renovascular Hypertension
Andrew C. Novick
- 239 Percutaneous Transluminal Renal Artery Angioplasty
D. E. Swarten
- 251 Management of Hypertension in the Patient with Renal Insufficiency or
Renal Failure
Richard S. Muther, Gerald M. Reid, and William M. Bennett
- 269 Subject Index
